The Outer Limits Obit:

The Outer Limits Joanne Morreale, 2022-04-05 Provides a history and criticism of an important disrupting force in early science fiction television programming In this TV Milestone author Joanne Morreale highlights the differences of The Outer Limits ABC 1963-65 from typical programs on the air in the 1960s Morreale argues that the show provides insight into changes in the television industry as writers turned to genre fiction in this case a hybrid of science fiction and horror to provide veiled social commentary The show illustrates the tension between networks who wanted mainstream entertainment and the independent writer producers Leslie Stevens and Joseph Stefano who wanted to use the medium to challenge viewers In five chapters The Outer Limits makes a case for the show's deployment of gothic melodrama and science fiction tropes unique televisual characteristics and creative adaptation of many cultural sources to interrogate the relationship between humans and technology in a way that continues to influence contemporary debate in such shows as Star Trek The X Files and Black Mirror Underlying the arguments is the eerie notion of The Outer Limits as a disruptive force on television at the time purposely making audiences uncomfortable For example in its iconic opening credit sequence a disembodied Control Voice claims to be taking over the television as images mimic signal interference Other themes convey Cold War paranoia ambivalence about the Kennedy era New Frontier and anxiety about the burgeoning military industrial governmental complex The book points out that The Outer Limits presaged what came to be known as quality television While most episodes followed the lowbrow tradition of televised science fiction by adapting previously published stories and films the series elevated the genre by rearticulating it through themes and images drawn from myth literature and the art film The Outer Limits is lucid yet accessible well researched and argued with enlightening discussions of specific episodes even as it gives attention to broader television history and theory It will be of special interest to scholars and students of television and media studies as well as fans of science fiction

The Outer Limits, 1963 **The Revolution Wasn't Televised** Lynn Spigel, Michael Curtin, 2013-10-08 Caricatures of sixties television called a vast wasteland by the FCC president in the early sixties continue to dominate our perceptions of the era and cloud popular understanding of the relationship between pop culture and larger social forces Opposed to these conceptions The Revolution Wasn't Televised explores the ways in which prime time television was centrally involved in the social conflicts of the 1960s It was then that television became a ubiquitous element in American homes The contributors in this volume argue that due to TV's constant presence in everyday life it became the object of intense debates over child raising education racism gender technology politics violence and Vietnam These essays explore the minutia of TV in relation to the macro structure of sixties politics and society attempting to understand the struggles that took place over representation the nation's most popular communications media during the 1960s

The Ascension Mysteries David Wilcock, 2016 Wilcock describes the secret cosmic battle between positive and negative happening every day hidden in both the traumas of our own lives and the world's headlines Through his contact

with a positive higher intelligence behind the UFO phenomenon groundbreaking scientific information and data from high ranking government whistle blowers he is able to reveal that the earth is now on the front lines of a battle that has been raging between positive and negative extraterrestrials for hundreds of thousands of years Earth is on the verge of a massive cosmic event that will transform matter energy consciousness and biological life as we now know it and will utterly defeat the great villains of our time

The Obituary as Collective Memory Bridget Fowler, 2007-11-13 The first serious academic study of obituaries this book focuses on how societies remember Bridget Fowler makes great use of the theories of Pierre Bordieu arguing that obituaries are one important component in society's collective memory This book the first of its kind will find a place on every serious sociology scholar's bookshelves

Irwin Allen Television Productions, 1964-1970 Jon Abbott, 2015-06-14 Before establishing himself as the master of disaster with the 1970s films *The Poseidon Adventure* and *The Towering Inferno* Irwin Allen created four of television's most exciting and enduring science fiction series *Voyage to the Bottom of the Sea* *Lost in Space* *The Time Tunnel* and *Land of the Giants* These 1960s series were full of Allen's favorite tricks techniques and characteristic touches and influenced other productions from the original *Star Trek* forward Every science fiction show owes something to Allen yet none has equaled his series pace excitement or originality This detailed examination and documentation of the premise and origin of the four shows offers an objective evaluation of every episode and demonstrates that when Irwin Allen's television episodes were good they were great and when they were bad they were still terrific fun
