**The Oxfam Handbook of Development and Relief (Volume 3).** Oxfam,1995 *The Oxfam Handbook of Development and Relief* Deborah Eade,Suzanne Williams,1995 This handbook is the product of the experience of Oxfam UK and Ireland in its work in over 70 countries around the world It offers an expression of Oxfam s fundamental principles that all the people have the right to an equitable share in the world s resources and the right to make decisions about their own development The denial of such rights is at the heart of poverty and suffering This reference work analyses policy procedure and practice in such fields as health human rights emergency relief capacity building and agricultural production *The Oxfam Handbook of Development and Relief* Deborah Eade,1995 **Grassroots Development** ,1992 Striking a Balance Alan Fowler,2013-10-11 At a time of rapid global change development NGOs are having to scale up their impact diversify their activities respond to long term crises and improve their performance on all fronts Striking a Balance offers both analysis and a practical guide to how NGOs can fulfil these demanding expectations Written for all those involved with NGO work the book describes the objectives of sustainable people centred development and the process required to achieve it focusing on the five factors which determine effectiveness suitable organisational design competent leadership and human resources appropriate external relationships mobilisation of high quality finance and the measurement of performance coupled to learning for leverage In each the book explains the capacities needed and how they can be assessed and improved Effectiveness calls for NGOs which retain their non profit values establish the right type of Professionalism manage dilemmas and balance choices to continually reflect the priorities rights and needs of those who give them legitimacy people who are poor and marginalised This book provides a reference of current and future practices which will help NGOs to do so The Solidarity Economy Tehila Sasson,2024-05-28 Histories of the economy often characterize the post war era as one of demoralization in which the rise of monetarism and neoliberalism marked a moral decline in public life The story Tehila Sasson tells here by contrast uncovers the humanitarian moral and popular origins of a new form of cultural capitalism one which promised that commerce could offer ethical progress after empire Unlike the more common story about the neoliberal and conservative right it focuses on the role of the British left and the nonprofit sector in particular in this transformation It follows economists MPs campaigners activists and journalists of the British left all of whom turned away from state led development towards a vision of decentralized fair trade markets For the key actors in this story it was the state not the marketplace that was morally vacant Haunted by the specter of imperial political economy they sought to bypass the state as the primary organizer of economic life Provided by publisher **The Routledge Companion to Landscape Studies** Peter Howard,Ian Thompson,Emma Waterton,2013 As a concept landscape does not respect disciplinary boundaries **Women's Empowerment in South Asia** Pranab Panday,2016-04-28 Economic development in the poorest countries often makes better progress when women become involved in and take a lead in development projects Encouraging

women's involvement however is often a major difficulty in societies where traditionally women's status has been inferior and where women are expected to be domestic and passive This book based on extensive original research considers major projects undertaken by non governmental organisations in Bangladesh to encourage women's participation The book identifies the factors which motivated women to be active discusses how women achieved the level of capacity and knowledge to enable them to serve their communities appropriately assesses the major difficulties and recommends how empowerment projects can be improved in future The book concludes that established institutions and traditional customs are often the greatest barrier to women's participation *DISASTER MITIGATION* PARDEEP SAHNI, ALKA DHAMEJA, UMA

MEDURY, 2001-01-01 Human vulnerability to natural disasters is an age old phenomenon Besides nature's wrath human interventions too have led to many calamities in the recent past The heedless pace of development has left us ecologically barren Most of the world's people live in developing economies as do most of the world's poor They also face the most debilitating consequences in the form of economic and social disruption caused by disasters The long history of disasters and their intensity has brought the question of disaster management to the forefront Disaster mitigation is a major component of a disaster management plan Mitigation entails measures to reduce the physical economic and social vulnerability of a community to disasters Disaster management is still an untouched domain suffering for want of systematic and committed research and development inputs It is essential not only to consolidate its academic stature but also to infuse the requisite knowledge skills and attitudes in the personnel connected with this field This collection of articles from several contributors is an excellent analysis of different mitigation strategies It offers insight into the different dimensions of disaster preparedness and mitigation The underlying attempt in each chapter is to illuminate the pertinence of those mitigation efforts that would prepare everyone related with disaster management to comprehend and approach the problem more holistically Besides government agencies NGOs and community based bodies the book is suitable for students pursuing the certificate programme in Disaster Management developed by the Indira Gandhi National Open University New Delhi

**Policy Transfer in Global Perspective** Mark Evans, 2017-07-05 The world of public policy is becoming increasingly small due to dramatic changes in global communications political and economic institutional structures and to nation states themselves This book evaluates the implications of these changes and challenges for both the study and the practice of policy transfer and provides a unique understanding of the relationship between systemic globalizing forces and the increasing scope and intensity of policy transfer activity It provides an explanation of policy transfer as a process of organizational learning an insight into how and why such processes are studied by policy scientists an evaluation of its use by policy practitioners and the first published collection of policy transfer case studies between developed countries from developed to developing countries and from developing countries *Social Transformations in India, Myanmar, and Thailand: Volume I*

Chosein Yamahata, Donald M. Seekins, Makiko Takeda, 2021-01-02 This book focuses on the different challenges and

opportunities for social transformation in India Myanmar and Thailand by centering communities and individuals as the main drivers of change In doing so it includes discussions on a wide array of issues including women s empowerment and political participation ethno religious tensions plurilingualism education reform community based healthcare climate change disaster management ecological systems and vulnerability reduction Two core foundations are introduced for ensuring broader transformations The first is the academic diplomacy project a framework for an engaged academic enquiry focusing on causative curative transformative and promotive factors The second is a community driven collective struggle that serves as a grassroots possibility to facilitate positive social transformation by using locally available resources and enabling the participation of the resident population As a whole the book conveys the importance of a diversification of engagement at the grassroots level to strengthen the capacity of individuals as decisive stakeholders where the process of social transformation makes communities more interconnected interdependent multicultural and vital in building an inclusive society      *Change Management for Information Services* Sharon Penfold, Sheila Allcock, 1999 At a time when most organizations are in transformation helping LIS professionals cope with change management is essential This book transforms theories of change management into practical guidelines summaries and lists for the information profession while explaining the implications of the information society on the profession An invaluable aid in establishing clarity of organization and direction it also includes helpful case studies recommended reading and a bibliography      *Chaos Organization and Disaster Management* Alan Kirschenbaum, 2003-11-18 *Chaos Organization and Disaster Management* offers a scholarly survey of disaster response behavior and management in the face of natural and manmade catastrophe The author provides a methodological and empirical platform from which to initiate a critical analysis of disaster management Sparked by a unique field study of the Israeli experience during the Gulf War this book demonstrates the massive divide between individual responses to disaster and the actual functioning of disaster management organizations It exposes the fundamental flaws of disaster management agencies analyzing disasters from the perspectives of both agencies and potential victims Formulating an alternative approach to disaster management that draws upon the advantages of privatization this volume appraises methods of measuring disaster agency effectiveness emphasizing the citizen vantage point and stakeholder evaluations It outlines the intrinsic bureaucratic constraints that impede the efficacy of government agencies and reveals the disconnect between organizational and victim perceptions of disaster By highlighting a new empirically based understanding of disaster behavior the book recommends moving the focus of disaster management to a social process model that will save lives      *Handbook of Human Rights* Thomas Cushman, 2012-02-20 The Handbook maps out the field of human rights for the humanities and social sciences It provides a solid foundation for the reader who wants to learn the basic parameters of the field but also to promote new thinking and frameworks for the future study of human rights in the twenty first century      *British Reports, Translations and Theses* British Library. Ciottone's Disaster Medicine - E-Book Gregory R. Ciottone, 2023-03-07 While medical specialists in disaster mitigation, preparedness and response are needed worldwide, the initial phase of disaster response is almost entirely dependent upon local resources, making it essential that all healthcare personnel have a working knowledge of the field and stand ready to integrate into the response system. Ciottone's *Disaster Medicine* 3rd Edition is the most comprehensive reference available to help accomplish these goals in every community. It thoroughly covers isolated domestic events as well as global disasters and humanitarian crises. Dr Gregory Ciottone and more than 200 worldwide authorities share their knowledge and expertise on the preparation, assessment and management of both natural and man-made disasters, including lessons learned by the responders to contemporary disasters such as the COVID-19 pandemic, Australian and western U.S. wildfires, European heatwaves, the Beirut explosion, recent hurricanes and typhoons, and the global refugee crisis. Part 1 offers an A to Z resource for every aspect of disaster medicine and management, while Part 2 features an exhaustive compilation of every conceivable disaster event organized to facilitate quick reference in a real-time setting. Covers basic concepts such as identification of risks, organizational preparedness, equipment planning, disaster education and training, and more advanced concepts such as disaster risk reduction, health in complex emergencies, building local disaster resiliency, psychological impact of disasters on children, and more. Contains new decision trees throughout that help guide you through the decision-making process in difficult situations. Uses an easy-to-follow templated approach to historical perspectives, overviews of current practice including pre-incident and post-incident actions, medical treatment of casualties and potential pitfalls. Includes updated sections on man-made disasters including mass casualties, active shooter situations, integrated response to terrorist attacks and chemical, biological, radiological, nuclear, high-yield explosives disasters. Discusses the latest technologies such as the use of mobile disaster applications, drone response systems and virtual reality simulation training. Features thoroughly updated information on crisis leadership, practical applications of disaster epidemiology, disaster and climate change, and the integration of non-government agencies, NGOs in disaster response, a critical topic for those responding to humanitarian needs overseas. Includes new chapters on Pandemic Preparedness and Response, Disaster Medicine in a Changing Climate, Disaster Response in Asia, Building Local Capacity and Disaster Resiliency, Civilian Military Coordination in Disaster Response, Medical Simulation in Disaster Preparedness, Disaster Nursing, Crisis, Meta Leadership.

**Humanitarianism and the Quantification of Human Needs** Joël Glasman,2020-01-06 This book provides a historical inquiry into the quantification of needs in humanitarian assistance Needs are increasingly seen as the lowest common denominator of humanity Standard definitions of basic needs however set a minimalist version of humanity both in the sense that they are narrow in what they compare and that they set a low bar for satisfaction The book argues that we cannot understand humanitarian governance if we do not understand how humanitarian agencies made human suffering commensurable across borders in the first place The book identifies four basic elements of needs As a concept as a system of classification and triage as a material apparatus and as a set of standards Drawing on a range of archival sources including the United Nations Refugee Agency UNHCR M decins sans Fronti res MSF and the Sphere Project the book traces the concept of needs from its emergence in the 1960s right through to the present day and United Nations Secretary General Ban Ki moon s call for evidence based humanitarianism Finally the book assesses how the international governmentality of needs has played out in a recent humanitarian crisis drawing on field research on Central African refugees in the Cameroonian borderland in 2014 2016 This important historical inquiry into the universal nature of human suffering will be an important read for humanitarian researchers and practitioners as well as readers with an interest in international history and development *How To Do Primary Care Research* Felicity Goodyear-Smith,Robert Mash,2018-10-10 This practical How To guide talks the reader step by step through designing conducting and disseminating primary care research a growing discipline internationally The vast majority of health care issues are experienced by people in community settings who are not adequately represented by hospital based research There is therefore a great need to upskill family physicians and other primary care workers and academics to conduct community based research to inform best practice Aimed at emerging researchers including those in developing countries this book also addresses cutting edge and newly developing research methods which will be of equal interest to more experienced researchers
