Heredity of Taste Soseki Natsume, 2012-02-07 Written in eight days in December 1905 and published in the January 1906 issue of the magazine Teikoku Bungaku Imperial Literature Shumi no iden The Heredity of Taste is Soseki Natsume's only anti war work Chronicling the mourning process of a narrator haunted by his

friend's death the story reveals Soseki's attitude to the atrocity of war specifically to the Russo Japanese War of 1904-5 and to the personal tragedies and loss of individuality of young men like his hero Ko-san and the sacrifices made by both the living and the dead. Although the first part of the story powerfully describes the narrator's visions of the war dead including the recurring vision of Ko-san who cannot climb out of a ditch and return from the war it is the second half in which a beautiful and mysterious woman appears before the narrator at Ko-san's grave with the promise of transcendence that grips our attention. The story centers on finding out the identity of this woman and her relationship with Ko-san with its implication that what should have been a love story has been shattered by the reality of war a reminder of the magnitude of Japan's sacrifice for its so-called victory.

[The Philosophy of Qi](#) Kaibara Ekken, 2007-03-20 The Record of Great Doubts emphasizes the role of qi in achieving a life of engagement with other humans with the larger society and with nature as a whole. Rather than encourage transcendental escapism or quietism Ekken articulates a philosophy of material force as a basis of living a life of commitment to the world. In this spirit moral cultivation is not an isolated or a self-centered preoccupation but an activity that occurs within the dynamic forces of nature and amid the rigorous demands of society. In this context a vitalism of qi is an emergent force not only providing the philosophical grounding for this vibrant interaction but also giving a basis for an investigation of the natural world that plumbs the principle within things. Ekken thus aimed to articulate a creative and dynamic milieu for moral education political harmony social coherence and agricultural sustainability. The Record of Great Doubts embodies Ekken's profound commitment to Confucian ideas and practices as a method for establishing an integrative ethical vision one he hoped would guide Japan through a new period of peace and stability. A major philosophical treatise in the Japanese Neo-Confucian tradition The Record of Great Doubts illuminates a crucial
