

A surreal, dreamlike landscape. In the foreground, a complex maze of stone paths leads towards a central point. A small, dark silhouette of a person is sitting in a meditative lotus position on one of the paths. The background is a vibrant, ethereal scene. On the left, several large, ornate, golden masks with hollow eyes and mouths are stacked vertically. In the center, a bright, golden light source, resembling a sun or a fire, illuminates the scene, with rays of light extending outwards. To the right, a large, blue, swirling vortex or portal is visible against a dark, starry sky. The overall atmosphere is one of mystery, introspection, and spiritual journey.

**The Paradox of Self Realization** Todd Vickers, 1999-12-15      **Pilgrimage Into God** Sicco Claus, 2023-04 Pilgrimage into God A Study of John Main s Meditation Oriented Spirituality is a comprehensive investigation of the heritage of the Benedictine monk John Main 1926 1982 This founder of a worldwide movement for Christian meditation understands meditation as an intentional transcending of all mental processes Contrary to popular opinion which associates meditation uniquely with Eastern traditions Main considers meditative practice to be essential and central to Christian faith This study not only explores Main s views on practise but also looks into his theology his understanding of spiritual growth and the ideal contexts for achieving such growth It does this by critically situating Main s spiritual teaching within the Christian tradition and exploring its relation to Charles Taylor s interpretation of the modern spiritual condition This study also aims at exploring how Main s heritage may contribute to illuminating Christian spiritual life today      **The Oxford Handbook of Reinhold Niebuhr** Robin Lovin, Joshua Mauldin, 2021 This authoritative Handbook features 38 chapters placing Reinhold Niebuhr 1892 1971 in his historical context to offer readers an appreciation of his insights and how he was received by his contemporaries      **The Cambridge Handbook of Identity** Michael Bamberg, Carolin Demuth, Meike Watzlawik, 2021-11-11 While identity is a key concept in psychology and the social sciences researchers have used and understood this concept in diverse and often contradictory ways The Cambridge Handbook of Identity presents the lively multidisciplinary field of identity research as working around three central themes i difference and sameness between people ii people s agency in the world and iii how identities can change or remain stable over time The chapters in this collection explore approaches behind these themes followed by a close look at their methodological implications while examples from a number of applied domains demonstrate how identity research follows concrete analytical procedures Featuring an international team of contributors who enrich psychological research with historical cultural and political perspectives the handbook also explores contemporary issues of identity politics diversity intersectionality and inclusion It is an essential resource for all scholars and students working on identity theory and research      **Dewey's Ethical Thought** Jennifer Welchman, 2018-05-31 In the first book on the development of John Dewey s ethical thought Jennifer Welchman revises the prevalent interpretation of his ethics Her clear and engaging account traces the history of Dewey s distinctive moral philosophy from its roots in idealism during the 1890s through the pragmatist approach of his 1922 work Human Nature and Conduct Central to the development of Dewey s ethics was his lifelong conviction that the realms of science and morals facts and values were reconcilable This conviction Welchman demonstrates drove Dewey to reject the orthodox ethics of his day in favor of radical alternatives first absolute idealism and later pragmatism She reveals how Dewey came to adopt and subsequently to modify idealist ethics of self realization Welchman then explores the transformations in Dewey s conception of science that exploded the fragile truce between fact and value that he had negotiated as an idealist Finally she examines how Dewey developed his own

instrumentalist accounts of moral value conduct and character that culminated in his best known work of ethics *Human Nature and Conduct*

***The Human Paradox*** Ralph Heintzman, 2022-08-31 What is a human being What does it mean to be human How can you lead your life in ways that best fulfil your own nature In *The Human Paradox* Ralph Heintzman explores these vital questions and offers an exciting new vision of the nature of the human *The Human Paradox* aims to counter or correct several contemporary assumptions about the nature of the human especially the tendency of Western culture since the seventeenth century to identify the human with rationality and the rational mind Using the lens of the virtues *The Human Paradox* shows how rediscovering the nature of the human can help not just to understand one's own paradoxical nature but to act in ways that are more consistent with its full reality Offering accessible insight from both traditional and contemporary thought *The Human Paradox* shows how a fuller richer vision of the human can help address urgent contemporary problems including the challenges of cultural and religious diversity human migration and human rights the role of the market artificial intelligence the future of democracy and global climate change This fresh perspective on the Western past will guide readers into what it means to be human and open new possibilities for the future

***Agape*** Gene H. Outka, 1977-09-10 This study is the most comprehensive account to date of modern treatments of the love commandment Gene Outka examines the literature on agape from Nygren's *Agape and Eros* in 1930 Both Roman Catholic and Protestant writings are considered including those of D Arcy Niebuhr Ramsey Tillich and above all Karl Barth The first seven chapters focus on the principal treatments in the theological literature as they relate to major topics in ethical theory The last chapter explores further the basic normative content of agape and discusses some of the most characteristic problems The book is in my judgment the best recent work in religious ethics Outka brings together analytic moral philosophy and theological ethics providing a masterly survey of views and issues arising in the past forty years I can think of few books of interest to scholars in both philosophy and theology but Outka's is one Unlike some scholars who are at home in continental theology Outka is also at home in secular analytic philosophy he brings them together in a mutually illuminating way Donald Evans Outka has mastered this vast literature on love and has brought a critical and clarifying analysis to bear upon it This is a most important book on a most important subject and brings the whole discussion into a new phase John Macquarrie The first thing to be said about Outka's book quite simply is that it is excellent in fact it is probably the very best available book about contemporary Christian ethical theory

***The Paradoxes of Aid Work*** Silke Roth, 2015-03-24 This book explores what attracts people to aidwork and to what extent the promises of aidwork are fulfilled Aidland is a highly complex and heterogeneous context which includes many different occupations forms of employment and organizations Analysing the processes that lead to the involvement in development cooperation emergency relief and human rights work and tracing the pathways into and through Aidland the book addresses working and living conditions in Aidland gender relations and inequality among aid personnel and what impact aidwork has on the life courses of aidworkers In order to capture the

trajectories that lead to Aidland a biographical perspective is employed which reveals that boundary crossing between development cooperation emergency relief and human rights is not unusual and that considering these fields as separate spheres might overlook important connections Rich reflexive data is used to theorize about the often contradictory experiences of people working in aid whose careers are shaped by geo politics changing priorities of donors and a changing composition of the aid sector Exploring the life worlds of people working in aid this book contributes to the emerging sociology and anthropology of aidwork and will be of interest to professionals and researchers in humanitarian and development studies sociology anthropology political science and international relations international social work and social psychology
