Rupert Sheldrake's more than 25 years of research into telepathy, staring and intention precognition and animal premonitions. Shows that unexplained human abilities such as the sense of being stared at and phone telepathy are not paranormal but normal part of our biological nature. Draws on more than 5 000 case histories, 4 000 questionnaire responses and the results of experiments carried out with more than 20 000 people. Reveals that our minds and intentions extend beyond our brains into the world around us and even into the future. Nearly everyone has experienced the feeling of being watched or had their stare result in a glance in their direction. The phenomenon has been cited throughout history in nearly every culture along with other commonplace paranormal occurrences such as premonitions and telepathy. In this newly updated edition Sheldrake shares his more than 25 years of research into telepathy, the power of staring, remote viewing, precognition and animal premonitions. Drawing on more than 5 000 case histories, 4 000 questionnaire responses and the results of experiments on staring, thought transference, phone telepathy and other phenomena carried out with more than 20 000 people as well as reports and data from dozens of independent research teams, Sheldrake shows that these unexplained human abilities such as the sense of being stared at are not paranormal but normal part of our biological nature. He reveals that telepathy depends on social bonds and traces its evolution from the connections between members of animal groups such as flocks, schools and packs. Sheldrake shows that our minds and intentions extend beyond our brains into our surroundings with invisible connections that link us to each other, to the world around us and even to the future. Colin Wilson, 2011-10-05. Is the near death experience a defense mechanism of the brain or have people actually been on the threshold of another world? Colin Wilson assesses the evidence that includes mediumship, paranormal activity, spirit sightings and spirit communications. Above all, he includes the striking case histories of people who claim to have died and reported their experiences of the afterlife. **Time, Memory, Consciousness and the Cinema Experience**

Tony Jinks, 2016-10-03. Have you ever had your car keys or television remote control inexplicably vanish from under your nose only to reappear months later in another part of the house for no evident reason? Most would dismiss it as absent-mindedness with perhaps a joking remark about paranormal activity. Yet remarkable circumstances surrounding many such accounts suggest that the mysterious

disappearance of objects could be more than just one of those things Examining a large selection of fascinating narratives this book reviews the disappearing object phenomenon DOP from a scientific standpoint Both skeptical and supportive perspectives on DOP are considered leading to the conclusion that disappearing appearing and reappearing objects are indicators of a controversial take on the nature of reality

The Ezzrath Metaphysical and Biblical Encyclopedia Ezzrath Baht Shem,2001-10 The Ezzrath Metaphysical and Biblical Encyclopedia explains terminology found in both the Bible and Metaphysics Sample terminologies are Inanna Enki Holy Grail paranormal incantations Kabbalah Adam Kadmon Chakra Anunnaki Vedic Culture Transfiguration Alchemy Merkabah Bible Canon Zoraosta and so forth This book is an excellent compliment to the Ultimate Deceit of the Human Race as a reference guide

A New Approach to Synchronicity Lance Storm,2025-03-26 This book offers an up to date handling of C G Jung s Theory of Synchronicity and the more mainstream paranormal phenomena known as extra sensory perception ESP and psychokinesis PK collectively referred to as psi Author Lance Storm re works various aspects of synchronicity traditionally marginalized by parapsychologists to bring about a paradigm shift in the field Most often seen as fundamentally different the book draws parallels between psi and synchronicity and equates the two arguing that psi was all along a form of synchronicity just as Jung had anticipated To achieve this Storm necessarily modifies both the parapsychologist s view about psi and Jung s views about synchronicity enabling a satisfactory merger of the two paranormal phenomena Based on rigorous scientific research and written in an easy to understand style this book is an important resource for specialists such as anomalistic psychologists parapsychologists philosophers paranormalists and theologians

The Encyclopedia of Parapsychology Courtney M. Block,2022-09-14 Superbly organized and researched this book by Block provides a comprehensive presentation about parapsychology Library Journal Starred Review The Encyclopedia of Parapsychology covers the history of parapsychology key international figures and a decade by decade annotated bibliography of research It includes find information on early psychical researchers from around the globe and how the work of those psychical researchers inspired the creation of the modern field of parapsychology Alongside biographical entries about key figures are sketches of those at the center of psychical inquiry like mediums and others who seemingly have the ability to manifest strange phenomena The Encyclopedia covers the Spiritualism era which influenced early psychical inquiry and how it influenced psychical thought around the globe More contemporary coverage includes biographical entries for current international researchers who continue to investigate the depths of psi phenomena In order to provide comprehensive coverage of historical and modern research into psi phenomena the Encyclopedia features a decade by decade bibliography of resources that highlight the shifting theories and experiments of the field starting from the 1870s and going through the 2020s This section includes a wide variety of research into topics such as psychokinesis hauntings poltergeists also known as recurrent spontaneous psychokinesis near death experiences extrasensory perception remote viewing and much more Appendices provide information on international parapsychological research organizations

and a quick start research guide With information on key figures and research on an international scale The Encyclopedia of Parapsychology provides an approachable yet comprehensive compendium of information *Science and the Near-Death Experience* Chris Carter,2010-08-23 The scientific evidence for life after death Explains why near death experiences NDEs offer evidence of an afterlife and discredits the psychological and physiological explanations for them Challenges materialist arguments against consciousness surviving death Examines ancient and modern accounts of NDEs from around the world including China India and many from tribal societies such as the Native American and the Maori Predating all organized religion the belief in an afterlife is fundamental to the human experience and dates back at least to the Neanderthals By the mid 19th century however spurred by the progress of science many people began to question the existence of an afterlife and the doctrine of materialism which believes that consciousness is a creation of the brain began to spread Now using scientific evidence Chris Carter challenges materialist arguments against consciousness surviving death and shows how near death experiences NDEs may truly provide a glimpse of an awaiting afterlife Using evidence from scientific studies quantum mechanics and consciousness research Carter reveals how consciousness does not depend on the brain and may in fact survive the death of our bodies Examining ancient and modern accounts of NDEs from around the world including China India and tribal societies such as the Native American and the Maori he explains how NDEs provide evidence of consciousness surviving the death of our bodies He looks at the many psychological and physiological explanations for NDEs raised by skeptics such as stress birth memories or oxygen starvation and clearly shows why each of them fails to truly explain the NDE Exploring the similarities between NDEs and visions experienced during actual death and the intersection of physics and consciousness Carter uncovers the truth about mind matter and life after death *Science and the Afterlife Experience* Chris Carter,2012-08-22 Reveals the evidence of life beyond death Examines 125 years of scientific research into reincarnation apparitions and communication with the dead showing these phenomena are real Reveals the existence of higher planes of consciousness where the souls of the dead can choose to advance or manifest once again on Earth Explains how these findings have been ignored and denied because they are incompatible with materialist doctrines In this book Chris Carter shows that evidence of life beyond death exists and has been around for millennia predating any organized religion Focusing on three key phenomena reincarnation apparitions and communications from the dead Carter reveals 125 years of documented scientific studies by independent researchers and the British and American Societies for Psychical Research that rule out hoaxes fraud and hallucinations and prove these afterlife phenomena are real The author examines historic and modern accounts of detailed past life memories visits from the deceased and communications with the dead via medium and automatic writing as well as the scientific methods used to confirm these experiences He explains how these findings on the afterlife have been ignored and denied because they are incompatible with the prevailing doctrine of materialism Sharing messages from the dead themselves describing the afterlife Carter reveals how consciousness exists outside the parameters

of biological evolution and emerges through the medium of the brain to use the physical world as a springboard for growth After death souls can advance to higher planes of consciousness or manifest once again on Earth Carter s rigorous argument proves beyond any reasonable doubt not only that consciousness survives death and continues in the afterlife but that it precedes birth as well

ESP, Superhuman Abilities, and Unexplained Powers Alicia Z. Klepeis, 2017-07-15 For decades many people have been enthralled with the abilities of superheroes super strength super speed and mind control But what if powers like these and more could be realized in real life This book explores some of the most believable accounts of superhuman abilities and uses science to help prove or disprove certain powers Full of photographs eyewitness accounts hoaxes and scientific evidence this book delves into the real world of superpowers
