The People At Play:

The Golden Rule and the Games People Play Rabbi Rami Shapiro, 2015-10-27 Does the Golden Rule matter It depends on the game We have to shift the game before we can promote the Rule This is why teaching morality alone is insufficient Educating our children in the Golden Rule without teaching about finite and infinite games and zero sum and nonzero worldviews is a waste of time Doing so would be like teaching them the rules of chess while insisting they play only checkers from Chapter 10 Play Different This provocative and challenging exploration of the Golden Rule widely accepted as humanity's moral true north neither praises the Rule uncritically nor naively insists that it is applicable in every situation Rather it looks critically at the Rule in the context of game theory to see where it works and where it doesn't when it is applicable and when it isn't It shows you why knowing the difference can offer you a powerful way to transform your life from one driven by fear to one driven by love This philosophical game changer is written for people of all faiths or none who praise the Rule and yet violate it over and over again It invites you into the fascinating world of ethical decision making in a way that helps you use the Golden Rule as a fulcrum for shifting your life from often unethical competition to compassionate and even loving cooperation

The Games People Play Robert Ellis, 2014-04-21 In *The Games People Play* Robert Ellis constructs a theology around the global cultural phenomenon of modern sport paying particular attention to its British and American manifestations Using historical narrative and social analysis to enter the debate on sport as religion Ellis shows that modern sport may be said to have taken on some of the functions previously vested in organized religion Through biblical and theological reflection he presents a practical theology of sport's appeal and value with special attention to the theological concept of transcendence Throughout he draws on original empirical work with sports participants and spectators *The Games People Play* addresses issues often considered problematic in theological discussions of sport such as gender race consumerism and the role of the modern media as well as problems associated with excessive competition and performance enhancing substances As Ellis explains Sporting journalists often use religious language in covering sports events Salvation features in many a headline and talk of moments of redemption is not uncommon Perhaps somewhere beyond the clichéd hyperbole there is some theological truth in all this after all
