Dining Room Detectives Silvia Baucekova, 2015-09-04 In the structuralist understanding as proposed by John G Cawelti a classical detective novel is defined as a formula which contains prescribed elements and develops in a predefined ritualistic manner When described in this way the crime fiction formula

very closely resembles a recipe when one cooks they also add prescribed ingredients in a predefined way in order to produce the final dish This surprising parallel serves as the starting point for this book s analysis of classical detective novels by Agatha Christie Here a structuralist approach to Golden Age crime fiction is complemented by methodology developed in the field of food studies in order to demonstrate the twofold role that food plays in Christie s novels namely its function as an element of the formula a literary device but also as a cultural sign Christie employed food on various different levels of her stories in order to portray characters construct plots and depict settings What is more incorporating domesticity and food in her novels helped her fundamentally alter the rigid conventions of the crime fiction genre as it developed in the nineteenth century and enabled her to successfully introduce the character of the female detective and to feminise the detective novel as such

The Cooking of History Stephan Palmié,2013-06-14 Over a lifetime of studying Cuban Santería and other religions related to Orisha worship a practice also found among the Yoruba in West Africa Stephan Palmi has grown progressively uneasy with the assumptions inherent in the very term Afro Cuban religion In *The Cooking of History* he provides a comprehensive analysis of these assumptions in the process offering an incisive critique both of the anthropology of religion and of scholarship on the cultural history of the Afro Atlantic World Understood largely through its rituals and ceremonies Santería and related religions have been a challenge for anthropologists to link to a hypothetical African past But Palmi argues precisely by relying on the notion of an aboriginal African past and by claiming to authenticate these religions via

their findings anthropologists some of whom have converted to these religions have exerted considerable influence upon contemporary practices Critiquing widespread and damaging simplifications that posit religious practices as stable and self contained Palmi calls for a drastic new approach that properly situates cultural origins within the complex social environments and scholarly fields in which they are investigated
