Thate, 2019-10-04 If scholars no longer necessarily find the essence and origins of what came to be known as Christianity in the personality of a historical figure known as Jesus of Nazareth it nevertheless remains the case that the study of early Christianity is dominated by an assumption of the force of Jesus's personality on divergent communities In The Godman and the Sea Michael J Thate shifts the terms of this study by focusing on the Gospel of Mark which ends when Mary Magdalene Mary the mother of James and Salome discover a few days after the crucifixion that Jesus's tomb has been opened but the corpse is not there Unlike the other gospels Mark does not include the resurrection portraying instead loss puzzlement and despair in the face of the empty tomb Reading Mark's Gospel as an exemplary text Thate examines what he considers to be retellings of other traumatic experiences the stories of Jesus's exorcising demons out of a man and into a herd of swine his stilling of the storm and his walking on the water Drawing widely on a diverse set of resources that include the canon of western fiction classical literature the psychological study of trauma phenomenological philosophy the new materialism psychoanalytic theory poststructural philosophy and Hebrew Bible scholarship as well as the expected catalog of New Testament tools of biblical criticism in general and Markan scholarship in particular The Godman and the Sea is an experimental reading of the Gospel of Mark and the social force of the sea within its traumatized world More fundamentally however it attempts to position this reading as a story of trauma ecstasy and what has become through the ruins of past pain The Secret Fire J. Japan Conrad Totman,2014-01-30 From the outset society in Japan has been shaped by its environmental context The lush green mountainous archipelago of today with its highly productive lowlands supports a population of more than 127 million people and one of the most advanced economies in the world How has this come about and at what environmental cost Conrad Totman one of the world s foremost scholars on Japanese here provides a comprehensive and detailed account of the country s environmental history from its beginnings to the present day Professor Totman traces the country s development through successive historical phases as early agricultural society based on non intensive forms of cultivation gave way to more intensified forms With each stage came greater utilisation of natural resources but a steady reduction in the richness of the indigenous biosystem By the late seventeenth century the country was well on the way to ecological disaster Yet Japan s isolation in the seventeenth and eighteenth centuries led to an unusually enlightened set of environmental policies and the system of regenerative forestry brought in during the Tokugawa period prevented certain devastation of the country s forests At the end of the nineteenth century however the country began to go to the opposite extreme as industrialisation brought with it a period of unprecedented change Growth and diversification led to a surge in environmental pollution as it became necessary to look beyond the country s domestic natural resources to meet the demand for foodstuffs fossil fuels and the raw materials necessary to an advanced industrial economy The population was particularly badly affected and some of the problems that emerged especially from the 1960s onwards provided important test cases not just for Japan but worldwide What makes the Japanese story particularly instructive is that the country s boundaries are uncommonly clear and the nature timing and extent of external influences on its history are unusually identifiable The Japanese experience therefore not only yields important insights into the processes of environmental history it offers important lessons for the wider environmental history of the planet and for our understanding of current global ecological problems A work of immense erudition and reflecting a lifetime of scholarship Japan an Environmental History will be welcomed by all with an interest in environmental history and the historical development of Japan

Hakata Andrew Cobbing,2013-04-15 In Hakata The Cultural Worlds of Northern Kyushu

experts in various fields have collaborated to produce an interdisciplinary collection offering diverse insights on a region yet to be fully addressed in English. A historic port situated in a strategically vital region as the closest point of contact with the Asian continent, Hakata has long served as a key hub in the transcultural networks linking Japan with the outside world. This volume explores the rich legacy of these wider interactions, in particular the cosmopolitan international dimension deeply embedded in Hakata's urban culture. With an identity all its own and quite distinct from other regions in Japan, it is a culture once again increasingly relevant in today's world of borderless communications.

Networks of Faith and Profit Yiwen Li, 2023-05-31 Between 839 and 1403 CE there was a six-century lapse in diplomatic relations between present-day China and Japan. This hiatus in what is known as the tribute system has led to an assumption that there was little contact between the two countries in this period. Yiwen Li debunks this assumption, arguing instead that a vibrant Sino-Japanese trade network flourished in this period as Buddhist monks and merchants fostered connections across maritime East Asia. Based on a close examination of sources in multiple languages, including poems and letters, transmitted images and objects, and archaeological discoveries, Li presents a vivid and dynamic picture of the East Asian maritime world. She shows how this Buddhist trade network operated outside of the framework of the tribute system and through novel interpretations of Buddhist records, provides a new understanding of the relationship between Buddhism and commerce.

The East Asian Mediterranean Angela Schottenhammer, 2008 The present volume is a collection of papers originally presented for the concluding conference of the research project *The East Asian Mediterranean*, entitled *The East Asian Mediterranean Maritime Crossroads of Culture, Commerce and Human Migration* and held at Munich University from November 2-3, 2007. The papers in this volume have been arranged according to thematic sections: that is, Mediterranean Seas from East Asia to East Africa; Merchants and merchant networks; Commodities and transport; and finally, Trade parameters and perceptions. Each section covering a different aspect of trade, diplomacy, and perceptions across and within the East Asian and Asian waters. In order to show the variety and the different qualities of interaction and exchange relations, we have selected case studies with a main focus lying on Sino-Japanese, Sino-Ryukyuan, and Japanese-Korean relations, as well as the involvement of Muslim merchants in the Asian waters. The volume, in particular, tries to draw the reader's attention to the necessity and the advantages of international cooperation and interaction, investigating topics of Asian history.

Shakespeare, Caravaggio, and the Indistinct Regard Rocco Coronato, 2017-10-31 This volume presents a contrastive study of the overlapping careers of Shakespeare and Caravaggio through the comparison of their strikingly similar conventional belief in symbol and the centrality of the subject, only to gradually open it up in an exaltation of multiplicity and the indistinct regard. Utilizing a methodological premise on the notions of early modern indistinction and multiplicity, Shakespeare, Caravaggio, and the Indistinct Regard analyses the survival of English art after iconoclasm and the circulation of Italian art and motifs, methodologically reassessing the conventional comparison between painting and literature. The book examines Caravaggio's

and Shakespeare's works in the perspective of the gradual waning of symbolism the emergence of chiaroscuro and mirror imagery underneath their radically new concepts of representation and the triumph of multiplicity and indistinction Furthermore this work assesses the validity of the twin concepts of multiplicity and indistinction as an interpretive tool in a dialectical interplay with much recent work on indeterminacy in literary criticism and the sciences Apostle on the Edge Michael R. Cosby, 2009-10-20 Author and teacher Michael R Cosby provides a wonderful guide to Paul's letters helping students relate them to their own cultural setting and figure out for themselves what they mean Irreverent entertaining engaging and fun yet grounded in sound theology Cosby's textbook full of pictures questions and insights is certain to be a most popular educational tool *Always Ready: The U.S. Coast Guard* Kit Bonner Carolyn Bonner, 2004 The U S Coast Guard's motto Semper Paratus translates to Always Ready which is the code by which thousands of men and women have lived and died The U S Coast Guard conducts maritime security safety homeland security military duties in time of war ice operations and many other duties that sometimes go unnoticed In an average day there are 109 search and rescue missions and 10 lives are saved This book covers the fascinating history of this branch of the military providing information on various duties and discuss how the U S Coast Guard has changed since September 11 2001
