Islam and the Trajectory of Globalization

Louay M. Safi, 2021-10-18 The book examines the growing tension between social movements that embrace egalitarian and inclusivist views of national and global politics most notably classical liberalism and those that advance social hierarchy and national exclusivism such as neoliberalism neoconservatism and national populism In exploring issues relating to tensions and conflicts around globalization the book identifies historical patterns of convergence and divergence rooted in the monotheistic traditions beginning with the ancient Israelites that dominated the Near East during the Axial age through Islamic civilization and finally by considering the idealism realism tensions in modern times One thing remained constant throughout the various historical stages that preceded our current moment of global convergence a recurring tension between transcendental idealism and various forms of realism Transcendental idealism which prioritize egalitarian and universal values pushed periodically against the forces of realism that privilege established law and power structure Equipped with the idealism realism framework the book examines the consequences of European realism that justified the imperialistic venture into Africa the Middle East and Latin America in the name of liberation and liberalization The ill conceived strategy has ironically engendered the very dysfunctional societies that produce the waves of immigrants in constant motion from the South to the North simultaneously as it fostered the social hierarchy that transfer external tensions into identity politics within the countries of the North The book focuses particularly on the role played historically by Islamic rationalism in translating the monotheistic egalitarian outlook into the institutions of religious pluralism legislative and legal autonomy and scientific enterprise at the foundation of modern society It concludes by shedding light on the significance of the Muslim presence in Western cultures as humanity draws slowly but consistently towards what we may come to recognize as the Global Age The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9781003203360> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Kirman and the Qajar Empire

James Gustafson, 2015-07-16 Despite its apparently peripheral location in the Qajar Empire Kirman was frequently found at the centre of developments reshaping Iran in the 19th century Over the Qajar period the region saw significant changes as competition between Kirmani families rapidly developed commercial cotton and opium production and a world renowned carpet weaving industry as well as giving strength to radical modernist and nationalist agitation in the years leading up to the 1906 Constitutional Revolution Kirman and the Qajar Empire explores how these Kirmani local elites

mediated political economic and social change in their community during the significant transitional period in Iran's history from the rise of the Qajar Empire through to World War I. It departs from the prevailing centre periphery models of economic integration and Qajar provincial history engaging with key questions over how Iranians participated in reshaping their communities in the context of imperialism and growing transnational connections. With rarely utilized local historical and geographical writings as well as a range of narrative and archival sources, this book provides new insight into the impact of household factionalism and estate building over four generations in the Kirman region. As well as offering the first academic monograph on modern Kirman, it is also an important case study in local dimensions of modernity. This book will be of interest to students and scholars of Iranian studies and Iranian History as well as general Middle Eastern studies. *State and Peasant in the Ottoman Empire* Huri Islamoglu - Inan, 2024-04-02

State and Peasant in the Ottoman Empire studies the dynamics of Ottoman peasant economy in the sixteenth century. First, it shows that contrary to the conventional wisdom about the stationariness of the Asian agrarian economies, Ottoman peasant economy witnessed substantial growth in response to population increase, urban commercial expansion, and to increased taxation demands. Second, the book argues that economic development did not take place independently of political structures of the state. This meant that in the light of the fiscal and legitimation concerns of the Ottoman state, and contrary to the assumptions of the models of economic development, changes in population and in commercial demand did not result in the disruption of the integrity of the small peasant holding as the primary unit of production. The book develops these arguments in the context of a detailed empirical study of the economic trends of the state, rules or institutions that embodied the relations of revenue extraction and of exchange in Ottoman Anatolia. *The New Cambridge History of Islam: Volume 4, Islamic Cultures and Societies to the End of the Eighteenth Century* Robert Irwin, 2010-11-04

Robert Irwin's authoritative introduction to the fourth volume of *The New Cambridge History of Islam* offers a panoramic vision of Islamic culture from its origins to around 1800. The introductory chapter, which highlights key developments and introduces some of Islam's most famous protagonists, paves the way for an extraordinarily varied collection of essays. The themes treated include religion and law, conversion, Islam's relationship with the natural world, governance and politics, caliphs and kings, philosophy, science, medicine, language, art, architecture, literature, music, and even cookery. What emerges from this rich collection, written by an international team of experts, is the diversity and dynamism of the societies which created this flourishing civilization. Volume four of *The New Cambridge History of Islam* serves as a thematic companion to the three preceding politically oriented volumes and in coverage extends across the pre-modern Islamic world. *Freemasonry in the Ottoman Empire* Dorothe Sommer, 2015-01-30

The network of freemasons and Masonic lodges in the Middle East is an opaque and mysterious one and is all too often seen within the area as a vanguard for Western purposes of regional domination. But here Dorothe Sommer explains how freemasonry in Greater Syria at the end of the nineteenth and beginning of the twentieth century actually developed a life of its own, promoting local and regional

identities She stresses that during the rule of the Ottoman Empire freemasonry was actually one of the first institutions in what is now Syria and Lebanon which overcame religious and sectarian divisions Indeed the lodges attracted more participants such as the members of the Trad and Yaziji Family Khaireddeen Abdulwahab Hassan Bayhum Alexander Barroudi and Jurji Yanni than any other society or fraternity Freemasonry in the Ottoman Empire analyses the social and cultural structures of the Masonic network of lodges and their interconnections at a pivotal juncture in the history of the Ottoman Empire making it invaluable for researchers of the history of the Middle East
