The Pale Fox:

The Pale Fox Marcel Griaule, Germaine Dieterlen, 1986 The Father-Daughter Plot Rebecca L. Copeland, Esperanza Ramirez-Christensen, 2001-07-31 This provocative collection of essays is a comprehensive study of the father daughter dynamic in Japanese female literary experience Its contributors examine the ways in which women have been placed politically ideologically and symbolically as daughters in a culture that venerates the father They weigh the impact that this daughterly position has had on both the performance and production of women s writing from the classical period to the present Conjoining the classical and the modern with a unified theme reveals an important continuum in female authorship a historical approach often ignored by scholars The essays devoted to the literature of the classical period discuss canonical texts in a new light offering important feminist readings that challenge existing scholarship while those dedicated to modern writers introduce readers to little known texts with translations and readings that are engaging and original Contributors Tomoko Aoyama Sonja Arntzen Janice Brown Rebecca L Copeland Midori McKeon Eileen Mikals Adachi Joshua S Mostow Sharalyn Orbaugh Esperanza Ramirez Christensen Edith Sarra Atsuko Sasaki Ann Sherif **African Divination Systems** Philip M. Peek, 1991 This volume of finely crafted case studies is also the vehicle for an important general theory of divination this is a book overflowing with ideas that will powerfully stimulate further research Journal of Ritual Studies The essays in this collection provide a very useful overview of both the diversity of African divination systems and of recent approaches to their study Choice This unique collection of essays by an exceptional international group of Africanists demonstrates the central role that divination continues to play throughout Africa in maintaining cultural systems and in guiding human action African Divination Systems offers insights for current discussions in comparative epistemology cross cultural psychology cognition studies semiotics ethnosciences religious studies and anthropology YHWH in the Wind(s) Violet Chiswa Gandiya, 2025-01-31 From interdisciplinary intertextual and comparative analytical perspectives this book engages with the epistemologies of the Global South and Global North to reveal a fresh insight into the image of YHWH in the guise of the phenomenal wind s and the purpose of this image in the biblical Hebrew tradition Therefore this book showcases YHWH appearing with the potent wind s to create and transform chaos into cosmic order at primal creation Likewise this discourse presents YHWH breaking into the historical and social realm in his various sociopolitical roles to destroy all forms of chaotic force by his bluster of wind s and to establish maintain or restore world social order founded on his rule of justice and righteousness This accounts for the view that all creation and order originate from YHWH and are maintained by YHWH s innate rules of ethical governance This fresh insight into the sights and sounds of YHWH asserting his rule in the dramaturgical wind s not only renders new meaning to biblical texts within their contexts but also offers a persuasive message and alluring theological reflections that can shape new discourses to engage and address contemporary theological and social issues of equity justice and harmony within YHWH s intended design of world and social order **Camille**

The Science of the Dogon Laird Scranton, 2006-09-22 A look at the close resemblance between the creation and structure of matter in both Dogon mythology and modern science Reveals striking similarities between Dogon symbols and those used in both the Egyptian and Hebrew religions Demonstrates the parallels between Dogon mythical narratives and scientific concepts from atomic theory to quantum theory and string theory The Dogon people of Mali West Africa are famous for their unique art and advanced cosmology The Dogon's creation story describes how the one true god Amma created all the matter of the universe Interestingly the myths that depict his creative efforts bear a striking resemblance to the modern scientific definitions of matter beginning with the atom and continuing all the way to the vibrating threads of string theory Furthermore many of the Dogon words symbols and rituals used to describe the structure of matter are quite similar to those found in the myths of ancient Egypt and in the daily rituals of Judaism For example the modern scientific depiction of the informed universe as a black hole is identical to Amma's Egg of the Dogon and the Egyptian Benben Stone The Science of the Dogon offers a case by case comparison of Dogon descriptions and drawings to corresponding scientific definitions and diagrams from authors like Stephen Hawking and Brian Greene then extends this analysis to the counterparts of these symbols in both the ancient Egyptian and Hebrew religions What is ultimately revealed is the scientific basis for the language of the Egyptian hieroglyphs which was deliberately encoded to prevent the knowledge of these concepts from falling into the hands of all but the highest members of the Egyptian priesthood The Science of the Dogon also offers compelling new interpretations for many of the most familiar Egyptian symbols such as the pyramid and the scarab and presents new explanations for the origins of religiously charged words such as Jehovah and Satan **The Pale Fox** Katie Metcalfe, 2018

THE PALE FOX David Leonard, 2020-12-29 First and foremost I must pay homage to Marimba Ani who I gained insight from concerning the title of her book titled Yorugu which means Pale Fox One must do their own investigation into the Dogon African religion to understand The Pale Fox Many Black men are going to see themselves in many chapters within this novel and some will be in denial and this is the same for Whites The two main characters are 100% fictional however all mind

states that the main character Dru transforms into are all 100% non fiction The mind states are my own life experiences and testimonies and observations that I received from other Black men There are many Blacks that will probably be enraged that I took such serious matters that happen daily within the African American population and turned these matters into a mythological story urban and I am not surprised nor am I concerned No one is ever challenging urban novelists that write deadly literature that does nothing but keep Black men into a circular dimension This novel is geared to cause a thought disturbance in certain Black males particularly Black young men born in 2000 or later to take a clear look at themselves and the world around them **Harmsworth Natural History** ,1910 The Mountain is Moving Patricia Morley,1999 In Imperial times in Japan women were subservient inferiors in theory they were liberated by the democratic constitution imposed by the US after World War II but in real life Japan change is glacially slow Here that slow changing reality is juxtaposed with the fast moving aspirations of Japanese women The author achieves this through wide ranging interviews with Japanese women and by using a range of contemporary Japanese literature Rise to Infamy A.D. Arndt,2020-10-25 Kye has no desire to die in glorious battle So when the crew of the navy riverboat she s assigned to is given orders for a suicide attack Kye leads a mutiny and tosses the captain overboard Now deserters the group embarks on a scheme to become as wealthy as kings if they can escape an invading empire pull off a supply heist cross a treacherous sea convince an arrogant chancellor to fund their expedition and keep their wizard Raven sober enough to be useful When their quest to become very rich goes very awry the deserters accidentally find themselves thwarting the plans of a powerful order of evil wizards and rescuing a horde of mind controlled slaves while still managing to build a villainous reputation *Histories of Religious Thought and Practice in Africa* PROFESSOR LOUIS. BRENNER,2024-12-17 This book is a richly detailed comparative analysis of endogenous Muslim and Christian religious thought and practice in sub Saharan Africa Organized thematically the book presents a conceptual and analytical framework for the study of religious traditions as complex and constantly evolving social phenomena The most salient theme in the book is how different religious traditions defined and provided for the personal and communal wellbeing of their adherents Other major themes explore how religious traditions have influenced one another how religious practitioners conceptualized and interacted with spiritual entities how religious knowledge and expertise were acquired and transmitted how rituals were organized and structured in order to achieve their aims and how rituals affected those who performed them Additional topics analysed include the personalization of relationships with spiritual entities the gendering of religious thought and practice how personal transformative rituals were conceptualized and enacted with reference to stages of the life cycle such as birth marriage and death and how suffering was seen as integral to the process of personal transformation Overall the book engages with issues that continue to animate the study of religious thought and practice in Africa and African studies more generally *Principles of Visual Anthropology* Paul Hockings,2012-05-18 This edition contains 27 articles written by scholars and film makers who are generally
