The Paranoid In And Out Of Prison:

The Paranoid George B. Palermo, Edward M. Scott, 1997 Journal of the American Institute of Criminal Law and Criminology, 1926 *Prison Paranoia* Tamara Meche'. Carter, 2001 **Drug Use in Prisons** David Shewan, John B. Davies, 2013-12-19 First Published in 2000 In this title the author argues that drug users end up in gaol for many reasons but in the most general terms they divide the drug using part of a prison population along three lines Those incarcerated because of their use or possession of drugs with intent to supply those gaoled for offences other than drug use but who happen to be involved in drug use and those who acquired their drug habit whilst in gaol They argue that whilst prisons offer the opportunity to influence drug habits in a positive way it can also produce exactly the opposite effect **Policing the National Body** Jael Silliman, Jael Miriam Silliman, Anannya Bhattacharjee, 2002 This anthology explores the ways in which women of color are monitored criminalized and regulated **Seminars in Forensic Psychiatry** Mary Davoren, Harry G. Kennedy, 2024-06-13 Updated core text addressing safe and effective psychiatric practice in prisons courts community clinics and secure hospitals Total Confinement Lorna A. Rhodes, 2004-02-26 In this rare firsthand account Lorna Rhodes takes us into a hidden world that lies at the heart of the maximum security prison Focusing on the supermaximums and the mental health units that complement them Rhodes conveys the internal contradictions of a system mandated to both punish and treat Her often harrowing sometimes poignant exploration of maximum security confinement includes vivid testimony from prisoners and prison workers describes routines and practices inside prison walls and takes a hard look at the prison industry More than an expos Total Confinement is a theoretically sophisticated meditation on what incarceration tells us about who we are as a society Rhodes tackles difficult questions about the extreme conditions of confinement the treatment of the mentally ill in prisons and an ever advancing technology of isolation and surveillance Using her superb interview skills and powers of observation she documents how prisoners workers and administrators all struggle to retain dignity and a sense of self within maximum security institutions In settings that place in question the very humanity of those who live and work in them Rhodes discovers complex interactions from the violent to the tender among prisoners and staff Total Confinement offers an indispensable close up of the implications of our dependence on prisons to solve long standing problems of crime and injustice in the United States **Therapeutic Process and Well-Being in Forensic Psychiatry and Prison** Manuela Dudeck, Jürgen Leo Müller, Birgit Angela Völm, Najat R. Khalifa, 2021-02-17 **Management of the Mentally Disordered Offender in Prisons** Geoffrey Neil Conacher, 1996 Management of mentally disordered offenders MDOs is a major challenge for the clinician because they have multiple problems and diagnoses and the cost of a mistake can be very high The author former director of psychiatric services at the Regional Treatment Centre in Ontario traces the MDO management process from initial assessment through secure stabilization to preparation for release and subsequent community supervision He outlines the difficulties of managing a population of serious offenders and highlights elements of treatment that are essential

if the MDO is to be reintegrated into the community

Proceedings of the Annual Congress of the American Prison Association American Prison Association. Congress, 1914

Supermax Sharon Shalev, 2013-05-13 This book examines the rise and proliferation of Supermaxes large prisons dedicated to holding prisoners in prolonged and strict solitary confinement in the United States since the late 1980s Drawing on unique access to two Supermax prisons and on in depth interviews with prison officials prison architects current and former prisoners mental health professionals penal legal and human rights experts it provides a holistic view of the theory practice and consequences of these prisons Given the historic uses of solitary confinement the book also traces continuities and discontinuities in its use on both sides of the Atlantic over the last two centuries It argues that rather than being an entirely new form of imprisonment Supermax prisons draw on principles of architecture surveillance and control which were set out in the early 19th century but which are now enhanced by the most advanced technologies available to current day prison planners and administrators It asks why a form of confinement which had been discredited in the past is now proposed as the best solution for dealing with difficult dangerous or disruptive prisoners and assesses the true costs of Supermax confinement

Prisons, Punishment and the Pursuit of Security D. Drake, 2012-07-25 Drawing on research in men s long term maximum security prisons this book examines three interconnected problems the tendency of the prison to obscure other social problems and conceal its own failings the pursuit of greater levels of human security through repressive and violent means and the persistence of the belief in the problem of evil

Chicago Medicine, 1997-07

Because I Have Been Given Much Bob Turney, 2006 Bob Turney was raised on a notorious housing estate in South London England At age 15 he was consigned to the scrap heap by an education system that labelled him educationally subnormal Engulfed by a life of crime from an early age he graduated to the fringes of organized crime and spent over 20 years drifting in and out of prisons and institutions Today Bob s life is completely different As a member of The Church of Jesus Christ of Latter Day Saints he has held many callings including Ward Mission Leader Stake Sunday School President and has served in an Elders Quorum Presidency as High Priest Group Leader and on the High Council in three Bishoprics Working within the UK Criminal Justice System and frequently with difficult and damaged people Bob Turney has gained a unique reputation as someone who has crossed over the tracks triumphed against huge odds and become an inspiration to other people looking to do the same Building on three earlier books he now tells of the role that faith has played in his life and how he and his wife Sue enjoy the benefits that flow from their Temple marriage including five children two grandchildren and counting

Whispers Ronald K. Siegel, 1996-02-09 In a mesmerizing journey into mental illness the author of *Intoxication and Fire in the Brain* captures the suspicion terror and rage that possess the minds of paranoids Horrifying and utterly fascinating a hard book to put down Bettyann Kline Los Angeles Times

Mental Disorder among Prisoners Nathaniel J. Pallone, 2011-12-31 What do we know about the mental health of inmates What are the implications of what we know Nathaniel J Pallone characterizes opinion on these questions as falling into two broad

camps the tender hearted those who see an overlap between mental illness and criminal behavior and are treatment oriented and the tough minded those who have little confidence in psychiatric categories do not really accept arguments about diminished responsibility and who feel the emphasis should be on punishment Which is closer to the truth When this book was first published the incidence of mental disorder among prisoners was nearly four times greater than among comparable groups in the general population in part because prisoners are disproportionately drawn from demographic groups with a high incidence of mental disorder nonwhite and from lower socioeconomic strata But other data is equally dismaying mental retardation is 50 percent higher alcohol and drug abuse is between five and eight times greater and neurogenic disorders may be 1 700 times greater In all categories of mental illness the incidence among prisoners is far higher than among the general population Pallone asserts that evidence suggests that the design and implementation of mental health care needs serious reevaluation particularly in view of Supreme Court decisions mandating mental health care despite obstacles with implementation Palone saw mental health care as the primary issue for those who manage prisons Sadly this remains as true as when this book was first published

Film Noir and the Cinema of Paranoia Wheeler Winston Dixon, 2019-07-29 Film Noir and the Cinema of Paranoia is an overview of 20th and 21st century noir and fatalist film practice from 1945 onwards The book demonstrates the ways in which American cinema has inculcated a climate of fear in our daily lives as reinforced starting in the 1950s by television and later videocassettes the web and the Internet to create by the early 21st century a hypersurveillance atmosphere in which no one can avoid the barrage of images that continually assault our senses The book begins with the return of American soldiers from World War II liberated from war in the Pacific by the newly created atomic bomb which will come to rule American consciousness through much of the 1950s and 1960s and then in a newer more small scale way become a fixture of terrorist hardware in the post paranoid ear of the 21st century Film Noir and the Cinema of Paranoia is constructed in six chapters each highlighting a particular raising of the cinematic stakes in the creation of a completely immersible universe of images Selling points Expands the definition of noir to include numerous lesser known works Deals with Red Scare films of the 1950s in the US Examines the dark side of the 1960s or films that questioned the emerging counterculture Explores such neo noir films as *The Last Seduction* 1993 *Angel Heart* 1987 *The Grifters* 1990 *Red Rock West* 1993 *The Usual Suspects* 1995 *Mulholland Drive* 2001 *L A Confidential* 1997 and *Memento* 2000 Details the noir aspects of the cybernetic age both in online and videogame uses

Opportunity, 1971 **The Metanarrative of Suspicion in Late Twentieth-Century America** Sandra Baringer, 2013-04-15 Narratives of suspicion and mistrust have escaped the boundaries of specific sites of discourse to constitute a metanarrative that pervades American culture Through close reading of texts ranging from novels Pynchon's *Vineland* Silko's *Almanac of the Dead* Pierce's *The Turner Diaries* to prison literature this book examines the ways in which narratives of suspicion are both constitutive and symptomatic of a metanarrative that pervades American culture

Gender, Crime, and Justice Erin Katherine Krafft, Jo-Ann Della

Giustina, Susan T. Krumholz, 2021-12-09 Gender Crime and Justice is a unique core textbook that introduces key concepts through case studies Each chapter opens with a compelling case study that illustrates key concepts followed by a narrative chapter that builds on the case study to introduce essential elements Each chapter features pedagogical elements learning objectives key terms review and study questions and suggestions for further learning and exploration In addition to the unique case study approach this book is distinctive in its inclusion of LGBTQ experiences in crime victimization processing and punishment Gender Crime and Justice also addresses masculinity and the role it plays in defining offenders and victims as well as challenges posed by the gender gap in offending
