## **The Passage Of Death:**

**The Passage** Bobby L. Scurlock, 2002 Dr Bob Scurlock's father shared something with him that all of us wonder about. He told him death is not the end. From his father's near death experience NDE and his mother's out of body experience OBE on to more than 35 personal NDE accounts. *The Passage from Death to Life* gives every reader hope that there is something to look forward to after death. Common phenomena experienced by countless others describing the light, the tunnel, voices, or the presence of deceased are shared as common threads supporting what Dr Raymond Moody, expert on NDEs, outlines as the nine elements that generally occur during the experience. In addition to these real life near death accounts, Scurlock sheds his own light on these phenomena from his personal experiences, including his own encounter with God at fifteen, as well as in grounded theoretical explanations revealed by some of the most respected NDE researchers, physicists, and mathematicians in the country. Not meant to put forth a theological thesis concerning religious dogma or to debate one religion's belief with another on attaining immortality, *The Passage* seeks to set forth the facts on what constitutes a Near Death Experience. For many who have shared their stories and who read the book, *The Passage* provides hope and anticipation of a life after death.

**A Death of the World** Harris B. Bechtol, 2025-04-01 *A Death of the World* offers a phenomenological description of what happens to the world for those who survive the death of someone. Bringing Jacques Derrida's works into conversation with the philosophies of Martin Heidegger, Emmanuel, Levinas, Jean-Luc Marion, Maurice Blanchot, and Claude Romano, the poetry and literature of Paul Celan, W. H. Auden, Emily Dickinson, Ovid, and Jonathan Safran Foer, and psychological works concerning trauma, mourning, epigenetics, and memory, author Harris B. Bechtol provides interdisciplinary language for understanding the death of the other as an event. He argues that such death must be understood as an event because this death is more than just the loss of the other who has died, insofar as the meaning of the world to and with this other is also lost. Such loss manifests itself through the transformations of both the spaces in which meaning takes place and the lived time of a survivor's world. These transformations of the world culminate in his account of workless mourning, which establishes the contours of the life after these deaths of the world.

Brondos,2018-04-25 Jesus Death in New Testament Thought is unlike anything written on the subject to date It represents a radical break with the traditional models or theories of atonement based on ideas such as penal substitution participation in Christ and the Christus Victor motif claiming that all of these ideas as commonly understood are foreign to New Testament thought On the basis of his analysis of second temple Jewish thought Brondos demonstrates that for Jews in antiquity what atoned for sins and led people to be declared righteous in God s sight was not sacrifice suffering or death in themselves but the renewed commitment to living in accordance with God s will which they manifested by means of their sacrificial offerings and at times their willingness to endure suffering and death out of faithfulness to that will According to the thought of Jesus first followers in accordance with a divine plan conceived of before the ages in Jesus God had sent his Son in order to establish around him a community of people fully committed to practicing the love justice solidarity and righteousness associated with God s will for all Jesus dedication to this task led to confrontation and conflict with the powers

and authorities of his day who sought to silence him by having him put to death Because he stood firm and remained faithful to that task rather than backing down from it he was crucified on a Roman cross Paradoxically however in this way he laid the basis for the existence of the community God had desired from the start stamping it forever as one to which no one could truly belong without assuming the same firm commitment to Jesus and everything for which he had lived and died Those who form part of this community living out of faith under Jesus as their risen Lord come to practice God's will as redefined through Jesus and on that basis are forgiven and accepted as righteous by God Thus by giving up his life out of love for others in faithfulness to the task his Father had given him Jesus has attained the redemption reconciliation cleansing and justification of those who now live under his lordship as members of the worldwide community of believers from all nations that God has established through him and his death in fulfillment of the promises that God had made of old to his people Israel In Volume 1 Brondos looks to the relevant texts from antiquity to trace the background and development of these ideas His argument will leave the reader with no doubt that Jesus' first followers understood the salvific significance of his death or blood in the manner just outlined and therefore that the traditional interpretations of his death that have prevailed from patristic times to the present do not reflect faithfully their thought as we find it in the New Testament In Volume 2 Brondos examines the formulaic allusions to Jesus' death that we find scattered throughout the New Testament and other early Christian writings so as to demonstrate that these are precisely the ideas that lie behind those allusions At the same time through his analysis of the writings of Melito of Sardis and Irenaeus of Lyons he provides clear evidence that by the late second century ideas that are foreign to those texts began to be read back into them with the result that the original understandings of Jesus' death that had developed among his first followers came to be replaced by other understandings that run contrary to their thought In his Conclusion Brondos argues that only by rejecting the traditional models of atonement and returning to the New Testament teaching on this central doctrine can the Christian church respond effectively to the crisis it faces today and bring about the restoration of the type of communities envisioned by Jesus and his first followers

The *Oresteia* is permeated with depictions of the afterlife which have never been examined together In this book Amit Shilo analyses their intertwined and conflicting implications He argues for a poetics of multiplicity and poetics of the beyond that inform the ongoing debates over justice fate ethics and politics in the trilogy The book presents novel textually grounded readings of Cassandra's fate Clytemnestra's ghost scene mourning ritual hero cult and punishment by Hades It offers a fresh perspective on the political thought of the trilogy by contrasting the ethical focus of the Erinyes and Hades with Athena's insistence on divine unity and warfare Shedding new light on the trilogy as a whole this book is crucial reading for students and scholars of classical literature and religion This title is available as open access on Cambridge Core [Death Week](#)
