The Passionate The Proud:

The Passionate and the Proud Vanessa Royall,2014-10-06 A headstrong young woman seeks her destiny on the American frontier and soon discovers that the man she swore she would never love is the man she needs Beautiful Emmalee Alden escapes an orphanage when a black eyed rogue spirits her aboard a Missouri bound riverboat Blind to Garn Landar's true nature and fearing for her life Emmalee makes a fateful choice she sells herself into servitude to a wagon train heading West Obsessed with attaining independence and swept up in the fever of land rush she realizes too late that claiming land is only half the battle There is farming ranching bone deep toil and constant vigilance against those who would seek to dispossess her When Garn reappears in Emmalee's life she needs his help more than ever but can she trust him A spirited tale of romance adventure and the eternal mysteries of the human heart The Passionate and the Proud brings two unforgettable characters together at a pivotal moment in American history *The Proud Self* Lorenzo Greco,2025-05-30 This book presents a novel interpretation of Hume as a proponent of sentimental virtue ethics This interpretation sheds light on the nature of Hume's ethics as well as its relevance for contemporary debates in moral philosophy The book starts by developing an understanding of the self in Hume based on the passion of pride Contrary to the common view that Hume denies the unity of the self by diluting it into a bundle or collection of different perceptions the author argues that by focusing on pride it is possible to identify in Hume a firm notion of the self as having a sentimental nature that can be explained in narrative terms Pivoting on this narrative self he shows how it accounts for the Humean notion of the virtuous person by holding together in a harmonious whole several central issues in Hume's moral philosophy including sympathy the point of view from which we make moral judgements the practical nature of ethics and the role that reflection plays in it and the definition of perfect character Finally the author maintains that Humean virtue ethics so understood has the individual at its core representing a secular and pluralist alternative to neo Aristotelian versions discussed today The Proud Self will appeal to scholars and graduate students working on Hume 18th century philosophy virtue ethics and moral psychology

answering these questions this book defends a naturalist realist and internalist theory of the foundations of ethics This theory grounded on a particular concept of humanity combines insights from Mencius and David Hume The views of each show how important features left underdeveloped by the other can be supplemented and refined The unified theory that results is a robust contender among current ethical theories This illuminating book relating Chinese and Western philosophical traditions presents a unique account of the unity of the virtues in Mencius breaks new ground in Hume studies through its discussion of the concept of sympathy in Hume s theory and brings combined insights to bear on contemporary analytical theories of ethics

The Passion of Jesus and Its Hidden Meaning Fr. James Groenings,1987-01-17 The Passion of Jesus and Its Hidden Meaning shows how every person in the world whether he realizes it or not is personally involved in the sufferings and death of Jesus Christ It was because of our sins and the seriousness of these sins that Our Lord underwent so cruel a torture Using only classic Catholic Commentaries on the Scriptures Fr Groenings demonstrates the historical context and spiritual significance of each episode of the Passion of Jesus From the Agony in the Garden through Our Lord s death and burial every page of this book is replete with vaulable lessons and superabundance of material for meditation and reflection Drawing from both the Old and New Testaments Fr Groenings is able to illustrate the meaning of every event and episode showing how to apply these lessons to our lives today Far from being merely an act of unspeakable brutality the Passion and death of Jesus Christ are shown to be the greatest proof of God s love and mercy to each of us

Emotion, Thought and Therapy Jerome Neu,2022-09-01 First published in 1977 Emotion Thought and Therapy is a study of Hume and Spinoza and the relationship of philosophical theories of the emotions to psychological theories of therapy Jerome Neu argues that the Spinozists are closer to the truth that is that thoughts are of greater importance than feelings in the classification and discrimination of emotional states He then contends that if the Spinozists are closer to the truth we have the beginning of an argument to show that Freudian or analytic therapies make philosophic sense Throughout the book careful attention is paid to modern discussions in philosophy of mind and psychology and materials from anthropology and other relevant disciplines are considered At the centre of the discussion is the notion of thought dependence Therapies for psychological disorders are placed along a spectrum in accordance with the role they assign to thoughts The Spinozist view of the emotions can be seen as at the extreme thought end of a corresponding spectrum of theories of the emotions The book suggests that this stream may help explain the spectrum of therapeutic theories and the possibilities that exist for psychological development and change This book will be of interest to students of philosophy psychology and counselling

The ^AConcealed Influence of Custom Jay L. Garfield, 2019-04-01 Jay L Garfield defends two exegetical theses regarding Hume's Treatise on Human Nature. The first is that Book II is the theoretical foundation of the Treatise. Second, Garfield argues that we cannot understand Hume's project without an appreciation of his own understanding of custom and in particular without an appreciation of the grounding of his thought about custom in the legal theory and debates of his time.

Hume, Passion, and Action Elizabeth Schmidt Radcliffe, 2018 David Hume's theory of action is well known for several provocative theses including that passion and reason cannot be opposed over the direction of action. Elizabeth S Radcliffe defends an original interpretation of Hume's views on passion, reason, and motivation which is consistent with other theses in Hume's philosophy, loyal to his texts, and historically situated. She challenges the now orthodox interpretation of Hume on motivation, presenting an alternative that situates Hume closer to Humeans than many recent interpreters have. Part of the strategy is to examine the thinking of the early modern intellectuals to whom Hume responds. Most of these thinkers insisted that passions lead us to pursue harmful objects unless regulated by reason, and most regarded passions as representations of good and evil which can be false. Understanding Hume's response to these claims requires appreciating his respective characterizations of reason and passion. The author argues that Hume's thesis that reason is practically impotent apart from passion is about beliefs generated by reason rather than about the capacity of reason. Furthermore, the argument makes sense of Hume's sometimes ridiculed description of passions as original existences having no reference to objects. The author also shows how Hume understood morality as intrinsically motivating while holding that moral beliefs are not themselves motives and why he thought of passions as self-regulating, contrary to the admonitions of the rationalists.

Passion Roberto Mangabeira Unger, 1986-05-23 From Simon Schuster. *Passion: An Essay on Personality* is Roberto Mangabeira Unger's famous thesis. *Passion: An Essay on Personality* examines the modern view of human nature and analyzes the desire to be accepted by other people. It's one not to miss from any fans of philosophy and those interested in reading one of most impressive modern thinkers of our time.

The Development of Ethics: Volume 2 Terence Irwin, 2008-07-31 The *Development of Ethics* is a selective historical and critical study of moral philosophy in the Socratic tradition with special attention to Aristotelian naturalism. It discusses the main topics of moral philosophy as they have developed historically, including the human good, human nature, justice, friendship, and morality; the methods of moral inquiry; the virtues and their connexions; will, freedom, and responsibility; reason and emotion; relativism, subjectivism, and realism; the theological aspect of morality. This volume examines early modern moral philosophy from the sixteenth to the eighteenth century. Volume 3 will continue the story up to Rawls's *Theory of Justice*. The present volume begins with Suarez's interpretation of Scholastic moral philosophy and examines seventeenth and eighteenth century responses to the Scholastic outlook to see how far they

constitute a distinctively different conception of moral philosophy The treatments of natural law by Grotius Hobbes Cumberland and Pufendorf are treated in some detail Disputes about moral facts moral judgments and moral motivation are traced through Cudworth Clarke Balguy Hutcheson Hume Price and Reid Butler s defence of a naturalist account of morality is examined and compared with the Aristotelian and Scholastic views discussed in Volume 1 The volume ends with a survey of the persistence of voluntarism in English moral philosophy and a brief discussion of the contrasts and connexions between Rousseau and earlier views on natural law The emphasis of the book is not purely descriptive narrative or exegetical but also philosophical Irwin discusses the comparative merits of different views the difficulties that they raise and how some of the difficulties might be resolved The book tries to present the leading moral philosophers of the past as participants in a rational discussion that is still being carried on and tries to help the reader to participate in this discussion

Teaching on the Fight Against the Main Sinful Passions and on the Christian Virtues - Love, Humility, Meekness varios Church Fathers, Wealth without work Pleasure without conscience Science without humanity Knowledge without character Politics without principle Commerce without morality Worship without sacrifice <https://vidjambov.blogspot.com/2023/01/book-inventory-vladimir-djambov-talmach.html> The goal of the Christian life is to acquire the Holy Spirit in communion with God Communion with God is the essence of our salvation in Christ Jesus our Lord The path to salvation is the fulfillment of the commandments of God life in Christ or what is the same the Christian pious virtuous life The Christian virtuous life of every Christian has two essential aspects the struggle against tempting evil the struggle against sinful passions and vices and the acquisition of Christian virtues This book is devoted to these vital issues the fight against the main sinful passions vices and the acquisition of basic Christian virtues This far from finished work arose on the basis of conversations that the author acting as a mentor conducted with students of the seminary These conversations have been completed and expanded brought into the system Many books have been written on the fight against passions and on Christian virtues by people experienced in the spiritual life under the guidance of Sts fathers There are also extensive scientific works from the field of asceticism This same book is not a scientific treatise or study rather it is a systematized collection of patristic thoughts on individual most important issues of active Christian life which has mainly a moral and edifying purpose The author in his work sought to present the patristic teaching and experience in a form that is understandable and intelligible to the modern reader and to show their necessary applicability in the life of every Christian for the commandments of God and the laws of spiritual life are common to all Christians no matter what way of life and ascetic labor they pursue In particular the author had in mind that the book would serve as a manual for students of the seminary candidates for the priesthood so that they could get acquainted with the patristic teaching on this issue in an assembled form Acquaintance of the candidate of the priesthood with the questions of Christian asceticism according to the teaching and experience of Sts fathers and ascetics is of great importance for their future pastoral activity The second and immediate goal of writing this work was also one s own benefit in order to move

oneself to correction to the denunciation of one's poor soul so that although being ashamed of words as St John of the Ladder began to work having not yet acquired any good deed but only words And Rev Nilus of Sinai points out that he who does not do good should speak of good things so that being ashamed of words he begins deeds 2 The book is divided into two parts The first part gives general concepts about sin sinful passions and self love as the source of all sin and vice Then a strategic teaching is presented about each of the main passions separately about pride and vanity about gluttony and fornication and the fight against them about greed and anger about envy slander and condemnation and finally about sinful sadness and despondency The second part is devoted to the study of the main Christian virtues love humility meekness temperance and chastity those virtues that a Christian needs to acquire in the active eradication of the above main passions Therefore when studying chapters for example on carnal passions gluttony and fornication it is useful to follow this from the 2nd part to assimilate the patristic teaching about the main eradicators of these passions the virtues of temperance and chastity When studying the issue of struggle with self love pride greed and envy one should follow this by studying the patristic teaching on love and humility Anger has its opposite in meekness etc Thomas Hardy and the Proper Study of Mankind Simon Gatrell, 1993-06-18 Explores Hardy's account in fiction of the individual man or woman's relationship with various aspects of the encompassing world with other individual men and women with the aggregation known as society with the natural and artificial environment and with the supernatural
