The Past and Future of Ireland, Indicated by Its Educational History: Comprising a Vindication of the National System and the Queen's Colleges Ireland. [Appendix. - Education.],1850 T. S. Eliot, France, and the Mind of Europe

Jayme Stayer,2015-09-18 In late 1910 after graduating from Harvard with a master s degree in philosophy the young T S Eliot headed across the Atlantic for a year of life and study in France a country whose poets had already deeply affected his sensibility His short year there was to change him even more decisively as he rubbed up against the artistic philosophical psychological and political currents of early century Paris The absorbent mind of Eliot as shaped by what he later termed the mind of Europe was a node in this interlocking grid of influences As there is no understanding T S Eliot without considering the impact of French art and thought on his development this volume serves both as a centennial commemoration of Eliot s year in Paris and as a reconsideration of the role of France and more widely Europe as they bore on his growth as an artist and critic Most scholarship on Eliot and France has focused on Eliot s relationship to the nineteenth century Symbolists and to the philosophy of Henri Bergson This old frame of reference is broken apart in favor of a much wider field that still takes Paris as its center but reaches across national borders The volume is divided into two overlapping sections the first Eliot and France focuses on French authors and trends that shaped Eliot and on the personal experiences in Paris that are legible in his artistic development The second section Eliot and Europe situates Eliot in a broader matrix including Anglo French literary theory evolutionary sociology and German influences Contributors include several highly respected names in the field of modernist studies including Jean Michel Rabat Jewel Spears Brooker and Joyce Wexler as well as a number of well established Eliot scholars Reflecting multiple perspectives this volume does not offer a single revisionist take on French and European influence in Eliot s work Rather it circles back to familiar territory deepening and complicating the accepted narratives It also opens up new veins of inquiry from unexpected sources and understudied phenomena drawing on the recently published letters and essays that are currently remapping the field of Eliot studies **A critical history of the doctrine of a future life, with a complete bibliography of the subject [by E. Remembering for the Future J. Roth,E. Maxwell,2017-02-13 Focused on The Holocaust in an Age of Genocide

Remembering for the Future brings together the work of nearly 200 scholars from more than 30 countries and features cutting edge scholarship across a range of disciplines amounting to the most extensive and powerful reassessment of the Holocaust ever undertaken In addition to its international scope the project emphasizes that varied disciplinary perspectives are needed to analyze and to check the genocidal forces that have made the Twentieth century so deadly Historians and ethicists psychologists and literary scholars political scientists and theologians sociologists and philosophers all of these and

more bring their expertise to bear on the Holocaust and genocide Their contributions show the new discoveries that are being made and the distinctive approaches that are being developed in the study of genocide focusing both on archival and oral evidence and on the religious and cultural representation of the Holocaust A Critical History of the Doctrine of a Future Life. Morrow, John Bergsma, 2023-01-26 For much of the history of both Judaism and Christianity the Pentateuch first five books of the Bible was understood to be the unified work of a single inspired author Moses Yet the standard view in modern biblical scholarship contends that the Pentateuch is a composite text made up of fragments from diverse and even discrepant sources that originated centuries after the events it purports to describe In *Murmuring against Moses* John Bergsma and Jeffrey Morrow provide a critical narrative of the emergence of modern Pentateuchal studies and challenge the scholarly consensus by highlighting the weaknesses of the modern paradigms and mustering an array of new evidence for the Pentateuch's antiquity By shedding light on the past history of research and the present developments in the field Bergsma and Morrow give fresh voice to a growing scholarly dissatisfaction with standard critical approaches and make an important contribution toward charting a more promising future for Pentateuchal studies *Journal of the Society of Arts*, 1903 Selling the Future Ryan Moran, 2024-01-15 In *Selling the Future* Ryan Moran explains how the life insurance industry in Japan exploited its association with mutuality and community to commodify and govern lives Covering the years from the start of the industry in 1881 through the end of World War II Moran describes insurance companies and government officials working together to create a picture of the future as precarious and dangerous Since it was impossible for individual consumers to deal with every contingency on their own insurance industry administrators argued that their usage of statistical data enabled them to chart the predictable future for the aggregate Through insurance companies and the state thus offered consumers a means to a perfectible future in an era filled with repeated crises Life insurance functioned as an important modernist technology within Japan and its colonies to instantiate expectations for responsibility to reconfigure meanings of mutuality and to normalize new social formations such as the nuclear family as essential to life Life insurance thus offers an important vehicle for examining the confluence of modes of mobilizing and organizing bodies the expropriation of financial resources and the action of disciplining workers into a capitalist system **Journal** Royal Society for the Encouragement of Arts, Manufactures and Commerce, 1867 *The Theosophist*, 1898 **The National Reformer**, 1869 *Annual Catalogue of the Officers and Students of Cornell College* Cornell College (Mount Vernon, Iowa), 1914 **Memoirs of the Future** W.
