Hall Anna Maria Hall, *In Pursuit of the Proper Sinner* Elizabeth George,2009-03-24 Calder Moor is a wild and deadly place many have been trapped in the myriad limestone caves lost in collapsed copper mines injured on perilous ridges But when two bodies are discovered in the shadow of the ancient circle of stones known as Nine Sisters Henge it is clearly not a case for Mountain Rescue The corpses are those of a young man and woman Each met death in a different fashion Each died violently To Detective Inspector Thomas Lynley this grisly crime promises to be one of the toughest of his career For the unfortunate Nicola Maiden was the daughter of a former officer in an elite undercover unit a man Lynley once regarded as a mentor Now

Notes and Queries, 1920 *Better Faster Farther* Maggie Mertens, 2024-06-18 NATIONAL BESTSELLER From foot binding to corsets, patriarchal societies have found ways to immobilize women, but now marathoners and Olympians are proving that women can run like the wind. GLORIA STEINEM A look behind the curtain that all women who love running and sport should read. KARA GOUCHER Olympic runner and New York Times bestselling author of *The Longest Race*. More than a century ago, a woman ran in the very first modern Olympic marathon. She just did it without permission. Award-winning journalist Maggie Mertens uncovers the story of how women broke into competitive running and how they are getting faster and fiercer every day, changing our understanding of what is possible as they go. Despite women proving their abilities on the track, time and again men in the medical establishment, media, and athletic associations have fought to keep women, or at least white women, fragile and sometimes literally tried to push them out of the race. See Kathrine Switzer, Boston Marathon 1967. Yet before there were running shoes for women, they ran barefoot or in nursing shoes. They ran without sports bras, which weren't invented until 1977, or disguised as men. They faced down doctors who put them on bed rest and newspaper reports that said women collapsed if they ran a mere eight hundred meters, just two laps around the track. Still today, women face relentless attention to their bodies. Is she too strong? Too masculine? Is she even really a woman? Mertens transports us from that first boundary-breaking marathon in Greece, 1896, to the earliest official women's races of the twentieth century to today's most intense ultramarathons in which women are setting all-out records, even against men. For readers of *Good and Mad*, *Born to Run*, and *Fly Girls*, *Better Faster Farther* takes us inside the lives and the victories of the women who have redefined society's image of strength and power. An essential read to normalize women's existence, excellence, and humanity within the sport of running. ALISON MARIELLA D SIR

Novel Judgements William P. MacNeil, 2011-09-08 *Novel Judgements* is a book about nineteenth-century Anglo-American law and literature. But by redefining law as legal theory, *Novel Judgements* departs from socio-legal studies of law and literature often dated in their focus on past lawyering and court processes. This text's theoretical turn renders the period's law and literature relevant to today's readers because the nineteenth-century novel, when read jurisprudentially, abounds in representations of law's controlling concepts, many of which are still with us today. Rights, justice, law's morality: each are encoded novelistically in stock devices such as the country house, friendship, love, courtship, and marriage. In so rendering the public law as private domesticity, these novels expose for legal and literary scholars alike the ways in which law comes to mediate all relationships, individual and collective, personal and political during the nineteenth century, a period as much under the Rule of Law as the reign of Capital. So these novels pass judgement: a novel judgement on the extent to which the

nineteenth century's idea of law is collusive with that era's Capital thereby opening up the possibility of a new legal theoretical position that of a critique of the law and a law of critique **The Other Side of Night** Adam Hamdy, 2022-10-11 For fans of Matt Haig and Anthony Horowitz a strange compelling and ultimately moving head spinner of a novel John Connolly in which the lives of a disgraced police officer a prolific author and an upstanding citizen are inextricably bound together by a series of mysterious deaths *The Other Side of Night* begins with a man named David Asha writing about his biggest regret his sudden separation from his son Elliot In his grief David tells a story Next we step into the life of Harriet Kealty a police officer trying to clear her name after a lapse of judgment She discovers a curious inscription in a secondhand book a plea Help me he's trying to kill me Who wrote this note Who is he This note leads Harri to David Asha who was last seen stepping off a cliff Police suspect he couldn't cope after his wife's sudden death Still why would this man jump and leave behind his young son Quickly Harri's attention zeroes in on a person she knows all too well Ben Elmys once the love of her life A surrogate father to Elliot Asha and trusted friend to the Ashas Ben may also be a murderer Compulsively readable and thought provoking *The Other Side of Night* is one of those rare books that you'll still be thinking about long after the last page Jenny Blackhurst author of *How I Lost You* *Voices Against War* Lyn Smith, 2011-04-01 Based on nearly 200 personal testimonies from the Imperial War Museum's Collections this landmark book tells the stories of those of those who participated in anti war protest from the First World War 1914-18 to the ongoing conflicts in Iraq and Afghanistan *Voices Against War* is a compelling emotional and very moving human story essential for understanding war in its entirety *Remembering Peasants* Patrick Joyce, 2024-02-20 A landmark new history of the peasant experience exploring a now neglected way of life that once encompassed most of humanity but is vanishing in our time Joyce brings in stories of individuals as well as places including his own family and looks at how peasants and their ways of life have been memorialized in photographs literature and in museums
