The Peoples Writer Erskine Caldwell And The South:

The People's Writer Wayne Mixon, 1995 Most critics have considered Caldwell to be only a minor southern writer often associating him with his worst writing Yet Saul Bellow suggested he deserved the Nobel Prize and William Faulkner once characterized him as one of the five best writers of his time alongside himself Thomas Wolfe Ernest Hemingway and John Dos Passos

Reading Erskine Caldwell Robert L. McDonald, 2006-01-24 Erskine Caldwell has been compared to literary giants like Faulkner and Hemingway yet he has also been reviled as peddler of pop trash Was he a genius or just a shooting star whose brilliance faded long before he stopped writing Caldwell began his career in the late 1920s and gained fame for revealing the gritty backwoods South in novels such as his seminal *Tobacco Road* He wrote prolifically sometimes as much as a book a year As the editor of this book maintains perhaps anyone who wrote so much would inevitably stumble These 12 essays explore a variety of issues They discuss Caldwell as humorist social commentator modernist and revolutionary novelist They examine his themes and tropes political images social injustice the environment ideological struggles and his use of artistic devices short stories cubist strategies repetition A generous bibliography includes not only books on Caldwell but also chapters and forewords journal articles essays news items and obituaries The reader is encouraged to look at Caldwell with fresh eyes to press beyond his controversial image and to compare his works especially his early ones to those of any of the top names in literature

Cobb, Charles Reagan Wilson, 2014-02-01 Volume 11 of *The New Encyclopedia of Southern Culture* examines the economic culture of the South by pairing two categories that account for the ways many southerners have made their living In the antebellum period the wealth of southern whites came largely from agriculture that relied on the forced labor of enslaved blacks After Reconstruction the South became attractive to new industries lured by the region's ongoing commitment to low wage labor and management friendly economic policies Throughout the volume articles reflect the breadth and variety of southern life paying particular attention to the region's profound economic transformation in recent decades The agricultural section consists of 25 thematic entries that explore issues such as Native American agricultural practices plantations and sustainable agriculture Thirty eight shorter pieces cover key crops of the region from tobacco to Christmas trees as well as issues of historic and emerging interest from insects and insecticides to migrant labor The section on industry and commerce contains 13 thematic entries in which contributors address topics such as the economic impact of military bases resistance to industrialization and black business Thirty six topical entries explore particular industries such as textiles timber automobiles and banking as well as individuals including Henry W Grady and Sam M Walton whose ideas and enterprises have helped shape the modern South **Re-Covering Modernism** David M Earle, 2016-03-03 In the first half of the twentieth century modernist works appeared not only in obscure little magazines and books published by tiny exclusive presses but also in literary reprint magazines of the 1920s tawdry pulp magazines of the 1930s and lurid paperbacks of the 1940s In his nuanced exploration of the publishing and marketing of modernist works David M Earle questions how and why modernist literature came to be viewed as the exclusive purview of a cultural elite given its

availability in such popular forums As he examines sensational and popular manifestations of modernism as well as their reception by critics and readers Earle provides a methodology for reconciling formerly separate or contradictory materialist cultural visual and modernist approaches to avant garde literature Central to Earle s innovative approach is his consideration of the physical aspects of the books and magazines covers dust wrappers illustrations cost which become texts in their own right Richly illustrated and accessibly written Earle s study shows that modernism emerged in a publishing ecosystem that was both richer and more complex than has been previously documented **The South Carolina Review** ,2000 *The Nation's Region* Leigh Anne Duck,2009 How could liberalism and apartheid coexist for decades in our country as they did during the first half of the twentieth century This study looks at works by such writers as Thomas Dixon Erskine Caldwell Zora Neale Hurston William Faulkner and Ralph Ellison to show how representations of time in southern narrative first accommodated but finally elucidated the relationship between these two political philosophies Although racial segregation was codified by U S law says Leigh Anne Duck nationalist discourse downplayed its significance everywhere but in the South where apartheid was conceded as an immutable aspect of an anachronistic culture As the nation modernized the South served as a repository of the country s romantic notions the region was represented as a close knit custom bound place through which the nation could temper its ambivalence about the upheavals of progress The Great Depression changed this Amid economic anxiety and the international rise of fascism writes Duck the trope of the backward South began to comprise an image of what the United States could become As she moves from the Depression to the nascent years of the civil rights movement to the early cold war era Duck explains how experimental writers in each of these periods challenged ideas of a monolithically archaic South through innovative representations of time She situates their narratives amid broad concern regarding national modernization and governance as manifest in cultural and political debates sociological studies and popular film Although southern modernists modes and methods varied along this trajectory their purpose remained focused to explore the mutually constitutive relationships between social forms considered southern and national [Encyclopedia of the American Novel](#) Abby H. individuality Lancaster studies a variety of works including those by male authors William Faulkner Erskine Caldwell and John Steinbeck as well as female novelists Mary Heaton Vorse Myra Page Grace Lumpkin and Olive Tilford Dargan She identifies female stereotypes in classics such as *To Kill a Mockingbird* and in the work of later writers Dorothy Allison and Rick Bragg who embrace and share in a poor white background *The Angelic Mother and the Predatory Seductress* reveals that these literary stereotypes continue to influence not only society's perception of poor white southern women but also women's perception of themselves *The New Georgia Encyclopedia Companion to Georgia Literature* Hugh

Conversations with Erskine Caldwell contains thirty two interviews with this major writer who during his long career enjoyed both the celebrity and the controversy that his books generated These collected interviews include what is apparently his first given in 1929 before the publication of *The Bastard* to one of the very last given only weeks before his death in April 1987 Caldwell was a lifelong outspoken opponent of censorship and an early advocate of racial equality His ideas were reflected in a number of important interviews and portraits often in newspapers or small journals not easily obtained today In his later years he became a kind of elder statesman celebrated as the last of that extraordinary generation of American writers which included Faulkner Fitzgerald Hemingway Wolfe and Steinbeck and which changed the face of American literature The interviews in this collection reveal Caldwell's attitudes toward the profession of writing He describes his early years of struggle his determination to prove himself as a writer and his tremendous success as the author of *Tobacco Road* and *God's Little Acre* two American classics He explains his attitude toward the South and his desire to bring about social reform through his writings He is also candid about his own personal trials his doubts and beliefs and the state of his critical reputation **William Edward Dodd** Fred Arthur Bailey, 1997 A biography of a Southern scholar who rose from an

the mid twentieth century Because it is impossible to understand modern literary criticism apart from Cleanth Brooks or Cleanth Brooks apart from modern literary criticism Mark Royden Winchell gives us not only an account of one man s influence but also a survey of literary criticism in twentieth century America More than any other individual Brooks helped steer literary study away from historical and philological scholarship by emphasizing the autonomy of the text He applied the methods of what came to be called the New Criticism not only to the modernist works for which these methods were created but to the entire canon of English poetry from John Donne to William Butler Yeats In his many critical books especially *The Well Wrought Urn* and the textbooks he edited with Robert Penn Warren and others Brooks taught several generations of students how to read literature without prejudice or preconception
