edition including Book XX the first book of Part II appearing in Valladolid in 1557 Book XX which was printed separately in Valladolid in 1557 the year of Oviedo's death concerns the first three Spanish voyages to the East Indies While it might be expected that the narrative of Magellan's voyage would predominate in Book XX Oviedo devoted only the first four chapters to this monumental voyage The remaining thirty one concern the two subsequent and little known Spanish follow up expeditions to the Moluccas 1525-35 The first initially led by Garcia Jofre de Loaysa set out from Coruña to follow Magellan's route through the Strait and across the Pacific A second relief expedition under Alvaro Saavedra was sent out in search of Loaysa's company from the Pacific coast of New Spain in 1527 In each venture only one vessel reached the Spice Islands Oviedo's narrative offers many details of the 10 years of hardships and conflict with the Portuguese endured by the stoic Spanish and of the growing unrest it provoked among their indigenous hosts The news that Charles V had pawned his claim to the King João III of Portugal allowed a very few of the Spaniards to negotiate a passage back to Spain via Lisbon while others remained in Portuguese settlements in the East Indies The reports made by the returnees to the Consejo de Indias were integrated by Oviedo into his narrative expanded and enriched by personal interviews His chronicle includes much information about the indigenous culture commerce geography and of the exotic fauna and flora of the Spice Islands

Two Voyages David Horry,2018-01-24 New Zealand was the last major habitable land on Earth to be populated Many associate the discovery of New Zealand with James Cook but he was not the first to venture to this isolated part of the Earth When James Cook landed in New Zealand in July 1769 he landed at what is now known as Gisborne on the east coast of the North Island It is in the latitude 38 40 S and Cook was not sailing this latitude accidentally The west coast of New Zealand was first revealed on a published map in 1648 James Cook knew exactly where he was going Abel Tasman had been there in 1642 and Cook had a copy of his chart and journal The motivation behind Tasman s voyage was profit He was not voyaging into the unknown for fame glory or fortune he was a salaried employee of the Dutch East India Company a multinational trading company His mission was to find new lands with goods to trade He first saw New Zealand on 13th

December 1642 Five days later he had a dramatic encounter with the locals a tribe of M ori called Ng ti T matak kiri This was the first meeting of M ori and Europeans Tasman had not found an empty land it had already been discovered and settled New Zealand was discovered by Polynesians from the Central Pacific around 950 AD but remained only sparsely populated for three hundred years In approximately 1300 AD a wave of Polynesian migration began The immigrants that went to New Zealand did so for self preservation They risked the voyage to New Zealand to escape warfare death or starvation On 19th December 1642 Abel Tasman s crews met the locals with fatal consequences Those local M ori were descendants of the crew of the waka Kurahaup who had arrived in New Zealand about 300 years earlier Two Voyages follows the journeys of the waka Kurahaup its occupants and their descendants and Abel Tasman and his crew It follows the journeys from their origins to their point of coincidence in Golden Bay This wonderfully illustrated book explores the discovery of New Zealand by the Polynesians and by the Europeans after them It looks at the factors giving impetus to the two journeys the people who undertook them their routes the means by which they travelled and their tragic first meeting There are many books about the history of New Zealand that begin with the arrival of Europeans this one ends there
