From the 'Proc., Dorset nat. hist. and antiq. field club'.** Octavius Pickard- Cambridge, 1879 Web-Spinning Heroics Robert Moses Peaslee, Robert G. Weiner, 2014-01-10 This volume collects a wide ranging sample of fresh analyses of Spider Man It traverses boundaries of medium genre epistemology and discipline in essays both insightful and passionate that move forward the study of one of the world's most beloved characters The editors have crafted the book for fans creators and academics alike Foreword by Tom DeFalco with poetry and an afterword by Gary Jackson winner of the 2009 Cave Canem Poetry Prize *SPIDER* Cecil Warburton, 2024-02-11 THERE are certain days of the year when the immense wealth of spider industry going on all around us is revealed in a way calculated to strike even the least observant We all know and derive no peculiarly pleasant thrill from the knowledge that we can if so minded find abundance of cobwebs and their occupants by visiting the cellar or the tool house and probably we have all at times noticed with a languid interest large circular webs on our favourite rose bushes with a spider motionless in the centre But some spring or autumn morning when the night has

been foggy and the sun has only just succeeded in dispersing the mists every bush and hedge is seen to be draped every square foot of lawn and meadow to be carpeted with spiders silk There has been no special activity in the domain of these creatures but every silken line is beaded with drops perhaps fifty times its diameter and what yesterday required careful observation to detect is now visible yards away and we realise for once something of the prodigious activity constantly going on though ordinarily unnoted And it never entirely ceases True hibernation if it ever occurs is not the rule among spiders and there is no time of the year when some species may not be found at work Beat trees or bushes over an old umbrella or sweep grass and herbage with a sweeping net in summer and you will never draw a blank some spiders are sure to be found In winter such measures are profitless but if you take the trouble to grub among ground vegetation or shake fallen leaves over a newspaper or search under stones or logs of wood you will have no difficulty in finding spiders enough and by no means dormant I have even seen an enthusiastic collector remove inches of snow and disinter rare species from among the roots of the grass beneath
