The Making of a Chicano Militant Jose Angel Gutierrez, 1998 Texas for years was a one party state controlled by white democrats In 1962 a young eighteen year old heard the first rumblings of Chicano community organization in the barrios of Crystal The rumor in the town was that five Mexican Americans were going to run for all five seats on the city council But first poor citizens had to find a way to pay the 1.75 poll tax Money had to be raised through bake sales of tamales cake walks and dances So began the political activism of Jose Angel Gutierrez Gutierrez's autobiography *The Making of a Chicano Militant* is the first insider's view of the important political and social events within the Mexican American communities in South Texas during the 1960s and 1970s A controversial and dynamic political figure during the height of the Chicano movement Gutierrez offers an absorbing personal account of his life at the forefront of the Mexican American civil rights movement first as a Chicano and then as a militant Gutierrez traces the racial ethnic economic and social prejudices facing Chicanos with powerful scenes from his own life his first summer job as a tortilla maker at the age of eleven his racially motivated kidnapping as a teenager and his coming of age in the face of discrimination as a radical organizer in college and graduate school When Gutierrez finally returned to Crystal he helped form the Mexican American Youth Organization and subsequently the Raza Unida Party to confront issues of ethnic intolerance in his community His story is soon to be a classic in the developing literature of Mexican American leaders

The Latino Question Armando Ibarra, Alfredo Carlos, Rodolfo D Torres, 2018-08-20 While so many Latino Chicano Americans struggle in pursuit of the American dream while figures such as Donald Trump are accepted in mainstream politics and scaremongering and paranoia is rife the need for a vivid empirically grounded study on Latino politics culture and society has never been greater *The Latino Question* fulfills this need offering a cutting edge analysis of the transformative nature of Latino politics in the US In a radical alternative to dominant ideas the authors emphasise the importance of political economy for understanding Latino

politics culture and social issues It draws from original research and a number of critical traditions including the thought of Karl Marx and Antonio Gramsci to understand the politics of race and ethnicity in a modern capitalist society Including case studies of how Latino Chicano communities across the US are not only resisting but also reinventing and transforming ethnic politics in the age of neoliberalism this book is required reading for all those hoping to understand the Latino question in contemporary America

The North American West in the Twenty-First Century Brenden W. Rensink, 2022-11 In 1893 Frederick Jackson Turner famously argued that the generational process of meeting and conquering the supposedly uncivilized western frontier is what forged American identity In the late twentieth century new western historians dissected the mythologized western histories that Turner and others had long used to embody American triumph and progress While Turner's frontier is no more the West continues to present America with challenging processes to wrestle navigate and overcome **The North American West in the Twenty First Century** edited by Brenden W Rensink takes stories of the late twentieth century modern West and carefully pulls them toward the present explicitly tracing continuity with or unexpected divergence from trajectories established in the 1980s and 1990s Considering a broad range of topics including environment Indigenous peoples geography migration and politics these essays straddle multiple modern frontiers not least of which is the temporal frontier between our unsettled past and uncertain future These forays into the twenty first century West will inspire more scholars to pull histories to the present and by doing so reinsert scholarly findings into contemporary public awareness

Grounds for Dreaming Lori A. Flores, 2016-01-05 Known as The Salad Bowl of the World California s Salinas Valley became an agricultural empire due to the toil of diverse farmworkers including Latinos A sweeping critical history of how Mexican Americans and Mexican immigrants organized for their rights in the decades leading up to the seminal strikes led by Cesar Chavez this important work also looks closely at how different groups of Mexicans U S born bracero and undocumented confronted and interacted with one another during this period An incisive study of labor migration race gender citizenship and class Lori Flores s first book offers crucial insights for today s ever growing U S Latino demographic the farmworker rights movement and future immigration policy

They Saved the Crops Don Mitchell, 2012 At the outset of World War II California agriculture seemed to be on the cusp of change Many Californians reacting to the ravages of the Great Depression called for a radical reorientation of the highly exploitative labor relations that had allowed the state to become such a productive farming frontier But with the importation of the first braceros guest workers from Mexico hired on an emergency basis after the United States entered the war an even more intense struggle ensued over how agriculture would be conducted in the state Esteemed geographer Don Mitchell argues that by delineating the need for cheap flexible farm labor as a problem and solving it via the importation of relatively disempowered migrant workers an alliance of growers and government actors committed the United States to an agricultural system that is in important respects still with us They Saved the Crops is a theoretically rich and stylistically innovative account of grower rapaciousness worker militancy rampant corruption and bureaucratic bias Mitchell shows that growers workers and officials confronted a series of problems that shaped and were shaped by the landscape itself For growers the problem was finding the right kind of labor at the right price at the right time Workers struggled for survival and attempted to win power in the face of economic exploitation and unrelenting violence Bureaucrats tried to harness political power to meet the demands of as one put it the people whom we serve Drawing on a deep well of empirical materials from archives up and down the state Mitchell s account promises to be the definitive book about California agriculture in the turbulent decades of the mid twentieth century
