Religion in Republican Italy Celia E. Schultz, Paul B. Harvey, 2006-12-14 This book explores how recent findings and
research provide a richer understanding of religious activities in Republican Rome and contemporary central Italian societies
including the Etruscans during the period of the Middle and Late Republic While much recent research has focused on the
Romanization of areas outside Italy in later periods this volume investigates religious aspects of the Romanization of the
Italian peninsula itself The essays strive to integrate literary evidence with archaeological and epigraphic material as they
consider the nexus of religion and politics in early Italy the impact of Roman institutions and practices on Italian society the
reciprocal impact of non Roman practices and institutions on Roman custom and the nature of Roman as opposed to Latin
Italian or Etruscan religion in the period in question The resulting volume illuminates many facets of religious praxis in
Republican Italy while at the same time complicating the categories we use to discuss it **The J. Paul Getty Museum**
