The Spiritual You William Landon,2005-03 What does it mean to be human Most of us have asked this question at one time or another At least we have considered this question from the standpoint of our own life What is the most basic part of me We don't have to be philosophers or deep thinkers to ask these questions It is normal and natural for us to wonder about the fundamental nature of our being In *The Spiritual You* Bill Landon continues his examination of what our life in this world is truly all about In his earlier books *My Father and Your Father* and *The Life that is Real Life* Bill has looked at our relationship with God and the Lord's wishes for us as part of His creation In *The Spiritual You* Bill brings this search to the level of the individual person What is our real basic nature If we are to ever come to a place of harmony with ourselves each other our environment and world we must understand this basic nature This understanding as Bill sees it is not found in the world of formal education politics or even organized religion To understand our true nature we must seek for this knowledge from God This understanding is integral to our finding the place we were meant to hold in God's creation It is the author's hope that this book will be help and an encouragement to anyone seeking to find the real spiritual you

Who Are We? William Sowder,Dr. Juanita Christopher,2017-12-27 In this book among other sources we have compiled key thoughts and material that were dictated to Alice Bailey starting in the 1920s and continuing through the 1960s from the Tibetan master Djwhal Khul As you see in the references she wrote eighteen books which were published by Lucis Publishing Company New York Djwhal Khul shared this material from another dimension giving us a new perspective We highly recommend these books because Djwhal Khul is in a higher vibrational dimension working and aiding us in an enlightened evolution What we have added to this book is some of our thoughts about the energies to which Khul refers We know very little about these energies and this material presents a challenge to us in our evolutionary sojourn Each of us must pursue our understanding and knowledge about these energies This is our goal and our reason for writing this book Good travels to you

About Spiritual Mind Treatments is the definitive book on Spiritual Mind Healing The author reveals a precise and empowering method on directing one's thoughts to set healing principles in motion *Annual Review of the Sociology of Religion. Volume 3 (2012)*, 2012-08-24 This volume points to methodological innovations in social research and their potential for social scientific studies of religion Computerization has opened for both quantitative and qualitative systematic analyses of complex materials and the epistemological discourse after Positivism has opened for reconsidering the foundation of empirical social research Furthermore religion is changing and sociology of religion therefore widens its scope by including non institutional forms of religion This refocusing calls for new methodological considerations As the range of available methods expands it becomes more pressing to consider whether and how methods can be combined such as quantitative and qualitative methods Studying religion as a complex social phenomenon calls for a variety of methods but an integration of the empirical findings points back to the epistemological issue **The Atlantic Monthly**, 1896 *Atlantic Monthly*, 1896
