Spirits Of America Intoxication Of Nineteenth Century American Literature:

Spirits of America Nicholas O. Warner, 1997 American Culture, Canons, and the Case of Elizabeth Stoddard Robert McClure Smith, Ellen Weinauer, 2014-09-30 Reconsiders the centrality of a remarkable American writer of the ante and postbellum periods Elizabeth Stoddard was a gifted writer of fiction poetry and journalism successfully published within her own lifetime esteemed by such writers as William Dean Howells and Nathaniel Hawthorne and situated at the epicenter of New York's literary world Nonetheless she has been almost excluded from literary memory and importance This book seeks to understand why By reconsidering Stoddard's life and work and her current marginal status in the evolving canon of American literary studies it raises important questions about women's writing in the 19th century and canon formation in the 20th century Essays in this study locate Stoddard in the context of her contemporaries such as Dickinson and Hawthorne while others situate her work in the context of major 19th century cultural forces and issues among them the Civil War and Reconstruction race and ethnicity anorexia and female invalidism nationalism and localism and incest One essay examines the development of Stoddard's work in the light of her biography and others probe her stylistic and philosophic originality the journalistic roots of her voice and the elliptical themes of her short fiction Stoddard's lifelong project to articulate the nature and dynamics of woman's subjectivity her challenging treatment of female appetite and will and her depiction of the complex and often ambivalent relationships that white middle class women had to their domestic spaces are also thoughtfully considered The editors argue that the neglect of Elizabeth Stoddard's contribution to American literature is a compelling example of the contingency of critical values and the instability of literary history This study asks the question Will Stoddard endure Will she continue to drift into oblivion or will a new generation of readers and critics secure her tenuous legacy

Roth, 2005 Exposes the secret history of drink and drugs from creative stimulant to addictive poison *Manhood Lost* Elaine Frantz Parsons, 2009-07-27 In fiction drama poems and pamphlets nineteenth century reformers told the familiar tale of the decent young man who fell victim to demon rum Robbed of his manhood by his first drink he slid inevitably into an abyss of despair and depravity In its discounting of the importance of free will argues Elaine Frantz Parsons this story led to increased emphasis on environmental influences as root causes of drunkenness poverty and moral corruption thus

inadvertently opening the door to state intervention in the form of Prohibition Parsons also identifies the emergence of a complementary narrative of female invasion womanhood as a moral force powerful enough to sway choice As did many social reformers women temperance advocates capitalized on notions of feminine virtue and domestic responsibilities to create a public role for themselves Entering a distinctively male space the saloon to rescue fathers brothers and sons women at the same time began to enter another male bastion politics again justifying their transgression in terms of rescuing the nation s manhood

Narratives of Addiction Kevin McCarron, 2022-01-03 Narratives of Addiction Savage Usury is the first book to argue in the face of more than a century s received wisdom that drug addiction and alcoholism are undoubtedly evidence of individual moral flaws However the sense of morality that underlies this book is completely severed from Christianity Instead it is influenced in particular by the writings of the nineteenth century German philosophers Arthur Schopenhauer and Frederick Nietzsche both of whom insisted that a genuine morality was actually incompatible with Christianity The sequence of chapters moves from addictions on the streets into rehab clinics and finally into the meetings of Alcoholics Anonymous and Narcotics Anonymous This is the first book to argue that the search for pleasure drives alcoholism and drug addiction and not the numbing of pain Throughout the book I reject the claims of the medical profession as embodied by the American Medical Association that drug addiction and alcoholism are diseases and further argue that they do not have the authority to tell hundreds of millions of Americans

that addiction is not a moral failing I also query throughout the book the claims of neuroscience psychology and the social sciences that addictions to alcohol and drugs are attributable to causes that their specific disciplines are best suited to understand I argue that there is nothing complex about addiction it is a simple behavioural disorder The language routinely employed to discuss addiction is similarly not complex just confused and so it is also the rhetoric of addiction discourse especially its use of simile metaphor and euphemism that this book evaluates *Reference Guide to American Literature* Thomas Riggs,2000 Concise discussions of the lives and principal works of American writers thinkers and cultural figures written by subject experts Accommodating the Republic Kirsten E. Wood,2023-11-08 People have gathered in public drinking places to drink relax socialize and do business for hundreds of years For just as long critics have described taverns and similar drinking establishments as sources of individual ruin and public disorder Examining these dynamics as Americans surged westward in the early nineteenth century Kirsten E Wood argues that entrepreneurial improvement minded men integrated many village and town taverns into the nation s rapidly developing transportation network and used tavern spaces and networks to raise capital promote innovative businesses practice genteel sociability and rally support for favored causes often while drinking the staggering amounts of alcohol for which the period is justly famous White men s unrivaled freedom to use taverns for their own pursuits of happiness gave everyday significance to citizenship in the early republic Yet white men did not have taverns to themselves Sharing tavern spaces with other Americans intensified white men s struggles to define what and for whom taverns should be At the same time temperance and other reform movements increasingly divided white men along lines of party conscience and class In both conflicts some improvement minded white men found common cause with middle class white women and Black activists who had their own stake in rethinking taverns and citizenship

The politics of alcohol James Nicholls,2013-07-19 Questions about drink how it is used how it should be regulated and the social risks it presents have been a source of sustained and heated dispute in recent years In *The politics of alcohol* newly available in paperback Nicholls puts these concerns in historical context by providing a detailed and extensive survey of public debates on alcohol from the introduction of licensing in the mid sixteenth century through to recent controversies over 24 hour licensing binge drinking and the cheap sale of alcohol in supermarkets In doing so he shows that concerns over drinking have always been tied to broader questions about national identity individual freedom and the relationship between government and the market He argues that in order to properly understand the cultural status of alcohol we need to consider what attitudes to drinking tell us about the principles that underpin our modern liberal society *The politics of alcohol* presents a wide ranging accessible and critically illuminating guide to the social political and cultural history of alcohol in England Covering areas including law public policy medical thought media representations and political philosophy it will provide essential reading for anyone interested in either the history of alcohol consumption alcohol policy or the complex social questions posed by drinking today *Wasted: Performing Addiction in America* Dr Heath A Diehl,2016-01-28

Departing from the scholarly treatment of addiction as a form of rhetoric or discursive formation *Wasted Performing* Addiction in America focuses on the material lived experience of addiction and the ways in which it is shaped by a metaphor of waste from the manner in which people describe the addict the experience of inebriation or his or her systematic exclusion from various aspects of American culture It will appeal to scholars of popular culture cultural and media studies performance studies sociology and American culture **The Road of Excess** Marcus Boon, 2005-03-15 From the antiquity of Homer to yesterday's Naked Lunch writers have found inspiration and readers have lost themselves in a world of the imagination tinged and oftentimes transformed by drugs The age old association of literature and drugs receives its first comprehensive treatment in this far reaching work **Robertson Davies** Camille R. La Bossière, Linda M. Morra, 2001 This collection of essays on the writing of Robertson Davies addresses the basic problems in reading his work by looking at the topics of doubling disguise irony paradox and dwelling in gaps or spaces in between The essays present new insights on a broad range of topics in Davies oeuvre and represent one of the first major discussions devoted to Davies work since his death in 1995 Published in English
