Possibilities for Over One Hundredfold More Spiritual Information Sir John Templeton,2000-08-15 Sir John Templeton challenges the reader to apply the same energy that has been devoted to scientific inquiry to the pursuit of spiritual information The world is at a state of unprecedented technical expertise but why has our knowledge and faith in our own spirituality stalled and become obsolete in recent times Possibilities for Over One Hundredfold More Spiritual Information seeks to address this question It points out that our spiritual knowledge would also have the capacity to increase dramatically if we were to open our minds to the endless possibilities that await us in terms of our spiritual lives These include altruistic love for all people new knowledge of the Divine and a greater sense of our place in the universe In order for us as human beings to take advantage of all of the spiritual gifts that we have been given we need to be open and receptive to our individual spiritual natures and to open ourselves to the limitless spiritual possibilities available to us The book acknowledges the ancient scriptures and thinkers who have guided us for centuries Vastly expanded research and the use of scientific method would only enhance our understanding of the wisdom contained within these wise teachings The benefits of extending our spiritual knowledge might in fact exceed the benefits we have realized thus far from scientific

and medical advances Possibilities seeks to reawaken our desire for spiritual knowledge pushed aside so long ago in our quest for scientific knowledge When these fields work together the world will reap greater rewards that we can ever imagine
