Spiritual Translocation Are Thoresen, 2020-09-17 I wrote this book out of the needs I see at the present time I see diseases being translocated to others humans or animals despite the good intentions of many therapists or doctors The diseases are translocated because they do not exist in energetic patterns but as expressions of spiritual beings Energy and energy patterns only exist in the physical world but in the spiritual world there are only spiritual beings From ancient times all cultures have known of the spiritual phenomenon of translocation the movement of a pathological entity from one human being to another or from a human being to an animal These pathological entities are spiritual beings known as demons in common parlance Their translocation says Are Thoresen can take place as a result of conventional Western medicine but also from the application of alternative therapies such as homeopathy acupuncture and herbal medicine In order to have a positive therapeutic impact Thoresen advises that practitioners doctors and veterinarians need to acquire a deep understanding of the function and laws of pathological demonic entities and the means to influence them Using the Middle Point or Christ force it is possible to transform instead of simply translocating the negative spiritual aspects that are at work in contemporary society As the author states I have written this book to try to investigate these possibilities and to give my fellow travellers in spirit the insights tools and ability to make such a change
