**The Story of Radio Mind** Pamela E. Klassen, 2018-04-23 At the dawn of the radio age in the 1920s a settler mystic living on northwest coast of British Columbia invented radio mind Frederick Du Vernet Anglican archbishop and self declared scientist announced a psychic channel by which minds could telepathically communicate across distance Retelling Du Vernet s imaginative experiment Pamela Klassen shows us how agents of colonialism built metaphysical traditions on land they claimed to have conquered Following Du Vernet s journey westward from Toronto to Ojibwe territory and across the young nation of Canada Pamela Klassen examines how contests over the mediation of stories via photography maps printing presses and radio lucidly reveal the spiritual work of colonial settlement A city builder who bargained away Indigenous land to make way for the railroad Du Vernet knew that he lived on the territory of Ts msyen Nisga a and Haida nations who had never ceded their land to the onrush of Canadian settlers He condemned the devastating effects on Indigenous families of the residential schools run by his church while still serving that church Testifying to the power of radio mind with evidence from the apostle Paul and the philosopher Henri Bergson Du Vernet found a way to explain the world that he his church and his country made Expanding approaches to religion and media studies to ask how sovereignty is made through stories Klassen shows how the spiritual invention of colonial nations takes place at the same time that Indigenous peoples including

Indigenous Christians resist colonial dispossession through stories and spirits of their own **Trends in Radio Research** Manuel Fernández-Sande, J. Ignacio Gallego, Nieves Limón, 2018-10-19 This book explores how academia seeks to systematize the changes taking place in radio in its adaptation to the digital era The individual chapters here investigate the most important issues currently under study by researchers in the medium of radio tackling such key questions as the future of the radio spectrum the new commercial radio business models the function of community radio stations and the development of university radio stations amongst others As such this volume is integral to an understanding of the compound dimensions of the sound and radio media research currently being carried out in countries as varied as the United Kingdom Spain Poland Finland Portugal Brazil and Argentina **Subject Index of the Modern Books Acquired by the British Museum in the Years ...** , 1927 *Subject Index of the Modern Works Added to the British Museum Library* British Museum. **Spirits of Protestantism** Pamela E. Klassen, 2011-07-14 Klassen s book is much more than a first rate study of how two churches in Canada positioned themselves within the ostensibly parallel worlds of biomedicine and spiritual healing It is at

its core an insightful meditation on the relationship between liberal Protestantism and the project of modernity A must read not only for students of Christianity but all those interested in the legacies of secularism and enchantment Matthew Engelke London School of Economics *Handbook of Megachurches* Stephen J. Hunt, 2019-11-26 The megachurch is an exceptional recent religious trend certainly within Christian spheres Spreading from the USA megachurches now reached reach different global contexts The edited volume *Handbook of Megachurches* offers a comprehensive account of the subject from various academic perspectives **History of the Holy Years through Mass Media (1900-2015)** Gianluca della

Maggiore, Raffaella Perin, Federico Ruozzi, Dario Edoardo Viganò, 2025-09-29 As soon as Jubilees or Holy Years appeared on the 14th century historical stage they became the papal monarchy's most relevant political and economic instruments Since the 20th century jubilee celebrations have also proved to be extraordinary moments of confrontation though not always easy or unambiguous between the papacy and the rapidly developing mass audiovisual media On the one hand the jubilees have served as catalysts for attention towards the Vatican amplifying the traditional reasons behind the attraction of the Eternal City as a destination for imposing pilgrimages and as a theater for spectacular liturgical ceremonies On the other hand the Holy Years have provided the opportunity for the Holy See to experiment through audiovisual media with new ways of interpreting and unfolding the universal mission of the papacy finally freed from temporal concerns This volume aims to reconstruct this complex and little investigated connection by drawing on a variety of sources from the Vatican archives as well as little known audiovisual sources Focusing on one hundred years of history 1900-2015 the events of both ordinary and extraordinary jubilees are analyzed from the perspective of each of the audiovisual mass media cinema radio and television
