Fernandez,2017-05-05 When religious diversity is our reality radical hospitality to people of other faiths is not a luxury but a necessity More than necessary for our survival radical hospitality to religious diversity is necessary if we are to thrive as a global society By no means does the practice of hospitality in a multifaith world require that we be oblivious of our differences On the contrary it demands a respectful embrace of our differences because that s who we are Neither does radical hospitality require that we water down our commitment because faithfulness and openness are not contradictory We must be able to say with burning passion that we are open to the claims of other faiths because we are faithful to our religious heritage The essays in this book do not offer simply theological exhortations they offer specific ways of how we can become religiously competent citizens in a multifaith world Let s take the bold steps of radical openness with this book on our side **Generation WTF** Christine B. Pitts, 2025-06-12 Contemporary theologians tend to associate the Holy Spirit with the formation of local communities social movements and fluid relational networks and not with institutions such as denominations or global church bodies In this work Jamie Pitts argues that this pneumatological sociological picture misses important aspects of the Spirit's work Pitts draws on a wide range of theological and theoretical resources to depict the Spirit as organizing the complex dynamic and relationally entangled structures that constitute creation Human organizing that seeks to participate in the Spirit can take a variety of analogous structural forms including formal organizations or institutions Organizational participation in the Spirit is not a function of an organization's scale mobility or relative informality but rather of its practical orientation toward the Spirit's goals of life solidarity healing and inclusive justice A series of case studies clarifies and extends the implications of the argument in connection to organizing for environmental gender sexual and racial justice In the final chapter Pitts addresses the role of a political theology of the organizing Spirit in imagining organizational alternatives to the global
