Spiritual Writers Of The Middle Ages:

Documents concernant le film "Si les femmes portaient culotte" ,1941 **Spiritual Writers of the Middle Ages**
Gerard Sitwell,1961 *Spiritual Writers of the Middle Ages* Gerard Sitwell,1961 From the eleventh to the sixteenth centuries essentially the great age of monasticism much thought was given to developing a ground plan by which the monk or friar could reach contemplation and mystical union with God Basically the writers of the age saw a fourfold division of this ground plan reading meditation prayer and contemplation While the basic ideas of spirituality were generally accepted by all writers there were divergent teachings The author here traces the main trends of these varied teachings from Benedictine spirituality of the eleventh century through the ideas of the new orders the Cistercians the Franciscans and the Dominicans down to the fifteenth century writings of Thomas Kempis whose Imitation of Christ is still one of the best known and most loved spiritual guides The author also deals at length with the writings of St Bernard of Clairvaux the major spiritual theologian of the Middle Ages **Spiritual writers of the Middle Ages the Twentieth Century Encyclopedia of Catholicism Vol.40 ,1961** **Christian Spirituality: In the middle ages, translated by S. P. Jacques** Pierre Pourrat,1924 The Popularity of Twelfth-century Spiritual Writers in the Late Middle Ages Giles Constable,1971
English Spirituality in the Age of Wesley David Lyle Jeffrey,2000-12 **A Cultural History of the Emotions in the Medieval Age** Juanita Ruys,Clare Monagle,2020-08-20 Our period opens at the end of the Roman Empire when intellectual currents are indebted to the Greek philosophical inheritance of Plato and Aristotle as well as to a Romanized Stoicism Into this mix entered the new and from 313CE imperially sanctioned religion of Christianity In art literature music and drama we find an increasing emphasis on the arousal of individual emotions and their acceptance as a means towards devotion In religion we see a move from the ascetic regulation of emotions to the affective piety of the later medieval period that valued the believer's identification with the Passion of Christ and the sorrow of Mary In science and medicine the nature and causes of emotions their role in constituting the human person and their impact on the same became a subject of academic inquiry Emotions also played an increasingly important public role evidenced in populace wide events such as conversion and the strategies of rulership Between 350 and 1300 emotions were transformed from something to be transcended into a location for meditation upon what it means to be human *Mysticism and Spirituality in Medieval England* William F. Pollard,Robert Boenig,1997 The late fourteenth and early fifteenth centuries in England were a golden age of mysticism the major figures could draw on and allude to a host of treatises as the Cloud author acknowledges when he explains how the works of St Denis validate all he writes about Without Denis without the theologians of the eleventh and twelfth centuries without the anchoritic writings of the thirteenth century Richard Rolle Julian of Norwich Walter Hilton Margery Kempe could not have written as they did Likewise those who followed them the Wycliffites the Brigittines the writers of religious lyrics responded to those who had gone before The articles presented here identify major themes and the web of influence that link them new

but solid interpretations are offered of the key figures and their backgrounds and the emphasis is on the rich variety of mysticism these authors and texts embody **The Oxford Handbook of Medieval Latin Literature** Ralph Hexter, David Townsend, 2012-01-23 The twenty eight essays in this Handbook represent the best of current thinking in the study of Latin language and literature in the Middle Ages The insights offered by the collective of authors not only illuminate the field of medieval Latin literature but shed new light on broader questions of literary history cultural interaction world literature and language in history and society The contributors to this volume a collection of both senior scholars and gifted young thinkers vividly illustrate the field s complexities on a wide range of topics through carefully chosen examples and challenges to settled answers of the past At the same time they suggest future possibilities for the necessarily provisional and open ended work essential to the pursuit of medieval Latin studies While advanced specialists will find much here to engage and at times to provoke them this handbook successfully orients non specialists and students to this thriving field of study The overall approach of The Oxford Handbook of Medieval Latin Literature makes this volume an essential resource for students of the ancient world interested in the prolonged after life of the classical period s cultural complexes for medieval historians for scholars of other medieval literary traditions and for all those interested in delving more deeply into the fascinating more than millennium that forms the bridge between the ancient Mediterranean world and what we consider modernity

Culture and Spirituality in Medieval Europe Giles Constable, 2024-10-28 The studies in the present selection of Giles Constable s work concentrate on culture and spirituality in the 11th and 12th centuries though they also touch on the early and late Middle Ages The cultural articles are concerned respectively with perceptions of time and the past forgery seen as a reflection of social and religious concerns entry to religious life preaching and letters and letter writing The articles on spirituality deal with the themes of suffering and attitudes towards the self especially the growing concentration on the individual in the religious life of the 12th century **Christian Spirituality** George A. Lane, 2010-06 Lord Teach Us to Pray In Christian Spirituality A Historical Sketch George Lane looks to the sources of the Christian spiritual tradition in order to establish a firm ground for a vital contemporary spirituality Quoting the great Jesuit scientist and mystic Teilhard de Chardin Everything is the sum of the past nothing is comprehensible except through its history Lane examines the masters of Christian spirituality in their historical context He shows why the hermits of the East the monks of the West Basil Athanasius Origen Jerome Augustine Benedict Dominic Francis Ignatius Loyola Teilhard and others were so influential in their time and why they have much to teach us today *Mental Health, Spirituality, and Religion in the Middle Ages and Early Modern Age* Albrecht Classen, 2014-07-28 This volume continues the critical exploration of fundamental issues in the medieval and early modern world here concerning mental health spirituality melancholy mystical visions medicine and well being The contributors who originally had presented their research at a symposium at The University of Arizona in May 2013 explore a wide range of approaches and materials pertinent to these issues taking us from the early Middle Ages to the eighteenth

century capping the volume with some reflections on the relevance of religion today Lapidary sciences matter here as much as medical psychological research combined with literary and art historical approaches The premodern understanding of mental health is not taken as a miraculous panacea for modern problems but the contributors suggest that medieval and early modern writers scientists and artists commanded a considerable amount of arcane sometimes curious and speculative knowledge that promises to be of value and relevance even for us today once again Modern palliative medicine finds for instance intriguing parallels in medieval word magic and the mystical perspectives encapsulated highly productive alternative perceptions of the macrocosm and microcosm that promise to be insightful and important also for the post modern world
