Discovered in 1929 the Manichaean Kephalaia have opened up an important window on the early development of Manichaean doctrine This study identifies a significant redactional tendency whereby the compilers of the text sought to clarify ambiguities in canonical Manichaean tradition by means of five part numerical series This discovery challenges the conventional wisdom of Manichaean scholarship which has long maintained that since Mani recorded his own teachings in a series of what later became canonical writings Manichaean doctrines were transmitted relatively unchanged from the master to successive generations of disciples Since this assumption is now called into question it now becomes necessary to re evaluate received notions about the shape of both the Manichaean canon and tradition *A Restless Search* Kenneth J. Tracing the Indo-Europeans Birgit Anette Olsen, Thomas Olander, Kristian Kristiansen, 2019-08-23 Recent developments in aDNA has reshaped our understanding of later European prehistory and at the same time also opened up for more fruitful collaborations between archaeologists and historical linguists Two revolutionary genetic studies published independently in Nature 2015 showed that prehistoric Europe underwent two successive waves of migration one from Anatolia consistent with the introduction of agriculture and a later influx from the Pontic Caspian steppes which without any reasonable doubt pinpoints the archaeological Yamnaya complex as the cradle of Core Indo European languages Now for the first time when the preliminaries are clear it is possible for the fields of genetics archaeology and historical linguistics to cooperate in a constructive fashion to refine our knowledge of the Indo European homeland migrations society and language For the

historical comparative linguists this opens up a wealth of exciting perspectives and new working fields in the intersections between linguistics and neighbouring disciplines for the archaeologists and geneticists on the other hand the linguistic contributions help to endow the material findings with a voice from the past The present selection of papers illustrate the importance of an open interdisciplinary discussion which will gradually help us in our quest of Tracing the Indo Europeans

Religions of Iran Richard Foltz,2013-11-01 A sweeping new work exploring Iran s cultural import and influence on each of the world s major religions Today it is Iran s association with Islam that commands discussion and debate But this perception obscures a far more influential and complex relationship with religion Iran has in fact played an unparalleled role in shaping all the world religions injecting Iranian ideas into the Jewish Buddhist Christian and Muslim traditions This vivid and surprising work explores the manner in which Persian culture has interacted with and transformed each world faith from the migration of the Israelites to Iran thousands of years ago to the influence of Iranian notions on Mahayana Buddhism and Christianity Travelling through thousands of years of history Foltz s powerful and evocative journey uncovers a vital and fresh account of our spiritual heritage in this fascinating region *The Age of the Sages* Mark W. Muesse,2013-08-01 By

setting traditions and thinkers such as Zoroaster Jeremiah Isaiah Gautama Buddha Confucius Pythagoras Socrates Plato and Aristotle side by side we are able to see more clearly the questions with which they struggled their similarities and differences and how their ideas have influenced religious thought down to our day *Two Centuries of Silence* Avid Kamgar,2016-08-19 How Farsi language broke its two centuries of silence This book is the translation of Do Gharn Sokoot into English by an Iranian scientist and scholar Two Centuries of silence is the saga of 200 years of struggle by Iranians in order to free themselves from the yoke of Muslim Arabs elegantly and passionately told by Abdolhossein Zarinkoob The book elucidates the key reasons for the success of Muslim Arabs in their assault on Iran a fact that was not written in the stars nor was it an act of God For its readers this translation hopes to shed light on what forms the foundation of today s Iran and help bring some understanding of Iranians and their culture The fall of Nahavand in 642 CE marked the end of a glorious fourteenth century history of Iran a fascinating and dynamic history spanning the years from 700 BCE to 700 CE For two centuries thereafter a brutally long chilling silence cast its shadow over the history and language of Iran Professor Zarinkoob explores the reason behind the Sasanian downfall and how the uncouth Bedouins triumphed over an immense and glorious civilization such as that During these two centuries about which our recent historians have remained silent why did Farsi become a lost language obscure and traceless In the time when Iranian swordsmen revolted against the Arabs under any pretext fighting the Arabs and Muslims how did Zoroastrian priests argue and debate in the light of knowledge and wisdom against the Muslim faith Finally why a book that tells the tale of a most turbulent period of Iran s history is titled Two Centuries of Silence and not Two Centuries of Chaos and Uproar Prof Zarinkoob s colorful narrative unravels these mysteries through Iranian eyes and is delivered here only as they may *Doing International Research* Christopher

American Missionaries in Iran during the 1960s and 1970s

Hopkins, 2020-09-22 This work explores the interaction of American Protestant missionaries with Iranians during the 1960s and 1970s It focuses on the missionary activities of four American Protestant groups Presbyterians Assemblies of God International Missions and Southern Baptists It argues that American missionaries predisposition toward their own culture confused their message of the gospel and added to the negative perception of Christianity among Iranians This bias was seen primarily in the American missionaries desire to modernize Iran through education and healthcare and between the missionaries relationship with Iranian Christians Iranian attitudes towards missionary involvement in these areas are investigated as is the changing American missionary strategy from a traditional method where missionaries had the final say on most matters related to American and Iranian Christian interaction to the beginnings of an indigenous system where a partnership developed between the missionary and the Iranian Christian
