American Organist Thomas Scott Buhrman,1919 **Singing in My Soul** Jerma A. Jackson,2005-12-15 Black gospel

music grew from obscure nineteenth century beginnings to become the leading style of sacred music in black American communities after World War II Jerma A Jackson traces the music s unique history profiling the careers of several singers particularly Sister Rosetta Tharpe and demonstrating the important role women played in popularizing gospel Female gospel singers initially developed their musical abilities in churches where gospel prevailed as a mode of worship Few however stayed exclusively in the religious realm As recordings and sheet music pushed gospel into the commercial arena gospel began to develop a life beyond the church spreading first among a broad spectrum of African Americans and then to white middle class audiences Retail outlets recording companies and booking agencies turned gospel into big business and local church singers emerged as national and international celebrities Amid these changes the music acquired increasing significance as a source of black identity These successes however generated fierce controversy As gospel gained public visibility and broad commercial appeal debates broke out over the meaning of the music and its message raising questions about the virtues of commercialism and material values the contours of racial identity and the nature of the sacred Jackson engages these debates to explore how race faith and identity became central questions in twentieth century African American life
