Segmented Worlds and Self Yi-fu Tuan, *The Secret Wife of Louis XIV* Veronica Buckley, 2010-08-31 Fran oise d Aubign marquise de Maintenon and secret wife of the Sun King Louis XIV was born in a bleak French prison in 1635 her father a condemned traitor and murderer her mother the warden's seduced daughter A timely pardon and a hopeful Caribbean colonial venture failed to mend the family's fortunes and Fran oise was reduced to begging in the streets Yet armed with beauty intellect and shrewd judgment she was to make her way to the center of power at Versailles the most opulent and ambitious court in all Europe At fifteen she was married off to the forty two year old satirical poet Paul Scarron a former rou now grievously deformed by rheumatism a sort of human Z as he described himself Despite his ailments Scarron presided over the liveliest and most scandalous literary salon in Paris and Fran oise quickly became its most prized ornament After

Scarron's death she enjoyed a merry widowhood in the fashionable Marais district in the company of the courtesan Ninon de Lenclos and the King's splendid mistress Athanasia de Montespan who made the young widow governess to her brood of illegitimate children. The appointment transformed Françoise's life but was fatal to the temperamental Athanasia herself with the King soon turning his attentions to the graceful governess. Françoise was raised to the nobility as Madame de Maintenon and unofficially Madame de Maintenant the lady of the moment. The acclaimed biographer Veronica Buckley traces the extraordinary story of Françoise's progress from pauper child to salonnière to the compromised position of Louis's secret wife and uncrowned Queen. An absolute ruler Louis turned away his many other mistresses to live with Françoise only trusting her as his closest confidante and remaining in love with her for forty years. Sparkling with the irresistible wit of contemporary chroniclers such as Madame de Sévigné this exactingly researched biography is a pinnacle of the form. In vibrant colors *The Secret Wife of Louis XIV* paints a portrait of Europe in an age of violent change and the Sun King's France in the process of becoming its modern self.

He meticulously analyzes the protracted government sponsored efforts to foster and maintain that status and ultimately the latter day challenges to France's national linguistic identity posed by Anglocentric globalization and a multicentric European Union. The internal history of the language is closely intertwined with its external history phonology morphology lexicography and orthography come alive against a backdrop of political cultural and institutional manifestations. A felicitous blend of documentary evidence and critical analysis serves to elucidate crucial stages events and concepts 16th century exuberance 17th century foundations 18th century expansionism Revolutionary ideology Restoration restructuring and commercialization the advent of linguistic science the coming of the media age encroaching technocracy and clamors for linguistic parity. Individual chapter focus on the plight of minority linguistic communities such as the blind and the deaf language monitoring policies and legislation such as the Loi Toubon as well as the feminization project legitimizing Madame la ministre. Persecution and Pluralism Richard Bonney, David J. B. Trim, 2006 With one exception the papers collected here were first presented at a conference sponsored by the British Academy held at Newbold College Berkshire in 1999 This volume provides a historical perspective to the emerging literature on pluralism A range of experts examine how Calvinists in early modern France England Hungary and the Netherlands related to members of other faith communities and to society in general The essays explore the importance of Calvinists' separateness and potent sense of identity To what extent did this enable them to survive persecution Did it at times actually induce repression Where Calvinists held political power why did they often turn from persecuted into persecutors How did they relate to Anabaptists Quakers and Catholics for example The conventional wisdom that toleration and in consequence pluralism resulted from a waning in religious zeal is queried and alternative explanations considered Finally the concept of pluralism itself is investigated
