Time Briton Hadden, Henry R. Luce, 1987 *Splinter Fleet* Theodore R Treadwell, 2013-11-12 Hastily built at the onset of World War II to stop German U boats from taking their toll on Allied shipping the 110 foot wooden subchasers were the smallest commissioned warships in the U S Navy yet they saw as much action as ships ten times their size In every theater of war these expendable workhorses of the fleet escorted countless convoys of slow moving ships through submarine infested waters conducted endless mind numbing antisubmarine patrols and were used in hundreds of amphibious operations Some subchasers worked as gunboats to search for and destroy enemy barges Others rescued downed airmen and retrieved drowning soldiers under heavy enemy fire During the German occupation of Norway three American built subchasers and

their Norwegian crews came to be known as The Shetlands Bus for their clandestine work as ferries the only link between Norway and the free world This book written by the commander of one of the subchasers defines their place in naval history and gives readers a taste of life on board the wooden warships Ringing with authenticity it describes the cramped quarters and unforgiving seas as well as the tenacious courage and close bonds formed by the men as they sought out the enemy and confronted nature Long overshadowed by the larger faster warships and more glamorous PT boats of World War II subchasers have been mostly forgotten This work restores the plucky little ships to their hard earned status as significant members of the fleet

of the Pacific War and the incredible sacrifice of the USS Samuel B Roberts On October 25 1944 the Samuel B Roberts along with the other twelve vessels comprising its unit stood between Japan s largest battleship force ever sent to sea and MacArthur s transports inside Leyte Gulf Faced with the surprise appearance of more than twenty Japanese battleships cruisers and destroyers including the Yamato at 70 000 tons the most potent battlewagon in the world the 1 200 ton Samuel B Roberts turned immediately into action with six other ships Captain Copeland marked the occasion with one of the most poignant addresses ever given to men on the edge of battle Men he said over the intercom we are about to go into a fight against overwhelming odds from which survival cannot be expected The ship churned straight at the enemy in a near suicidal attempt to deflect the more potent foe allow the small aircraft carriers to escape and buy time for MacArthur s forces Of 563 destroyers constructed during World War II the Samuel B Roberts was the only one sunk going down with guns blazing in a duel reminiscent of the Spartans at Thermopylae or Davy Crockett s Alamo defenders The men who survived faced a horrifying three day nightmare in the sea where they battled a lack of food and water scorching sun and numbing nighttime cold and nature s most feared adversary sharks The battle would go down as history s greatest sea clash the Battle of Samar the dramatic climax of the Battle of Leyte Gulf **The Green Navy** Ernest H.
