When East Met West Jeffrey Harlig, Csaba Pléh, 1995

The Palgrave Handbook of Economics and Language V. Ginsburgh, S. Weber, 2016-04-08

Do the languages people speak influence their economic decisions and social behavior in multilingual societies? This Handbook brings together scholars from various disciplines to examine the links and tensions between economics and language to find the delicate balance between monetary benefits and psychological costs of linguistic dynamics.

Eastern European Immigrant Families Mihaela Robila, 2013-05-13

Immigration from Eastern Europe to the United States has grown significantly in the last few decades. While Asian and Latin American immigrations have been central to the discourse of migration to the US, the rapid growth of Eastern European immigrants has received insufficient attention. Robila fills this gap by presenting key issues related to immigration from Eastern Europe such as child rearing beliefs and practices, cultural beliefs, second generational conflicts as well as the challenges faced by Eastern European immigrants as they immigrate around the world.

Learning and Using Languages in Ethnographic Research Robert Gibb, Annabel Tremlett, Julien Danero Iglesias, 2019-10-11

Learning and Using Languages in Ethnographic Research breaks the silence that still surrounds learning a language for ethnographic research and in the process demystifies some of the multilingual aspects of contemporary ethnographic work. It does this by offering a set of engaging and accessible accounts of language learning and use written by ethnographers who are at different stages of their academic career. A key theme is how researchers' experiences of learning and using other languages in fieldwork contexts relate to wider structures of power, hierarchy and inequality. The volume aims to promote a wider debate among researchers about how they themselves learn and use different languages in their work and to help future fieldworkers make more informed choices when carrying out ethnographic research using other languages.

Marginalised and Endangered Worldviews Lidia Guzy, James Kapaló, 2017

The study of worldviews marginalized by mainstream modernity is an eminently important undertaking. It helps us better recognise, cherish and keep the values of traditions and practices that exist. This is important when the uniform vision of the world heaped on us from the media, modernist political movements and ideologies revealed itself as unreal and fake, rendering it evident that the modern utopia of enlightened rationality is just a delirious nightmare.

Arpad Szokolczai, Professor of Sociology, U College Cork. This book fosters dialogue on critical problems faced by endangered indigenous cultures and marginalised communities. The ethos is collaborative and comparative, describing the implications for global society of the destruction and impoverishment of human and ecological cultural diversity.
