as she chronicles the two deployments to Iraq of her son Sgt Roman Diaz from the perspective of the home front Sergeant Diaz's second deployment put him south of Baghdad in the region aptly termed the Triangle of Death. There his platoon experienced extraordinarily heavy casualties during the height of the Iraqi insurgency. That unit has since become the focus of considerable media attention following events that made headlines in the summer of 2006: an insurgent attack at a remote outpost on three of their own, one killed at the scene, the other two kidnapped, their bodies found days later, and a terrible war crime committed against an Iraqi family by four soldiers from First Platoon, Minefields of the Heart. This adds a very personal dimension to the larger story of this Bravo Company platoon from the 101st Airborne's 502nd Infantry Regiment, a unit known since World War II as the Black Heart Brigade. Diaz recounts the emotional rollercoaster her family and other soldiers' families experience during and after deployment. She explores this terrain not only through stories of her son's and family's experiences connected to the Iraq War but also by insights she's gained from other veterans' accounts from what she calls the box that soldiers returning from any war carry within. This added layer gives her narrative broader meaning, bringing home the impact of war in general on those who fight and on those who love them. Minefields of the Heart is a story of innocence lost, understanding gained, and hope reaffirmed. In addition to veterans and their families, this book will appeal to anyone who wants to understand war's impact on individuals as well as on the fabric of our society. *Hard Landings* Cammie McGovern, 2021-08-24

A game-changing exploration of what the future holds for the first generation of mainstreamed neurodiverse kids that is coming of age. After sleepless nights, intensive research, and twenty-one years of raising a child, Ethan, with autism and intellectual disability, Cammie McGovern is approaching a distinct catch 22. Once Ethan turns twenty-two, he will fall off the Disability Cliff. By aging out of the school system, he'll lose access to most social, educational, and vocational resources. The catch is this: These resources are limited as they may have trained Ethan in skills for jobs that don't exist and a life he can't have. Here McGovern expands on her 1 New York Times piece, "Looking into the Future for a Child with Autism," a future that often appears grim with statistics like an 85 percent unemployment rate for people with ID. McGovern spent a year traveling the country and looking at the options for work and housing, and to her surprise, discovered reasons to be optimistic. She asks the tough questions: What should parents prioritize as they ready their children for adulthood? How do we redefine success for our children? How can we sustain a hopeful attitude while navigating one obstacle after another? As Ethan makes his way into the world, McGovern also looks into the hardest question of all: How can we ensure an independent future when we're gone? *Hard Landings* will serve as a renewed beacon of hope for parents who want to ensure the fullest life possible for their child's future.
