Spontaneous Overflows and Revivifying Rays Angela Esterhamer, 2004 In this Garnett Sedgewick lecture given to the Department of English at the University of British Columbia in 2004 Angela Esterhamer introduces us to the art of the nineteenth century Italian improvvisatori who created spontaneous verses on topics chosen by their audiences English Romantic poets such as Shelley and Byron witnessed some of these performances especially by Tomasso Sgricci and were greatly impressed The ability of the improvvisatori touched on the very essence of poetic creation is it simply as the improvvisatori would seem to demonstrate the spontaneous overflow of powerful feelings or does it have to be recollected in tranquility as Wordsworth had suggested Dr Esterhamer examines the ramifications of these two questions through the poetry and letters of the English Romantic poets who had witnessed the art of the improvvisatori and in so doing presents some fascinating material and insights into the act of creation and the springs of the artistic imagination

Mesmerism, Medusa, and the Muse Anne DeLong, 2012-04-26 Mesmerism Medusa and the Muse The Romantic Discourse of Spontaneous Creativity explores the connections among the Romantic discourse of spontaneous literary creativity the nineteenth century cultural practice of mesmerism and the mythical Medusa as an icon of the gendered gaze An analysis of Medusan mesmerism in the poetry of Mary Robinson Samuel Taylor Coleridge Percy Bysshe Shelley and Letitia Elizabeth Landon L E L and the prose of Mary Shelley reveals that these Romantic era writers equate the enraptured state that produces spontaneous literary creation with the mesmeric trance These writers employ Medusan imagery to portray both the mesmerist and the mesmerized subject a conflation of subject object positions that complicates issues of agency subjectivity and gender Images of Medusan mesmerism ultimately work to deconstruct Romantic ideological dichotomies of self other female male muse artist and sublime beautiful In contrast to a traditional masculinized Romantic discourse that emphasizes self possession this study uncovers a feminized improvisational Romantic discourse characterized Other possession an assumption of the mesmerized subject position that enhances subjective fluidity This study interrogates the Romantic discourse of spontaneous literary creativity through an examination of Romantic poetry prose and theory that utilizes mesmeric and Medusan metaphors to suggest creative inspiration Building on recent scholarship about improvisational poetics the subversive potential of mesmerism and Medusa as a feminist icon this work suggests that the mesmeric Medusan muse not only enables creativity for women writers but also provides a mirror in which they view and through which they give voice to their own societal oppression The mesmeric Medusan muse in Romantic era literature from the Ancient Mariner and the Frankenstein monster to the tragic abandoned Sapphic poetess often represents the face of oppression an unwelcome and monstrous truth in nineteenth century British society For women writers in particular braving the stare of the Medusan muse enhances empathy and therefore inspiration and literary productivity Improvisation as Art Edgar Landgraf, 2014-03-27 Improvisation as Art traces how modernity's emphasis on inventiveness has changed the meaning of

improvisation and how the ideals and laws that led improvisation to be banned from high art in the eighteenth century simultaneously enabled the inventive reintegration of improvisation into modernism After an in depth exploration of contemporary theoretical contentions surrounding improvisation Landgraf examines how the new emphasis on inventiveness affects the understanding of improvisation in the emerging aesthetic and anthropological discourses of the late 18th and early 19th centuries He first focuses on accounts of improvisational performances by Moritz Goethe and Fernow and reads them alongside the aesthetics of autonomy as it develops at the same time In its second half the book investigates how the problem of planning art receives a different treatment in German Romanticism The final chapter focuses on the writings of Heinrich von Kleist where improvisation presents a central aesthetic principle Kleist's figurations of improvisation recognize the anthropological predicament of the self in modern society and the social constraints that invite and often force

Spontaneous Overflow fixates on comic corporeality in the literature of British Romanticism the bodily movements and moments that make the Romantic Movement move Byron complains of a nausea induced by reading too much Wordsworth Blake grumbles of a bowel complaint which nearly killed him while reading the Excursion These moments read Romanticism differently Odd articulations of aesthetic experience they expose the comic contingencies written on the underside of Romantic sincerity and give a glimpse of a different history of Romanticism one in which the aesthetic impulse towards idealism contains and conceals corporeality as part of its poetic structure and style A doctrine of sincerity Wordsworth s famous articulation of all good poetry as the spontaneous overflow of powerful feelings takes on a surprisingly somatic force when re read by Blake s bowels and Byron s nausea Tracing the intestinal tract of Romantic internalization writers in the

history of what I call Inside Out Romanticism create counter flows and blockages with their bodies that disrupt and redirect a totalizing discourse of Romanticism at the very moment of its inception While critics have often turned to internalization as shorthand for the imaginative work attempted by Romanticism's aesthetics of transcendence I argue that sudden convulsions of the body create spontaneous counter flows that expose something somatic embedded in aesthetics and re write the inward turn of Romanticism as a physiological phenomenon Attending to the stylistic subtleties of Wordsworth Coleridge Byron and Thomas Love Peacock my project interrogates the hidden presence of corporeality at the core of an ostensibly disembodied aesthetic tradition and ultimately resituates Romanticism's radicalism in and around the excesses and evacuations of the body    *Romanticism and Improvisation, 1750-1850* Angela Esterhammer, 2008-08-07 Angela Esterhammer explores how the professional practice of improvisation contributes to Romantic ideas and explores poetic improvisation in nineteenth century fiction
