Equestrian Cultures in Global and Local Contexts Miriam Adelman, Kirrilly Thompson, 2017-06-13 This edited volume demonstrates the broader socio-cultural context for individual human-horse relations and equestrian practices by documenting the international value of equines socially, culturally as subjects of academic study and as drivers of public policy. It broadens our understanding of the importance of horses to humans by providing case studies from an unprecedented diversity of cultures. The volume is grounded in the contention that the changing status of equines reveals and moves us to reflect on important material and symbolic societal transformations ushered in by post-modernity which affect local and global contexts alike. Through a detailed consideration of the social relations and cultural dimensions of equestrian practices across several continents this volume provides readers with an understanding of the ways in which interactions with horses provide global connectivity with localized identities and vice versa. It further discusses new frontiers in the research on and practice of equestrianism framed against global megatrends and local micro-trends.

Gender Diversity in European Sport Governance Agnes Elling, Jorid Hovden, Annelies Knoppers, 2018-08-06 Gender equality is one of the founding democratic principles of the EU. However, recent studies of the Federation of Olympic Sports in Europe have shown that women occupy only fourteen percent of decision making positions in sport organizations. This book presents a comprehensive and comparative study of how various regions and countries of Europe have addressed this lack of gender diversity, discussing which strategies have brought about change and to what extent these changes have been successful. With contributions from leading sport sociologists covering countries such as Germany, Hungary, Norway, Poland, Spain, Turkey, and the UK, it provides a foundation for future policymaking, methodological analyses, and theoretical developments that can result in sustainable gender equality in European sport governance. *Gender Diversity in European Sport Governance* is important reading for scholars and students in the fields of sociology of sport, sport management, sociology, gender studies, and studies of organization management and leadership. It is also a valuable resource for policy makers in the EU as well as national sport organizations and activists.

Inclusion and Exclusion in Competitive Sport Seema Patel, 2015-04-24 Society is obsessed with categorising and treating individuals and groups according to their physical and non-physical differences, such as sex, gender, disability, and race. This treatment can lead to the inclusion or exclusion of an individual from the tangible and intangible benefits of society. Where this practice becomes discriminatory, legal frameworks can protect human rights and ensure that people are treated with due respect for their similarities and differences. In a sporting context, the inclusion and exclusion of athletes based upon their differences is often a necessary part of the essence of competitive sporting activity, arranged around rules and categories that can have an unequal exclusionary impact on certain classes of individual. Dominant sporting cultures can also have exclusionary effects. This important and innovative book seeks to investigate the socio-legal and regulatory balance between inclusion and exclusion in competitive sport. It critically analyses a range of legal and non-legal cases concerning sport-specific inclusion and exclusion in the areas of sex, gender, disability, and race, including those cases involving Oscar Pistorius, Caster Semenya, and Luis Suarez, to identify the extent to which the law and sport adopt a justifiable and legitimate inclusive or exclusive approach to participation. The book explores national and international regulatory frameworks, identifying deficiencies and good practice, and concludes with recommendations for regulatory reform. *Inclusion and Exclusion in Competitive Sport* is important reading for anybody with an interest in the relationship between sport and wider society, sports development, sport management, sports law, or socio-legal studies.
