Sport Et Liberte De Circulation En Europe:

Practical Regulation of the Mobility of Sportsmen in the EU Post Bosman Stefaan Van den Bogaert, 2005-01-01

Sport is recreational social educational healthful and cultural It has always been all of these things Perhaps also it has always been political In recent years however it has become something else besides economic Nowadays a lot of money is invested in sport and sporting competitions often generate enormous amounts of revenue This has entailed serious repercussions especially for the relations between individual sportsmen sportswomen and the sporting clubs and federations that act as brokers for their careers Into this protected area for decades a closed shop now come the European institutions especially the European Court of Justice and the European Commission with the declared intention of ensuring respect for the exigencies of Community law while at the same time protecting the specificity and the integrity of sport This important book presents an in depth analysis of the viability under Community law of traditional sports regulations such as transfer rules and nationality clauses both sets of rules seriously compromised by the Bosman case of 1995 The author asks in particular whether certain rules elaborated by sporting associations can withstand the test of compatibility with the free movement provisions of the EC Treaty In the light of Bosman he also rigorously investigates whether valuable arguments exist for keeping certain sporting rules and practices entirely outside the scope of the EC Treaty and whether the private nature of sporting clubs constitutes a stumbling block for the application of the relevant free movement rules Practical Regulation of the Mobility of Sportsmen in the EU Post Bosman comes at a moment when clarification of where this complex and contentious matter currently lies is essential if we are to gauge where it is going The topic is of special and increasing interest as official declarations on sport were attached to the Treaties of both Amsterdam and Nice And if the draft Constitution for Europe actually enters into force sport will even become an official area of Union policy This trend confirms the value and significance of this ground breaking book for practitioners policymakers and regulators in the burgeoning field of sports law European Monographs 48 Sports Law in Switzerland Lucien W. Valloni, Thilo Pachmann, 2018-02-28 Derived from the renowned multi volume International Encyclopaedia of Laws this practical analysis of sports law in Switzerland deals with the regulation of sports activity by both public authorities and private sports organizations The growing internationalization of sports inevitably increases the weight of global regulation yet each country maintains its own distinct regime of sports law and its own national and local sports organizations Sports law at a national or organizational level thus gains a growing relevance in comparative law The book describes and discusses both state created rules and autonomous self regulation regarding the variety of economic social commercial cultural and political aspects of sports activities Self regulation manifests itself in the form of by laws and encompasses organizational provisions disciplinary rules and rules of play However the trend towards more professionalism in sports and the growing economic social and cultural relevance of sports have prompted an increasing reliance on legal rules adopted by public authorities This form of regulation appears in a

variety of legal areas including criminal law labour law commercial law tax law competition law and tort law and may vary following a particular type or sector of sport It is in this dual and overlapping context that such much publicized aspects as doping sponsoring and media and responsibility for injuries are legally measured This monograph fills a gap in the legal literature by giving academics practitioners sports organizations and policymakers access to sports law at this specific level Lawyers representing parties with interests in Switzerland will welcome this very useful guide and academics and researchers will appreciate its value in the study of comparative sports law *Sport et nationalités* Serge Pautot, 2014-03-01

Comment le sport est-il devenu le centre de gravité de migrations planétaires C est l'objet de cet ouvrage Au vu des nouvelles possibilités d'un appel accru aux sportifs étrangers maître Michel Pautot l'origine de l'arrêté Malaja a décidé de comptabiliser les joueurs étrangers dans le sport professionnel français et européen Cette étude réalisée depuis dix ans offre des résultats surprenants instructifs consacrant la mondialisation du sport *Principles and Practice in EU Sports Law* Stephen Weatherill, 2017-08-11

Principles and Practice in EU Sports Law provides an overview of EU sports law In particular it assesses sporting bodies' claims for legal autonomy from the ordinary law of states and international organizations Sporting bodies insist on using their expertise to create a set of globally applicable rules which should not be deviated from irrespective of the territory on which they are applied The application of the *lex sportiva* which refers to the conventions that define a sport's operation is analysed as well as how this is used in claims for sporting autonomy The *lex sportiva* may generate conflicts with a state or international institution such as the European Union and the motives behind sporting bodies' claims in favour of the *lex sportiva*'s autonomy may be motivated by concern to uphold its integrity or to preserve commercial gain Stephen Weatherill's text underlines the tense relationship between *lex sportiva* and national and regional jurisdictions which is exemplified with specific focus on the EU The development of EU sports law and its controversies are detailed reinforced by the example of relevant legal principles in the context of the practice of sports law The intellectual heart of the text endeavours to make a normative assessment of the strength of claims in favour of sporting autonomy and the variation between different jurisdictions and sports is evident Furthermore the enduring dilemma facing sports lawyers running throughout the text is whether sport should be regarded as special and in turn how far its special character should be granted legal recognition

The Regulation of Sport in the European Union Barbara Bogusz, Adam Jan Cygan, Erika M. Szyszczak, 2007-01-01

Globalization not only means fans watching distant contests and leagues exporting their products elsewhere it also means the ability of knowledgeable academics and policy-oriented fans to learn about how others confront similar challenges North Americans who realize on reflection that the way we do things is not necessarily natural or the only way will enjoy and profit from the insightful comparative essays in this book The so-called European Model of Sport is quite different than our own There are significant parallels between the European effort to distinguish sport and commerce and our own efforts in regard to big time collegiate sports The unusual for North American fans of typical sports leagues issues

with regard to auto racing are quite instructive A truly horizon expanding work Stephen F Ross Penn State Institute for Sports Law Policy and Research US The purpose of this book is to examine from an EU perspective the numerous developments which have taken place in the regulation of sporting activity in the last decade Uniquely in addressing these developments the book adopts an inter disciplinary approach involving law economics and sociology The chapters place the regulation of sport in the context of the EU regulatory structure which hitherto has emerged in a piece meal fashion and thus warrants a more holistic approach The chapters bring together several key themes which arise from the question of whether sport is special This addresses a growing argument that sporting activity displays unique properties which require a distinct form of regulation that existing competition or free movement rules cannot provide The book is divided into three parts which reflect the current policy legislative and judicial discourses that exists in the regulation of sport The Regulation of Sport in the European Union provides both an academic and practical review of EU law and policy as applied to sport and as such this comprehensive overview will be of great interest to EU law academics economists and political scientists It will also appeal to legal practitioners and to those with an interest in regulatory processes in the EU **European Sports Law**

Landmark Cases in EU Law, Volume 2 Paul Craig, Robert Schütze, 2025-07-10 From Van Gend en Loos and Costa v ENEL to Cassis de Dijon and Consten and Grundig Landmark Cases in EU Law explores the most important and well known EU law cases in two volumes These volumes show how the European Court of Justice has played a fundamental role in the construction of the European Union in the past 70 years Many EU landmark cases have been controversial yet no one can deny that they have been essential in defining the Union legal order as we find it today Volume 2 explores the substantive cases that have shaped the

Union's internal market its competition law as well as its internal and external policies Each of the twenty cases within this volume is placed in its historical and doctrinal context and each chapter also presents the history of its reception by the Court and academia Handbook on Sport and Migration Joseph Maguire, Katie Liston, Mark Falcous, 2024-09-06 This insightful Handbook explores how sport intersects the experiences of asylum seekers refugees workers and migrants Editors Joseph Maguire Katie Liston and Mark Falcous bring together esteemed experts who draw on globally diverse cases studies to capture the complexities surrounding sport and migration revealing how it is embedded in the wider power struggles that characterize global sport **Sporting Nationality in the Context of European Union Law** Jan Exner, 2019-01-29 This

book strikes a balance between international sporting governing bodies interests and values enshrined in rules regarding sporting nationality on one hand and athletes rights under EU law on the other It argues that some rules governing athletes eligibility in national teams in their current form notably certain waiting periods quotas for naturalised athletes or athletes having previously played for another country and rules prohibiting the change of sporting nationality constitute a disproportionate restriction on athletes rights under EU citizenship free movement of persons competition law or fundamental rights Accordingly the book subsequently presents concrete recommendations for international sporting governing bodies on how to reconcile their interests and values with the rights that athletes enjoy under EU law As such it offers an essential guide for these bodies and their representatives as well as for athletes academics and practitioners in the fields of law and sports *Leading Cases in Sports Law* Jack Anderson, 2013-04-08 This book accounts for over 25 of the most influential cases in international sports law as written by some of the leading authorities in the area Authors from Europe the United States Australia South Africa Canada and New Zealand trace the evolution of this emerging discipline of law through an analysis of individual cases as discussed under a number of key debates and themes in contemporary sports law including the public nature of legal disputes in sport player employment mobility litigation doping and the spirit of sport TV rights holding proceedings and enduring themes in sports law such as on field violence spectator safety animal welfare and gender equality Valuable for sports law academics arbitrators and practitioners sports administrators and governing bodies but also for students postgraduate and undergraduate and all those with an interest in international sports law

The Past and Future of EU Law Luis Miguel Poiars Pessoa Maduro, Loïc Azoulai, 2010-02-05 This book revisits in a new light some of the classic cases which constitute the foundations of the EU legal order and is timed to celebrate the 50th anniversary of the Rome Treaty establishing a European Economic Community Its broader purpose however is to discuss the future of the EU legal order by examining from a variety of different perspectives the most important judgments of the ECJ which established the foundations of the EU legal order The tone is neither necessarily celebratory nor critical but relies on the viewpoint of the distinguished line up of contributors drawn from among former and current members of the Court the view from within scholars from other disciplines or lawyers from other legal orders the view from outside and two different

generations of EU legal scholars the classics revisit the classics and a view from the future Each of these groups will provide a different perspective on the same set of selected judgments In each short essay questions such as what would have EU law been without this judgment of the Court what factors might have influenced it did the judgment create expectations which were not fully fulfilled and so on are posed and answered The result is a profound wide ranging and fresh examination of the founding cases of EU law

Le sport n'est-il devenu qu'un bien de production au service d'entreprises de spectacle sportif ou de tout autre type de producteurs ? Partant de la montée en puissance du sport au cours de la dernière décennie, l'ouvrage s'interroge sur les facteurs qui ont permis le passage de pratiques compétitives confidentielles au sport spectacle et au sport business véritable phénomène de société. Comment s'articulent le monde du sport, le monde des médias et celui de l'économie globale ? Quelle est la place du sport dans cet ensemble ? Comment expliquer l'explosion des droits de retransmission des compétitions sportives ou le niveau de salaires de certains sportifs ? Comment estimer les retombées de l'organisation d'un événement sportif majeur sur la ville ou la région organisatrices ? Croisant approche empirique et développements théoriques, l'ouvrage apporte un nouvel éclairage sur les nouveaux marchés du sport. Il intéressera les professeurs et étudiants des 2^e et 3^e cycles des filières de sciences et techniques des activités physiques et sportives STAPS ainsi que les fédérations sportives et les décideurs politiques.
