Transport Infrastructure Development in Europe Bernd Scholl,Ana Peric,Mathias Niedermaier,2020-01-13 The Orient East Med Corridor is a key north south transport corridor for Europe Over its length of more than 2500 km it connects the seaports of northern Germany with the Danube ports and Greek seaports Seven capitals of EU member states are directly interlinked by the Corridor At present however it has genuine shortcomings in several aspects The international working group Spatial and Transport Development in European Corridors Example Corridor 22 Hamburg Athens 2015 2018 trace the conditions for large scale corridor oriented spatial and transport development in Europe and in particular along the Orient East Med Corridor The contributions in the anthology also focus on the importance of transnational initiatives in Europe and on territorial effects of transport policies These topics are illustrated by analyses of current transport initiatives and urban

developments at the most important nodes along the Corridor so called Hot Spots During the work process the authors asked themselves if and how a strategy for the Corridor can take effect for an integrated spatial and transport development between Hamburg and Athens The common answer is clear A strategy for the Orient East Med Corridor allows the organization of a more balanced flow of goods throughout Europe in the long run In the southeast section enormous land reserves in the close vicinity of railway stations can be activated for urban development Strengthening the Corridors infrastructure thus has a huge potential to trigger spatial development and ultimately contribute to territorial and social cohesion throughout Europe Annuaire Europeen 1998 / European Yearbook 1998 Hans Christian Kroger,P. Tigrid,C. Brooks,C. Church,2000-12-01 The European Yearbook promotes the scientific study of nineteen European supranational organisations and the Organisation for Economic Co operation and Development OECD Each volume contains a detailed survey of the history structure and yearly activities of each organisation and an up to date chart providing a clear overview of the member states of each organisation In addition a number of articles on topics of general interest are included in each volume A general index by subject and name and a cumulative index of all the articles which have appeared in the Yearbook are included in every volume and provide direct access to the Yearbook s subject matter Each volume contains a comprehensive bibliography covering the year s relevant publications This is an indispensable work of reference for anyone dealing with the European institutions Speed Management European Conference of Ministers of Transport,2006-10-13 Speeding is the number one road safety problem in a large number of OECD ECMT countries It is responsible for around one third of the current unacceptably high levels of road fatalities Speeding has an impact not only on accidents but also on the
