Sport in Films Emma

Poulton,Martin Roderick,2019-05-30 Sport offers everything a good story should have heroes and villains triumph and disaster achievement and despair tension and drama Consequently sport makes for a compelling film narrative and films in turn are a vivid medium for sport Yet despite its regularity as a central theme in motion pictures constructions and representations of sport and athletes have been marginalised in terms of serious analysis within the longstanding academic study of films and documentaries In this collection it is the critical study of film and its connections to sport that are examined The collection is one of the first of its kind to examine the ways in which sport has been used in films as a metaphor for other areas of social life Among the themes and issues explored by the contributors are Morality tales in which good

triumphs over evil The representation and ideological framing of social identities including class gender race and nationality The representation of key issues pertinent to sport including globalization politics commodification consumerism and violence The meanings spoken by films and the various readings which audiences make of them This is a timely collection that draws together a diverse range of accessible insightful and ground breaking new essays This book was published as a special issue of *Sport in Society*

Rooting for the Home Team Daniel A. Nathan, 2013-05-01 Rooting for the Home Team examines how various American communities create and maintain a sense of collective identity through sports Looking at large cities such as Chicago Baltimore and Los Angeles as well as small rural towns suburbs and college towns the contributors consider the idea that rooting for local athletes and home teams often symbolizes a community's preferred understanding of itself and that doing so is an expression of connectedness public pride and pleasure and personal identity Some of the wide ranging essays point out that financial interests also play a significant role in encouraging fan bases and modern media have made every seasonal sport into yearlong obsessions Celebrities show up for big games politicians throw out first pitches and taxpayers pay plenty for new stadiums and arenas The essays in Rooting for the Home Team cover a range of professional and amateur athletics including teams in basketball football baseball and even the phenomenon of no glove softball Contributors are Amy Bass Susan Cahn Mark Dyreson Michael Ezra Elliott J Gorn Christopher Lamberti Allison Lauterbach Catherine M Lewis Shelley Lucas Daniel A Nathan Michael Oriard Carlo Rotella Jaime Schultz Mike Tanier David K Wiggins and David W Zang

Sport, Tourism and National Identities John Harris, 2016-03-23 The role of both sport and tourism in the re creation and re presentation of national identities is well established yet relatively little work has critically explored the inter relationship between sport tourism and the creation and maintenance of national identities Despite the advances of globalization the nation continues to be an important part of both sport and tourism discourse and offers fertile ground for the exploration of identities in postmodern society The chapters in this collection consider the significance of important sports events and how this is understood in relation to the collective identities of some countries Authors outline some of the ways in which the nation matters and consider how and why national identities are important in contemporary sport tourism This book was originally published as a special issue of the *Journal of Sport Tourism*

Part Three investigates how the most important social divisions within sport and in wider society are addressed in sport sociology, including race, gender, class, sexuality and disability. This volume of wide-ranging essays by sport historians and sociologists examines the complex relations of war, peace and sport through a series of case studies from South and North America, Europe, North Africa, Asia and New Zealand. From formal military training in the late nineteenth century to contemporary esports, the relationship between military and sporting cultures has endured across nations in times of conflict and peace. This collection contextualizes debates around the morality and desirability of continuing to play sport against the backdrop of war as others are dying for their nation. It also examines the legacy and memory of particular wars as expressed in a range of sporting practices in the immediate aftermath of conflicts such as the World Wars and wars of independence. At the same time, this book analyses the history of sport and peace by considering how sport can operate as a pacification in some contexts and a tool of reconciliation in others. Together and through an introductory framing essay, these essays offer scholars of sport, conflict studies and cultural history more broadly a multinational analysis of the war-peace-sport nexus that has operated throughout the world since the late nineteenth century. Chapter 11 of this book is available for free in PDF format as Open Access from the individual product page at www.taylorfrancis.com.
