Muhammad Ali in Africana Cultural Memory James L. Conyers, Jr., Christel N. Temple, 2022-01-11 One critical priority of the discipline of Africana studies is applied memory specifically how the record of the culture s survival and agency reveals usable and reproducible knowledge and behavior In terms of how Muhammad Ali as an historical actor has left an heroic legacy that bequeaths to us a sort of inheritance the critical task at hand is to systematically explore this historical actor s life feats philosophy grit worldview and even his folkloric antihero to decipher his Africana cultural memory value At the core of this edited collection is a commitment to enhance the cultural storytelling about Muhammad Ali and to critically itemize the lessons we garner from his life as allegory The ancestral life is one that is remembered and recalled The

contributors research uncovers Ali's local national and global encounters that are legacy worldviews. These perspectives give us direction for mining the critical depth of Ali's encounters which map his memory in terms of culturally sustaining confidence, self-esteem, reinvention, immortalization, and empathy. These are the fertile seeds of Africana cultural memory which bloom into powerful markers and monuments of an epic life of hyperheroic activity relevant to cultural memory, sports, history, politics, health, and aesthetics.

The Sport Star Barry Smart, 2005-08-24. Why are sport stars central to celebrity culture? What are the implications of their fame? Proceeding from a broadly based discussion of heroism, fame, and celebrity, Smart addresses a number of prominent modern sports and sport stars including Michael Jordan (basketball), David Beckham (football), Tiger Woods (golf), Anna Kournikova, and the Williams sisters (tennis). He analyses the development of modern sport in the UK and USA, demonstrating the key economic and cultural factors that have contributed to the popularity of sport stars, while examining issues such as race and gender, the impact of professionalization, growing media coverage, the role of agents, and the increasing presence of commercial corporations providing sponsorship and endorsement contracts. This book situates the sport star as the embodiment of the various tensions of age, class, race, gender, and culture. It argues that sporting figures possess an increasingly rare quality of authenticity that gives them the capacity to lift and inspire people. The book is a major contribution to the sociology and culture of sport and celebrity.

Muhammad Ali, the People's Champ Elliott J. Gorn, 1995. Recently recognized by *Sports Illustrated* as still the best known athlete in the world, Muhammad Ali has played a fascinating role in American culture with an influence that has reached far beyond sports. In addition to Ali the boxer, there are Ali the Black Muslim, Ali the cultural icon, Ali the anti-war protestor, Ali the telecelebrity, Ali the narcissist, and more. And it is these various incarnations of Ali as a window onto his time, our time, that build upon each other in this book to give us a vivid portrait of one of the greatest protagonists in the ring of public history. As the first book by scholars on the significance of his life and times, *Muhammad Ali, the People's Champ* is a fresh reassessment of the place of a giant sports idol and the role he has played in American history. Ali both shaped and reflected the times in which he lived. He touched the lives of people in a way unprecedented by almost any sports figure before or since. The contributors conclude that we can have no full understanding of our era without him. A volume in the series *Sport and Society* edited by Benjamin G. Rader and Randy Roberts.
