to compete and how they continue to fight for equity today From African Americans and women to LGBTQ and religious minorities Catsam shows how these athletes have taken a stand to address the underlying injustices in sports and society despite being told it s not their place to do so While it s impossible for a single book to tell the entire history of exclusion in the sporting world Don t Stick to Sports looks at key moments from the World War I era to the present to shatter the myth of sports as a meritocracy of sports as equalizer highlighting the reality as something far more complicated of sports as a malleable world where exclusion and inclusion are rarely straight forward [Frank Leslie's Illustrated Newspaper](#) John Albert Sleicher,1902 **The Complete History of Cross-Country Running** Andrew Boyd Hutchinson,2018-01-16 In The Complete History of Cross Country Running author Andrew Boyd Hutchinson captures the full history of cross country running from the early 1800s to the present day on both a national and international scale It includes chronicles of legendary teams inspirational tales of achievement controversies and interviews with record breaking runners past and present From Walter George and Alfred Shrubbs to Steve Prefontaine Bill Rogers and Galen Rupp and everyone in between Hutchinson uncovers all angles via training logs discussions with coaches and the review of newspaper archives for race results and forgotten storylines He offers commentary from Olympians such as David Torrence and Shannon Rowbury amongst others Along the way the book addresses the following topics How cross country began in England How the sport found its way to American colleges and universities The birth of the International Cross Country Championships All the close events including the 2012 race between Molly Huddle and Sara Hall at the US National Cross Country Championship And so much more
