Van Der Velde, 2011-02-10 Even though dramatic advances in neuroscience and brain imaging technologies have provided indisputable evidence of the fundamental role of the brain in mental events the exact nature of that role leaves much to be clarified On the one hand research now strongly indicates that the cognitive content what we know of any mental experience or activity is the result of specific brain functions On the other hand the sense of knowing of having experienced previously continues to be an unresolved mystery As yet no primary brain function suggests that this sense has a cerebral origin In this ambitious and deeply thoughtful work psychiatrist Christiaan D van der Velde argues that our sense of knowing may be an epiphenomenon of cerebrally produced internal images This sense is a reflection of the binary logical structure of cognition by means of which the brain orders all experience in paired opposites such as night and day good and bad sweet and sour etc Just as these dialectical notions are inextricably linked in our mental structure so too says van der Velde are the dual processes that make up cognition When the brain actuates the cognitive content of any particular experience that process automatically calls up the sense of understanding that content as known Using this concept of cognition as a basis van der Velde goes on to show its implications for such complex cerebral functions as memory language dreaming body images the formation of personality and the encounter of the self with others He also discusses the challenges of psychopathology and psychotherapy This cogent incisive analysis by a leading psychotherapist and researcher in cognition provides much to ponder and many insights into the nature of the brain Christiaan D van der Velde M D Farmington CT is Clinical Professor of Psychiatry at the University of Connecticut Health Center who has published widely in numerous professional journals including *Nature* *American Journal of Psychiatry* *Journal of Clinical Psychiatry* among others

Hazards of Children's Products, 1979 **A Spot of Bother** Mark Haddon, 2009-09-17 George Hall is an unobtrusive man A little distant perhaps a little cautious not quite at ease with the emotional demands of fatherhood or of manly bonhomie The secret of contentment George felt lay in ignoring many things completely Some things in life can't be ignored however his tempestuous daughter Katie's deeply inappropriate boyfriend Ray for instance or the sudden appearance of a red circular rash on his hip At 57 George is settling down to a comfortable retirement building a shed in his garden and enjoying the freedom to be alone when he wants But then he runs into a spot of bother That red circular rash on his hip George convinces himself it's skin cancer And the deeply inappropriate Ray Katie announces he will become her second husband The planning for these frowned upon nuptials proves a great inconvenience to George's wife Jean who is carrying on a late life affair with her husband's ex colleague The Halls do not approve of Ray for vague reasons summed up by their son Jamie's observation

that Ray has strangled s hands Jamie himself has his own problems his tidy and pleasant life comes apart when he fails to invite his lover Tony to Katie s wedding And Katie a woman whose ferocious temper once led to the maiming of a carjacker can t decide if she loves Ray or loves the wonderful way he has with her son Jacob Unnoticed in the uproar George quietly begins to go mad The way these damaged people fall apart and come together as a family is the true subject of Haddon s hilarious and disturbing portrait of a dignified man trying to go insane politely A Spot of Bother is Mark Haddon s unforgettable follow up to the internationally beloved bestseller The Curious Incident of the Dog in the Night time Once again Haddon proves a master of a story at once hilarious poignant dark and profoundly human Here the madness literally of family life proves rich comic fodder for Haddon s crackling prose and bittersweet insights into misdirected love
