Schmid, 2002-05-07 This book is a study of the L1 attrition of German among German Jews who emigrated to anglophone countries under the Nazi regime It places the study of language attrition within the historical and sociocultural framework of Weimar and Nazi Germany applying issues of identity and identification to first language loss and maintenance Morphosyntactic features of German are looked at in free spoken discourse in an analysis of both interferences or errors and their overall correct use The picture of L1 proficiency which emerges from these investigations is then related to a taxonomy of intensity of persecution clearly demonstrating this to be the decisive factor in language attrition while showing other factors such as age at emigration and intermediate use to be inconclusive In order to give a full and tangible picture of language attrition and maintenance the book comes with an Audio CD featuring excerpts from more than twenty of the interviews analyzed
