at the history and ideology behind the construction of kokugo national language Prior to the Meiji Period 1868 1912 the idea of a single unified Japanese language did not exist Only as Japan was establishing itself as a modern nation state and an empire with expanding colonies did there arise the need for a national language to construct and sustain its national identity Re examining debates and controversies over genbun itchi unification of written and spoken languages and other language reform movements Lee discusses the contributions of Ueda Kazutoshi 1867 1937 and Hoshina Koichi 1872 1955 in the creation of kokugo and moves us one step closer to understanding how the ideology of kokugo cast a spell over linguistic identity in modern Japan She examines the notion of the unshakable homogeneity of the Japanese language a belief born of the political climate of early twentieth century Japan and its colonization of other East Asian countries urging us to pay attention to the linguistic consciousness that underlies scientific scholarship and language policies Her critical discussion of the construction of kokugo uncovers a strain of cultural nationalism that has been long nurtured in Japan s education system and academic traditions The ideology of kokugo argues Lee must be recognized both as an academic apparatus and a political concept The Ideology of Kokugo was the first work to explore Japan s linguistic consciousness at the dawn of its modernization It will therefore be of interest to not only linguists but also historians anthropologists political scientists and scholars in the fields of education and cultural studies
