Springs of Chinese Wisdom ,1997-01-01 *Springs of Chinese Wisdom* Bloomsbury Publishing Plc,Fitzhenry & Whiteside, Limited,1971-06-30 **Springs of Chinese Wisdom** ,1971 Springs of Chinese wisdom ,1971 **Springs of Chinese Wisdom** Hippocrene Books, Incorporated,1974-08-01 The Publishers' Trade List Annual ,1974 **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1973 **The Humanities in Contemporary Chinese Contexts** Evelyn T. Y. Chan,Michael O'Sullivan,2016-10-22 This book brings together the perspectives of eminent and emerging scholars on contemporary issues relevant to the practice pedagogy and institutionalization of the humanities in the three Chinese contexts of Hong Kong Taiwan and mainland China It addresses the need to investigate how humanities discussions often exclusively drawn from and grounded in western contexts are today being played out in these three places The humanities in contemporary Chinese contexts may have different social and pedagogical roles and a consideration of them will enable people to moderate and perhaps even refute claims made in the recent re readings of the humanities As Asian universities rise in the global rankings and as east west university collaborations and partnerships become more common it is important that the nature practice and institutionalization of the humanities in Hong Kong Taiwan and mainland China are explored and described for English readers Exploring new perspectives arising from an examination of the humanities in these places this volume aims neither to establish a position of polarity which would pit western sites against Chinese ones nor to argue for universal sameness Rather the goal is to find nuanced correspondences and differences between these various backgrounds so that there is a greater understanding of the specificities of Chinese contexts This will help shed light not only on the contexts in question but also potentially on how to rearticulate the importance of the humanities in general creating an intercultural dialogue focused on the humanities As the global university strives to move the different traditions of learning closer together through international rankings rubrics and shared research agendas it is important that we explore these locations of potential cultural exchange **Moral Issues in Six Religions** W. Owen Cole,1991 Buddhism Christianity Hinduism Islam Judaism Sikhism Arranged marriages The Core Values of Chinese Civilization Lai Chen,2016-12-20 Drawing on the core values of western civilization the author refines the counterparts in Chinese civilization summarized as four core principles duty before freedom obedience before rights community before individual and harmony before conflict Focusing on guoxue or Sinology as the basis of his approach the author provides detailed explanations of traditional Chinese values Recent scholars have addressed the concept of guoxue since the modern age sorting through it and piecing it together which has produced an extremely abundant range of information However given that the concepts and theories involved have been left largely unanalyzed this book develops a theoretical treatment of them in several important respects First it analyzes the mindset of guoxue examining the dominant ideas and values of the era from which the term guoxue arose focusing on its connection to early changes and trends in society and culture and

distinguishing three key phases of development Past scholars mainly had in mind the range of objects studied in guoxue when defining it and what this book underscores is the meaning of guoxue as a modern body of research Secondly it assesses several phases in the modern evolution of the body of guoxue research from the beginning to the end of the 20th century i e ending with the later phase of the National Heritage movement Third and lastly the book explores the various main modes of modern guoxue which correspond step by step with the evolutionary phases of guoxue research

The Chinese Impact upon English Renaissance Literature Mingjun Lu, 2016-03-09 The Chinese Impact upon English Renaissance Literature examines how English writers responded to the cultural shock caused by the first substantial encounter between China and Western Europe Author Mingjun Lu explores how Donne and Milton came to be aware of England's participation in the race for the Far East launched by Spain and Portugal and how this new global awareness shaped their conceptions of cultural pluralism Drawing on globalization theory a framework that proves useful to help us rethink the literary world of Renaissance England in terms of global maritime networks Lu proposes the concept of liberal cosmopolitanism to study early modern English engagement with the other The advanced culture of the Chinese Lu argues inculcated in Donne and Milton a respect for difference and a cosmopolitan curiosity that ultimately led both authors to reflect in profound and previously unexamined ways upon their Eurocentric and monotheistic assumptions The liberal cosmopolitan model not only opens Renaissance literary texts to globalization theory but also initiates a new way of thinking about the early modern encounter with the other beyond the conventional colonial postcolonial nationalist and Orientalist frameworks By pushing East West contact back to the period in 1570s 1670s Lu's work uncovers some hitherto unrecognized Chinese elements in Western culture and their shaping influence upon English literary imagination

Art of the Yellow Springs Wu Hung, 2015-02-15 We might think the Egyptians were the masters of building tombs but no other civilization has devoted more time and resources to underground burial structures than the Chinese For at least five thousand years from

the fourth millennium B C E to the early twentieth century the Chinese have been building some of the world s most elaborate tombs and furnishing them with exquisite objects It is these objects and the concept of the tomb as a treasure trove that The Art of the Yellow Springs seeks to critique drawing on recent scholarship to examine memorial sites the way they were meant to be experienced not as a mere store of individual works but as a work of art itself Wu Hung bolsters some of the new trends in Chinese art history that have been challenging the conventional ways of studying funerary art Examining the interpretative methods themselves that guide the study of memorials he argues that in order to understand Chinese tombs one must not necessarily forget the individual works present in them as the beautiful color plates here will prove but consider them along with a host of other art historical concepts These include notions of visibility viewership space analysis function and context The result is a ground breaking new assessment that demonstrates the amazing richness of one of the longest running traditions in the whole of art history **Springs** ,2005 **Cross-Cultural Reflections on Chinese**
