Sprung Im Spiegel:

Markus und der Zeitsprungspiegel Heide-Brigitte Binner, 2016-10-05 Markus findet einen gebrochenen Taschenspiegel. Ein Spruch in seinem Deckel weist darauf hin, dass es sich hierbei tatsächlich um eine Zeitmaschine handelt. Mit Hilfe dieses Spiegels gelingt es Markus und auch seinen Freunden und auch an die Berliner Mauer, aber auch in die Zeit von Martin Luther zu springen und so Zeuge der Reformation zu werden. *Nato's Eastern Dilemmas* David G. Haglund, 2019-04-03 The

contributors to this book set out to show that NATO's post Cold War troubles are largely self-generated and almost exclusively eastern. They focus in particular on the issue of what to do with the former Yugoslavia. **Remediating**

Transcultural Memory Dagmar Brunow, 2015-09-25 The impact of digital global media, geopolitical changes and migration demands new theorizations within memory studies. Despite the growing field of media memory studies, the impact from film and media studies has been scarce within memory studies. This unique study offers new theorizations of three crucial concepts for media memory studies: remediation, transculturality and the archive. This book takes a closer look at the media specificity of archival footage and how it is adapted, translated and appropriated. In its original approach, this work reflects upon the role of documentary film images for the construction of memory. By merging film and media studies with memory studies, the work offers multiple theoretical and methodological approaches for everyone interested in the heritage of audiovisual media. Film and media scholars, memory scholars, historians, art historians, social scientists, librarians or archivists, curators and festival programmers alike. **Spiegelseelen. und Deeke sind beide in Weimar aufgewachsen. Die zwei sind im selben Jahrgang und mögen die gleiche Musik. Schon unzählige Male haben sich ihre Wege in der kleinen Stadt gekreuzt, dennoch kennen sich die Mädchen nicht. Doch das ändert sich schlagartig, als die Beiden mehr hinter dem entdecken, was wir als Wirklichkeit verstehen. **Genius loci** Peter Roos, 1986

Die DDR-Literatur und die Wissenschaften Angela Gencarelli, 2022-06-06 Das Verhältnis zwischen Literatur und Wissenschaft wird seit Jahrzehnten rege beforscht, allerdings wurde die DDR-Literatur dabei fast völlig außer Acht gelassen. So blieb unentdeckt, dass die Produktivkraft Wissenschaft zu einem ihrer wichtigsten Gegenstände avancierte. Das Verhältnis der DDR-Autor:innen zur gesellschaftlich zentralen, ja revolutionären Produktivkraft, wie es offiziell hieß, stand von Beginn an unter ambivalenten Vorzeichen. Einerseits galt die Schlüsselrolle von Wissenschaft und Technik als verbindlich und kulturpolitische Direktiven verfolgten das Ziel, die Literaturproduzent:innen enger an die Wissenschaften zu binden. Andererseits entdeckten die Schriftsteller:innen die Wissenschaften durchaus auch aus eigenem Interesse heraus und erfüllten die offiziellen Schreibaufträge auf ihre eigene, mitunter eigenwillige Weise. In diesem Spannungsfeld bewegen sich die einzelnen Fallstudien, die den literarischen Aneignungsweisen der Wissenschaften bei Schriftsteller:innen wie Sarah Kirsch, Franz Fühmann, Johannes R. Becher, Dieter Noll, Brigitte Reimann, Maxie Wander, Christa Wolf, Hildegard Maria Rauchfuß, Christoph Hein, Fritz Rudolf Fries, Helga Königsdorf und Heiner Müller gewidmet sind. , 1894 Seeking News, Making China John Alekna, 2024-03-19 Contemporary developments in communications
technologies have overturned key aspects of the global political system and transformed the media landscape Yet
interlocking technological informational and political revolutions have occurred many times in the past In China radio first
arrived in the winter of 1922/23 bursting into a world where communication was slow disjointed or non-existent Less than
ten percent of the population ever read newspapers Just fifty years later at the beginning of the Cultural Revolution news
broadcasts reached hundreds of millions of people instantaneously every day How did Chinese citizens experience the rapid
changes in information practices and political organization that occurred in this period What was it like to live through a
news revolution John Alekna traces the history of news in twentieth century China to demonstrate how large structural
changes in technology and politics were heard and felt Scrutinizing the flow of news can reveal much about society and
politics illustrating who has power and why and uncovering the connections between different regions peoples and social
classes Taking an innovative holistic view of information practices Alekna weaves together both rural and urban history to
tell the story of the rise of mass society through the lens of communication techniques and technology showing how the news
revolution fundamentally reordered the political geography of China
