 important books on social sciences of the last fifty years by the Social Sciences Federation of Canada Akenson argues that  
 despite the popular conception of the Irish as a city people those who settled in Ontario were primarily rural and small town  
 dwellers Though it is often claimed that the experience of the Irish in their homeland precluded their successful settlement  
 on the frontier in North America Akenson s research proves that the Irish migrants to Ontario not only chose to live chiefly in  
 the hinterlands but that they did so with marked success Akenson also suggests that by using Ontario as an historical  
 laboratory it is possible to make valid assessments of the real differences between Irish Protestants and Irish Catholics  
 characteristics which he contends are much more precisely measurable in the neutral environment of central Canada than in  
 the turbulent Irish homeland While Akenson is careful not to over generalize his findings he contends that the case of Ontario  
 seriously calls into question conventional beliefs about the cultural limitations of the Irish Catholics not only in Canada but  
 throughout North America     Antiquarian Bookman ,1957     **The Light of Physics - Extended First Edition** Rajat
