The Architecture of the Playing Field Richard L. Cleary,2025 The author argues that sports and architecture share many concerns as both center the interplay of settings and bodies in motion He sets out to study their conceptual and physical intersection and to show what the aesthetics and spatial relationships of playing fields can tell us about sports and the cultures that create them Cleary s scholarly background and personal experience as a fencer and soccer referee led him to the questions that drive this project In this relatively brief meditation on physical space in sports he argues convincingly that related inquiries in one domain can inspire new readings in others while respecting the unique qualities of each The Sports Center fan the architecture enthusiast and the balletomane have more to discuss than they may think The subjects of Cleary s intriguing new readings range widely from the translucent courts of the 2019 Women s World Squash Championships to the introduction of the three point line in basketball to the similarities between Dutch architects and Dutch soccer s emphasis on flexibility and multivalence

The Secret History of Balls Josh Chetwynd,2011-05-03 You may fancy yourself a sports fan but chances are you don t know A fish eyeball was used as the

center of some nineteenth century baseballs The race to make better billiard balls led to the invention of plastics The Nerf ball was originally created to be part of a board game featuring cavemen Balls are the unsung heroes of sports They are smacked flung dribbled crushed thrown and kicked They re usually only the subject of scrutiny when something goes wrong a tear the application of an illegal foreign substance or a dent from overuse Nevertheless if you re watching nearly any major sporting event from around the world you re likely following the ball wondering where it will go next The Secret History of Balls mines the stories and lore of sports and recreation to offer insight into 60 balls whether they re hollow solid full of air or stuffed with twine or made of leather metal rubber plastic or polyurethane that give us joy on playing fields and in every arena from backyards to stadiums around the globe
