Squatters Rites:

Squatter's Republic Tamara Venit Shelton, 2013-11-22 Who should have the right to own land and how much of it A Squatter's Republic follows the rise and fall of the land question in the Gilded Age and the rise and fall of a particularly nineteenth century vision of landed independence More specifically the author considers the land question through the anti monopolist reform movements it inspired in late nineteenth century California The Golden State was a squatter's republic a society of white men who claimed no more land than they could use and who promised to uphold agrarian republican ideals and resist monopoly the nemesis of democracy Their opposition to land monopoly became entwined with public discourse on Mexican land rights industrial labor relations immigration from China and the rise of railroad and other corporate monopolies

Land Rights, Ethno-nationality and Sovereignty in History Stanley Engerman, Jacob Metzger, 2004-08-02 The complex relationships between ethno nationality rights to land and territorial sovereignty have long fed disputes over territorial control and landed rights between different nations ethnicities and religions These disputes raise a number of interesting issues related to the nature of land regimes and to their economic and political implications The studies drawn together in this key volume explore these and related issues for a broad variety of countries and times They illuminate the diverse causes of ethno national land disputes and the different forms of adjustment and accommodation to the power differences between the contesting groups This is done within a framework outlined by the editors in their analytical overview which offers contours for comparative examinations of such disputes past and present Providing conceptual and factual analyses of comparative nature and wealth of empirical material both historical and contemporary this book will appeal to economic historians economists political scientists sociologists anthropologists and all scholars interested in issues concerning ethno nationality and land rights in historical perspective
