Lamar Hunt Michael MacCambridge, 2012-10-02 I can't separate what part of pro football is business and what part is personal with me he said I just know that it is very important that I succeed He had loved games as a young boy had played them as a young man and now as a naive but determined 27 year old in the summer of 1959 Lamar Hunt announced that he was going to launch a new football league What he couldn't possibly have known on that day was that the forces of the entrenched National Football League would soon be arrayed against him The league would place its own team in his hometown of Dallas in direct competition with his team and would attempt to undermine the new league trying on repeated occasions before that first season to prevent the new American Football League from ever starting And what the NFL couldn't have known but would soon find out was that Hunt the mild mannered bespectacled son of legendary oilman H L Hunt had an indomitable will and patience beyond his years Resolute and innovative he successfully launched the AFL and seven years later helped broker a merger deal which created the need for a championship game between the two leagues Then he came up with the name of the game the Super Bowl Never before and not since has anyone with so many resources spent so much time watching participating in and being captivated by the absorbing ritual of sports and the suspended state of play His accomplishments would put him in the company of the other giants of American sports Charles C Cash and Carry Pyle Abe Saperstein George Halas Branch Rickey Red Auerbach Pete Rozelle Each was present at a revolution But Hunt significantly was present at a number of revolutions And he was the catalyst for each one Before his death in 2006 Hunt revolutionized three different sports pro football tennis and soccer winding up in the Hall of Fame of each Written by award winning author Michael MacCambridge Lamar Hunt A Life In Sports is the definitive and official biography of one of the 20th century's most important and beloved sporting figures the soft spoken strong willed man whose audacious challenge to the NFL transformed

the landscape of American sports but only served as an opening act to his epic sporting journey Drawing on 50 years of Hunt's personal papers and more than 200 interviews author Michael MacCambridge provides an intimate original portrait of the man forever captivated by these serious pursuits we call games

Tombel Sub-Division and Council S. N. Ejedepang-Koge,2016-02-27 The foundation of Tombel Town has influenced the rapid evolution of Bakossiland in terms of the

growth distribution and diversity of the population and the diversity of economic activities Though peripheral in location Tombel Town and its environs Tombel Sub Division have become the centre of attraction the pull centre of internal and external migration and the economic pull centre within Kupe Mwanenguba This migratory trend continues unabated except for close to ten years after the violent explosion or Crisis of 31st December 1966 The rapid growth in the diversity of population has promoted the cosmopolitan nature of the Town and the Tombel Sub Division and given rise to the creation many small economic self employing activities as well as diverse needs that have to be satisfied This has enabled Tombel to become the economic engine of Bakossiland and indeed of the whole Kupe Mwanenguba Division Agriculture is the heart of the economic life Tombel Sub Division and Kupe Mwanenguba Both cash and food crops do very well But The lack of good roads difficulty to acquire inputs such as relevant chemicals for protecting growing plants and developing fruits from disease and the lack of adapted tools impede increased productivity and the preservability of harvested agricultural crops Secondly the lack of easy and affordable means of transport impedes both production and the transport of agricultural products from farm to market Transportation is prohibitive because the roads are in very bad condition through most of the year in this very rainy area Delicate crops are difficult to preserve and undergo fast degradation and much loss while waiting to be transported and during transportation from farms to the markets As a result peasants do not receive the full value and price of their produce Lack of roads and transportation breed poverty

Turnaround William Bratton, Peter Knobler, 2009-03-04

When Bill Bratton was sworn in as New York City's police commissioner in 1994 he made what many considered a bold promise The NYPD would fight crime in every borough and win It seemed foolhardy even everybody knows you can't win the war on crime But Bratton delivered In an extraordinary twenty seven months serious crime in New York City went down by 33 percent the murder rate was cut in half and Bill Bratton was heralded as the most charismatic and respected law enforcement official in America In this outspoken account of his news making career Bratton reveals how his cutting edge policing strategies brought about the historic reduction in crime Bratton's success made national news and landed him on the cover of Time It also landed him in political hot water Bratton earned such positive press that before he'd completed his first week on the job the administration of New York's media hungry mayor Rudolph Giuliani threatened to fire him Bratton gives a vivid behind the scenes look at the sizzle and substance and he pulls no punches describing the personalities who really run the city Bratton grew up in a working class Boston neighborhood always dreaming of being a cop As a young officer under Robert di Grazia Boston's progressive police commissioner he got a ground level view of real police reform and also saw what happens when an outspoken dynamic reform minded police commissioner starts to outshine an ambitious mayor He was soon in the forefront of the community policing movement and a rising star in the profession Bratton had turned around four major police departments when he accepted the number one police job in America When Bratton arrived at the NYPD New York's Finest were almost hiding they had given up on preventing crime and were trying only to respond to

it Narcotics Vice Auto Theft and the Gun Squads all worked banker s hours while the competition the bad guys worked around the clock Bratton changed that He brought talent to the top and instilled pride in the force he listened to the people in the neighborhoods and to the cops on the street Bratton and his dream team created Compstat a combination of computer statistics analysis and an unwavering demand for accountability Cops were called on the carpet and crime began to drop With Bratton on the job New York City was turned around Today New York s plummeting crime rate and improved quality of life remain a national success story Bratton is directly responsible and his strategies are being studied and implemented by police forces across the country and around the world In Turnaround Bratton shows how the war on crime can be won once and for all
