Supermarkets Transformed Understanding Organizational And Technological Innovations:

Supermarkets Transformed John P. Walsh, 1993 Over the last forty years the small grocery stores of the 1950s have given way to the huge technologically advanced supermarkets and superstores of the 1990s John P Walsh analyzes the changes in the supermarket industry the advent and implementation of various technologies and the effects of those innovations on store management workers and customers He relates his observations to general theories about work and labor of the past forty years Drawing from trade journals and interviews with management and workers Walsh investigates issues such as the de skilling of meatcutters the introduction of computers for price scanning and ordering and the decentralization of decision making that came with the advent of specialty departments in the superstores Walsh takes a positive view of technological innovation He examines worker reactions to new technologies in the supermarket arguing that workers were not deskilled by innovation but re skilled New technologies gave them more responsibility and added a new level of complexity to their jobs Rather than alienating workers Walsh explains this new responsibility combined with the greater worker autonomy that specialization created led employees to have a greater sense of pride in their work Using the SuperStores chain where workers get both responsibility and autonomy as evidence Walsh shows decentralization to be a stable organizational model Walsh explores some of the unresolved conflicts in the supermarket industry such as price scanning computers He also addresses the low status of women and service workers most of whom are women in the supermarket even as service becomes a priority in the industry Using both organization theory and labor process theory Walsh develops what he calls the politicized context model of innovation He presents a new explanation for the development and implementation of technology In this innovative contribution to the study of industrial and organizational sociology Walsh argues that decentralization creates more interesting jobs while enhancing the status and skills of workers

Tangled Routes Deborah Barndt, 2008 Now in a thoroughly revised and updated edition *Tangled Routes* offers a vivid interdisciplinary examination of the global food system through the journey of a corporate tomato Through case studies in the three NAFTA countries Mexico the United States and Canada Deborah Barndt examines the dynamic relationships between production and consumption work and technology biodiversity and cultural diversity and health and environment The compelling stories of women workers along the tomato trail humanize her analysis of globalization taking into account the intersections of gender race class family status and north south relations

21st Century Sociology: A Reference Handbook Clifton D. Bryant, Dennis L. Peck, 2007

Publisher Description **The Overworked Consumer** Christopher K. Andrews, 2018-12-11 The *Overworked Consumer* examines how the growing use of self service technology in the U S economy has contributed to Americans feelings of busyness and overwork by asking them to perform a variety of tasks in work like settings for free Focusing on the adoption of self checkout lanes in the retail food industry the book describes how self service technology is changing the meaning of service in an economy where the boundaries between work and leisure are becoming increasingly blurred Are big businesses

simply being cheap and lazy preferring to automate and outsource work to unpaid consumers instead of raising wages or is self service and its do it yourself ethos a response to consumers demands for faster easier ways of buying goods and services And what exactly are shoppers getting when they go through the self checkout lane Is it really faster than the cashier lane or just another illusory speed up meant to distract them from the realization that they are performing unpaid work unwitting participants in a new retail experiment whose roots can be traced back to the very invention of the modern supermarket And what about the effect on jobs is this the end of the checkout line for cashiers and similar forms of work or are such anxieties over automation overstated To answer these questions the author takes readers inside SuperFood a regional supermarket chain drawing upon extensive interviews with managers staff and customers as well as an array of examples retail studies and statistics to separate fact from fiction and figure out what is actually happening in stores Concluding with a cautionary tale of two grocers the author suggests the future of retailing is still undetermined meaning shoppers still have time to decide whether or not they really want to do it yourself Caveat emptor

Fast Food, Fast Track Jennifer Talwar, 2018-03-05 Praise for Fast Food Fast Track A fine ethnography with both theoretical and advocative significance representing the best qualitative sociology Choice Explores the intimate realities and behind the scenes exchanges of a multiethnic work force serving the typical American meal Through a lively narrative and insightful stories Jennifer Parker Talwar gives a full sense of what it s like to live in both a global economy and a local culture Sharon Zukin author of The Cultures of Cities No longer just pocket money for American teens wages paid by multinational fast food chains are going to a new generation of order takers burger flippers and basket fryers newly arrived immigrants hailing from China the Caribbean Latin America and India a colorful sea of faces has taken its place behind one of the most ubiquitous American business institutions the fast food counter They have become a vital link between the growing service sector in our cities ethnic enclaves and the multi billion dollar global fast food industry For four years sociologist Jennifer Parker Talwar went behind the counter herself and listened to immigrant fast food workers in New York City s ethnic communities They talked about balancing their low paying jobs and monotonous daily reality with keeping the faith that these very jobs could be the first step on the path to the American Dream In this original and compelling work of ethnography Talwar shows that contrary to those arguing that the fast food industry only represents an increasing homogenization of the American workforce fast food chains in immigrant communities must and do adapt to their surroundings

California Cuisine and Just Food Sally K. Fairfax, 2012 An account of the shift in focus to access and fairness among San Francisco Bay Area alternative food activists and advocates Can a celebrity chef find common ground with an urban community organizer Can a maker of organic cheese and a farm worker share an agenda for improving America s food In the San Francisco Bay area unexpected alliances signal the widening concerns of diverse alternative food proponents What began as niche preoccupations with parks the environment food aesthetics and taste has become a broader and more integrated effort to achieve food democracy agricultural sustainability access for all to good food fairness for workers and producers and public health This book maps that evolution in northern California The authors show that

progress toward food democracy in the Bay area has been significant innovators have built on familiar yet quite radical understandings of regional cuisine to generate new broadly shared expectations about food quality and activists have targeted the problems that the conventional food system creates But they caution despite the Bay Area's favorable climate progressive politics and food culture many challenges remain **The Challenge of Affluence** Avner Offer,2006-03-09 Since the 1940s Americans and Britons have experienced rising material abundance but also a range of social and personal disorders including family breakdown obesity and addiction Drawing on the latest cognitive research Avner Offer presents a detailed and reasoned critique of the modern consumer society **Work Under Capitalism** Chris Tilly,2019-03-15 Work Under Capitalism synthesizes recent institutionalist and Marxist ideas about the organization of production situating production within a social context Starting with the transaction rather than the individual it builds upon a coherent theory and applies it to a wide range of experience from household labour to transformations of health c **West African Migrations** M. Okome,2012-01-30 Drawing on the interdisciplinary research projects of scholars from various social science and humanities disciplines this book explores how African migration to Western countries after the neo liberal economic reforms of the 1980s transformed West African states and their new transnational populations in Western countries

Worker Activism After Successful Union Organizing Linda Markowitz,2015-05-20 Shows how different levels of worker participation during a union organizing campaign influence the perceptions and actions of those same workers after the campaign ends and thereby the long term effectiveness and success of the organizing effort Drawing on historical and current examples the author analyzes the political and economic contexts within which today's unions are organizing including a detailed examination of the impact of the Wagner Act **Combat-Ready Kitchen** Anastacia Marx de Salcedo,2015-08-04 Americans eat more processed foods than anyone else in the world We also spend more on military research These two seemingly unrelated facts are inextricably linked If you ever wondered how ready to eat foods infiltrated your kitchen you'll love this entertaining romp through the secret military history of practically everything you buy at the supermarket In a nondescript Boston suburb in a handful of low buildings buffered by trees and a lake a group of men and women spend their days researching testing tasting and producing the foods that form the bedrock of the American diet If you stumbled into the facility you might think the technicians dressed in lab coats and the shiny kitchen equipment belonged to one of the giant food conglomerates responsible for your favorite brand of frozen pizza or microwavable breakfast burritos So you'd be surprised to learn that you've just entered the U S Army Natick Soldier Systems Center ground zero for the processed food industry Ever since Napoleon armies have sought better ways to preserve store and transport food for battle As part of this quest although most people don't realize it the U S military spearheaded the invention of energy bars restructured meat extended life bread instant coffee and much more But there's been an insidious mission creep because the military enlisted industry huge corporations such as ADM ConAgra General Mills Hershey Hormel Mars Nabisco Reynolds

Smithfield Swift Tyson and Unilever to help develop and manufacture food for soldiers on the front line over the years combat rations or the key technologies used in engineering them have ended up dominating grocery store shelves and refrigerator cases TV dinners the cheese powder in snack foods cling wrap The list is almost endless Now food writer Anastacia Marx de Salcedo scrutinizes the world of processed food and its long relationship with the military unveiling the twists turns successes failures and products that have found their way from the armed forces and contractors laboratories into our kitchens In developing these rations the army was looking for some of the very same qualities as we do in our hectic fast paced twenty first century lives portability ease of preparation extended shelf life at room temperature affordability and appeal to even the least adventurous eaters In other words the military has us chowing down like special ops What is the effect of such a diet eaten as it is by soldiers and most consumers day in and day out year after year We don't really know We're the guinea pigs in a giant public health experiment one in which science and technology at the beck and call of the military have taken over our kitchens
